ENVIRONMENTAL IMPACT ASSESSMENT FOR THE EXPLORATION ON EPL 5075 IN THE DOROB PARK

The proponent North River Resources is currently the holder of EPL 5075 which is located in the Dorob National Park. North River has an extensive exploration landholding in Namibia ranging from newly issued exclusive prospecting licences ('EPLs') to properties with identified JORC Compliant copper resources. In addition North River has an EPL covering the historic Namib Lead and Zinc mine.

The proponent intends to conduct exploration on EPL 5075. EnviroSolutions was tasked to conduct an Environmental Impact Assessment which is in line with the requirements of the Environmental Management Act 7 of 2007 and Regulation 21 of the environmental impact assessment (EIA) Regulations (January 2012).

All Interested and Affected Parties are hereby invited to register by 07 September 2013.
