

**Date:** 15 November 2021

**RE: Support Letter from the Rundu Town Council regarding the proposed Rezoning of Erf 1528 & 1530, Rundu, Extension 5 from General Residential and Residential to Hospitality and the Consolidation of the aforementioned erven with Erf 1532, Rundu**

Inquiries were made with the Rundu Town Council regarding the subject matter. The Town Council indicated that they do not issue such letters as the activity undertaken is provided for in the Town Planning Scheme of the Rundu Town Council. They advised that if the rezoning and consolidation are in line with the Town Planning Scheme they would have no objection.

Once the EIA process is finalized and Environmental Clearance issued, an application for rezoning and consolidation will then be lodged with the Rundu Town Council for their consideration and subsequently to the Townships Board for the approval of the rezoning and consolidation.

I hope the above is in order.
