To whom it may concern

Subject: Letter to support <sup>green</sup> Omayanga village project.

Dear Sir Madam

We would like to declare that the community - members of Omayanga village as well as the neighbouring village community members in large are very proud that we have the Omayanga Green village project which is established in their area and we are strongly recommended or support it to continue with its activity because we will benefit a lot from it for employment, business opportunity, food, security etc.

NB. The meeting which was held on 24/6/24 by the environmental officers together with the Omayanga - Villagers community members was successful and it was very interesting.

For any inquiry don't hesitate to contact me at mobile 823107575

Thanks for your co-operation in this matter.  
 Yours faithfully  
 WENZEL MIBARE HAMBWE

### TO WHOM IT MAY CONCERN

#### RE: LETTER OF SUPPORT TO GREEN VILLAGE

The Ministry of Fisheries and Marine Resources (MFMR) would like to express and confirm its willingness to provide technical support (advisory/extension services on freshwater aquaculture) to the Green Village which is located at Omayanga village, Okatana Constituency in Oshana Region. These services include provision of technical advice on fish farm management, advice on pond construction and supply of fish fingerling (at minimum cost).

The proposed project site was assessed on the 8<sup>th</sup> of April 2024 by the MFMR staff members from Ongwediva IAC. Consultation with Green Village during site assessment had a positive outcome, and efforts have been made to allow this project to go ahead.

The development of the aquaculture sector is one of the MFMR strategic objectives for food security, improved nutrition, income generation and employment creation. The Ministry recognises this project as an important undertaking and commit to provide technical advisory/extension services support to Green Village in this endeavour.

  
Ms. Anneli Haiphene  
EXECUTIVE DIRECTOR
