PART A: DETAILS OF APPLICANT

1. Name: (person or business)
GCS Water Environmental Engineering (Pty) Ltd (O. B. O Namibia Wildlife Resorts Limited)
2. Business registration/Identity No.
99 001
3. Correspondence Address:
Private Bag 13196, Windhoek
4. Name of Contact Person:
Stephanie Strauss
5. Position of Contact Person:
Environmental Assessment Practitioner
6. Telephone No.:
+264 61 248 614
7. Fax No.:
+264 61 238 586
8. E-mail Address: if any
stephanies@gcs-na.biz

PART B: SCOPE OF THE ENVIRONMENTAL CLEARANCE CERTIFICATE**1. The Environmental Clearance Certificate (ECC) is for:**

Namibia Wildlife Resorts (NWR) is a state-owned enterprise, mandated to run the tourism facilities within the protected areas of Namibia. NWR has several operations across the country which are owned and managed by NWR. The majority of the facilities were constructed prior to the commencement of the Environmental Management Act (EMA) (7 of 2007). As such, Environmental Impact Assessments (EIA) were never conducted for these facilities. However, the facilities are still required to comply with the provisions of the EMA and its regulations. It is therefore required that Environmental Management Plans (EMPs) be developed and implemented for the existing facilities. This EMP is compiled for the existing Jakkalsputz Rest Camp located in the Erongo Region.

2. Details of the activity(s) covered by the environmental clearance certificate:**Title of Activity:**

Operational Environmental Management Plan (EMP) for the existing Jakkalsputz Rest Camp in the Erongo Region

Nature of Activity:

Jakkalsputz Rest Camp is located approximately 11 km south of Hentiesbaai, along the western coast of Namibia. The campsite is located on the beach within the Dorob National Park. It is the largest of three fishing camps within the area.

Jakkalsputz Rest Camp is a camping recreational facility which is considered to be a haven for fishermen with many accessible angling spots along the coast (Camping in Namibia, 2021). The resort includes mainly campsites in terms of accommodation facilities.

The facility was constructed prior to the commencement of the Environmental Management Act (EMA) (7 of 2007). As such, an Environmental Impact Assessment (EIA) was never conducted for the facility. However, the facility is still required to comply with the provisions of the EMA and its regulations and is a listed activity as per Activity 6. It is therefore required that an Environmental Management Plan (EMP) be developed and implemented for the existing facility. This EMP is compiled for the existing Jakkalsputz Rest Camp located in the Erongo Region.

Location of Activity:

Erongo Region (See attached Locality map)

Scale and Scope of Activity:

The scope of this project is limited to obtaining an Environmental Clearance Certificate for the following:

Operational Environmental Management Plan (EMP) for the existing Jakkalsputz Rest Camp in the Erongo Region

Opinion with respect to Environmental Authorisation:

Based on the information provided within the EMP, GCS is confident the identified risks associated with the proposed development can be reduced to acceptable levels, should the measures recommended in the EMP be implemented and monitored effectively. It is therefore recommended that the project receive Environmental Clearance, provided that the EMP be implemented.

PART C: DECLARATION BY APPLICANT

I hereby certify that the particulars given above are correct and true to the best of my knowledge and belief. I understand the environmental clearance certificate may be suspended, amended or cancelled if any information given above is false, misleading, wrong or incomplete.
