

## 1 OVERVIEW

### 1.1 Project Background

Namibia Wildlife Resorts (NWR) is a state-owned enterprise, mandated to run the tourism facilities within the protected areas of Namibia. NWR has several operations across the country which are owned and managed by NWR. The majority of the facilities were constructed prior to the commencement of the Environmental Management Act (EMA) (7 of 2007). As such, Environmental Impact Assessments (EIA) were never conducted for these facilities. However, the facilities are still required to comply with the provisions of the EMA and its regulations. It is therefore required that Environmental Management Plans (EMPs) be developed and implemented for the existing facilities.

### 1.2 Site Description

Jakkalsputz Rest Camp is located approximately 11 km south of Hentiesbaai, along the western coast of Namibia. The campsite is located on the beach within the Dorob National Park. It is the largest of three fishing camps within the area. The locality of Jakkalsputz Rest Camp is depicted in **Figure 1-1** below.
