Dear Sir/Madam

CONSENT LETTER: ENVIRONMENTAL MANAGEMENT PLAN FOR OPERATIONAL ACTIVITIES OF AN EXISTING CONSUMER FUEL INSTALLATION ON ERF 2968, WALVIS BAY.

Ref. No. 2968 W

Consent is hereby granted based on Erf ownership and zoning to start with the processes of obtaining approvals, permits, licenses, certificates and etc., for the environmental management plan for the continued operations and the planned upgrade of the existing consumer fuel installation on Erf 2968 Walvis Bay, Heavy Industrial Area. As per the environmental management plan report, the facility has one aboveground 23 m³ diesel tank which is used to supply fuel to the proponent's fleet vehicles. The Proponent further proposes to replace the tank with a self-contained diesel tank as part of routine maintenance.

This consent does not in any way hold the Municipality of Walvis Bay accountable for any misleading information or adverse effects that may arise from the project execution activities. Instead, full accountability lies with Rennies Consolidated as the development proponent.

Yours faithfully

David Uushona
Manager
Solid Waste and Environmental Management
