Subject: Re: ESIA STAKEHOLDER CONSULTATION MEETING-PROPOSED TELECOMMUNICATION TOWERS AT HARDAP AND AIS AIS RITCHERSVELD RESORTS

Date: Tuesday, 14 September 2021 at 17:24:25 Central Africa Time

From: Elton Kuruseb

To: Tendai E. Kasinganeti

Dear Tendai

I confirmed this with the Deputy Director and he suggested that the process continue until you obtain the ECC and then the lease agreement will be done at the later stage since that process has to be done by the head office.

If there is anything please notify me for clarity.

Regards, Kuruseb

D&P Engineers and Environmental consultants cc were appointed by Powercom Pty Ltd to conduct Environmental and Social Impact Assessment (ESIA) studies for the proposed telecommunication towers at Ais Ais and Hardap Resorts. As part of the ESIA being conducted under the Environmental Management Act No. 7 of 2007 and the Environmental Assessment Regulations of 2012 we are required to conduct a full stakeholder and public participation on the project to map out potential environmental, social, economic and biophysical impacts of the proposed developments.

As such, herewith attached is a letter inviting your office to a stakeholder consultative meeting for the proposed development as well as furnishing you with more information on the project. Also attached are locality maps with pin-pointed areas earmarked for development.

We look forward to your feedback and attendance to the meetings so that we can conduct the development

within the legal and administrative requirements of the Parks Management Plans.

Kind Regards

Tendai

Att: Mr. T. E. Kasinganeti: The Environmental Assessment Practitioner Through
Mr. HET. Tjihukununa: Deputy Director – Southern regions

**Re- endorsing the telecommunication tower construction by PowerCom in
Hardap Game Park**

The above subject bears reference;

The proponent, PowerCom Pty Ltd specializing in telecommunication Base Transceiver stations construction and operations across the country are currently spearheading the establishment of a telecommunication base transceiver stations at key tourist resort areas in the country. In this respect, Hardap was identified for this development.

As an away forward, D&P Engineers and Environmental consultants cc were appointed by PowerCom Pty Ltd to conduct Environmental and Social Impact Assessment (ESIA) studies for the proposed telecommunication towers in Hardap Game Park (HGP). This is in line with the ESIA being conducted under the Environmental Management Act No. 7 of 2007 and the Environmental Assessment Regulations of 2012.

On Friday 10th September 2021, a comprehensive consultative stakeholder and public meeting on the subject matter was held in HGP. The outcome of the meeting was to our satisfaction, we (Park staff) therefore have no objection with the proposed tower construction within HGP, moreover, the contract should only be signed once the Environmental Impact Assessment (EIA) has been approved.

Thanking you in anticipation for your positive consideration.

A handwritten signature in black ink, appearing to read 'J. Kaumba', is written over a solid horizontal line. Below the solid line is a dotted horizontal line.
