**Appendix E: Background Information Document (BID)**

## **Background Information Document (BID)**

**Project Name:**

**Environmental Scoping Assessment (ESA) for the Proposed Mineral Exploration Activities on Exclusive Prospecting Licence (EPL) No. 7685 located west of Okakarara in the Otjozondjupa Region, Namibia**

**Environmental Assessment Practitioner:**

**Excel Dynamic Solutions (Pty) Ltd**

**Proponent:**

**Einekelo Investment CC**

## 1 INTRODUCTION AND BACKGROUND

Einokelo Investment CC (hereinafter referred to as The Proponent) has been granted an Exclusive Prospecting Licence (EPL) No. 7685 by the Ministry of Mines and Energy (MME). The tenure of the EPL is from 20<sup>th</sup> November 2019 to 19<sup>th</sup> November 2022. Therefore, the EPL is subjected to an Environmental Clearance Certificate, thus the “pending renewal” status on the mining cadaster portal. The 31 744.0067 hectares (ha) EPL is located about 20. 08 km from Okakarara in the Otjozondjupa Region (Figure 1). The EPL covers (overlies) Farm Okuzauna 370, Ohirima 352, Okawaka 150, Okawakona 351, Farm 582, Klein Waterberg 452, New Otjikaru 526, Ombujomatemba 287, Rodestein 307 and Klein Humakari 286 (Figure 2). The EPL has potential for commodities such Base & Rare Metals, Dimension Stones, Industrial Minerals, Non-Nuclear Fuel Minerals and Precious Metals.

Exploration and all mining-related activities are among the listed activities that may not be undertaken without an Environmental Clearance Certificate (ECC) under the Environmental Management Act (EMA) (2007) and its 2012 Environmental Impact Assessment (EIA) Regulations. The relevant listed activities as per EIA regulations are:

- *3.1 The construction of facilities for any process or activities which requires a license, right of other forms of authorization, and the renewal of a license, right or other form of authorization, in terms of the Minerals (Prospecting and Mining Act, 1992).*
- *3.2 other forms of mining or extraction of any natural resources whether regulated by law or not.*
- *3.3 Resource extraction, manipulation, conservation and related activities.*

The Proponent is, therefore, required to obtain an ECC for the approval of the EPL and before the commencement of works on the EPL. To fulfill the legal requirements, the Proponent has appointed Excel Dynamic Solutions (Pty) Ltd, an independent team of Environmental Consultants, to conduct the required Environmental Scoping Assessment (ESA) process and submit the ECC application to the Department of Environmental Affairs and Forestry (DEAF) at the Ministry of Environment, Forestry & Tourism (MEFT).

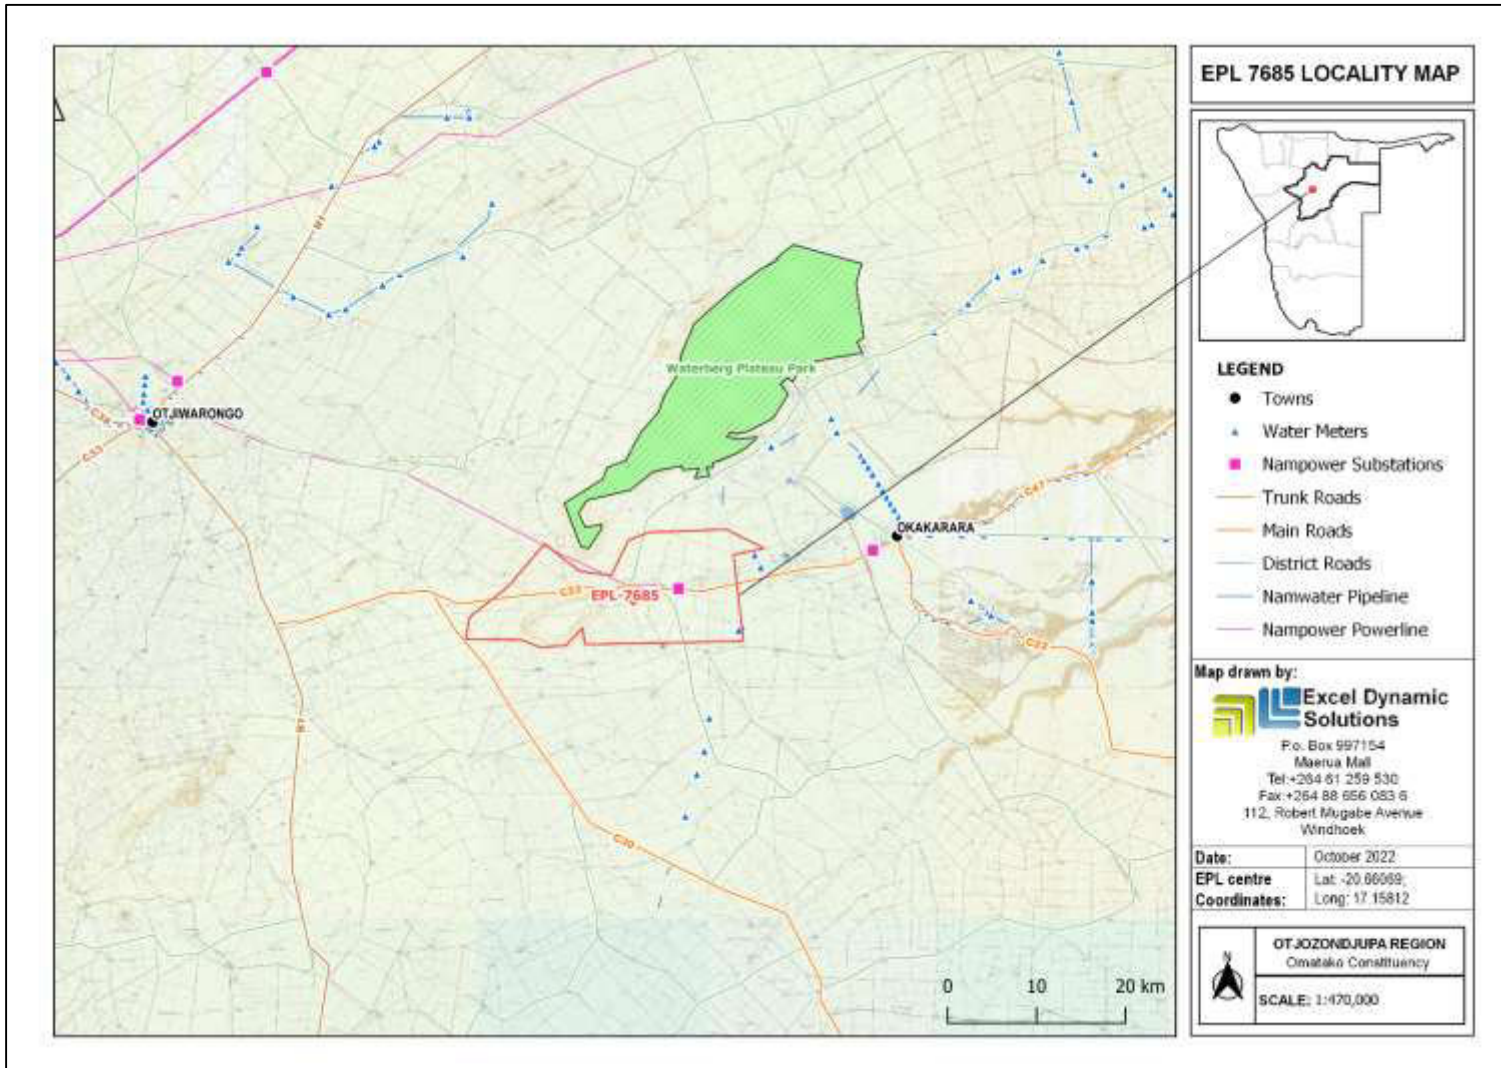

Figure 1: The locality map of EPL 7685 located near Okakarara in the Otjozondjupa Region

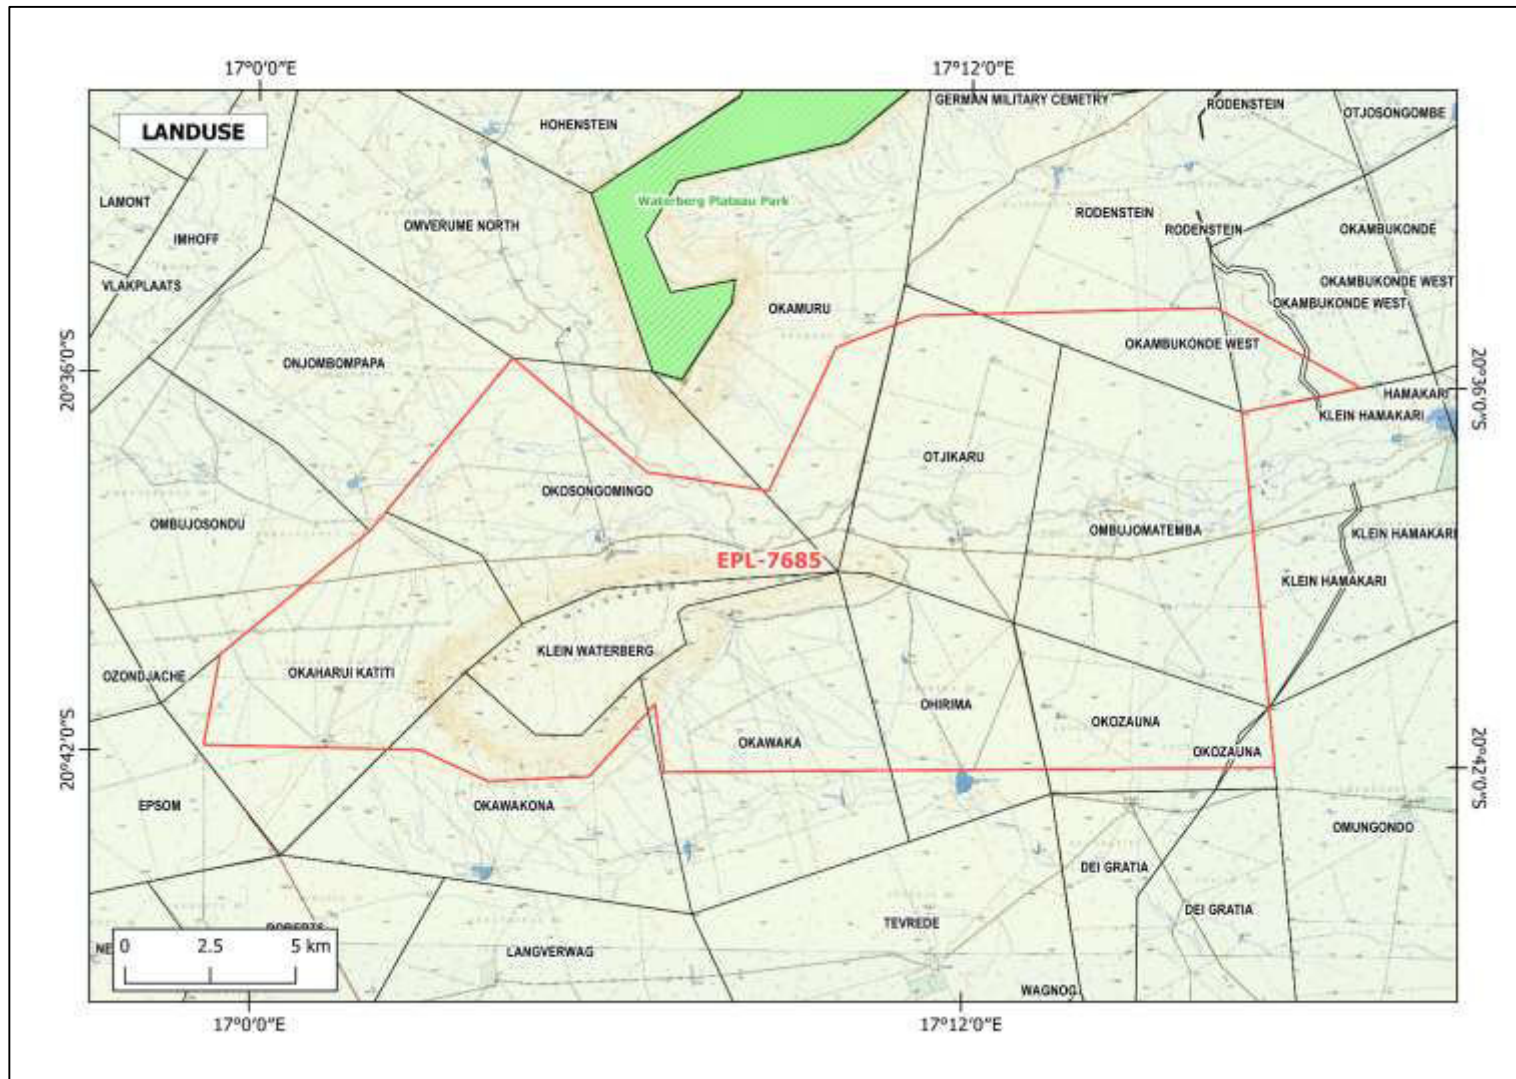

Figure 2: EPL 7685 with affected land use and neighboring farms

## 2 PURPOSE OF THIS DOCUMENT

It should be noted that the Background Information Document (BID) is a non-technical document of the ESA (not an ESA Report). The BID is to:

-Briefly introduce the proposed project and related activities to potential interested and affected parties (I&APs) / stakeholders, and provide them an opportunity to raise issues, concerns / submit comments about the proposed project.

Once the Proponent has been issued with the ECC and obtained all required permits such as land use consent, where necessary and is ready to commence the exploration activities, the planned activities will commence.

## 3 PROJECT DESCRIPTION

The proposed activities entail prospecting and detailed exploration activities to delineate the mineral deposits. This is to determine whether the deposit for the targeted commodities is economically feasible (to advance to the resources development and mining phase).

The prospecting and exploration of minerals are the first components of any potential mining project. This is done to acquire the necessary data required for further decision-making and investment options.

Exploration activities are anticipated to last for about three years or sometimes longer (depending on the various factors such as turnaround between exploration data analysis and availability of funds between project phases, etc.).

### 3.1 Project Activities

The proposed prospecting and exploration activities (methods) are divided into the following categories:

- Phase 1: Non-invasive techniques (prospecting) – mapping / surveys.
- Phase 2: Invasive techniques (detailed exploration) – soil sampling, trenching and exploration drilling.

Once the target areas have been selected and verified under the prospecting phase, detailed exploration works will follow.

### 3.2 Human Resources, Services, and infrastructure

The following services and infrastructure as provided below will be required for the project activities:

- Human resources and accommodation:** Around 5-10 people will be employed on-site during the exploration phase and will be accommodated in tented camps.
- Water supply:** Around 4,500 liters of water will be required for the activities per month.

**-Fuel Supply (machinery and equipment):** Diesel will be used for machinery and equipment and fuel generator.

**-Accessibility (roads):** The EPL is accessible via the C22 from Okakarara that leads to the EPL area.

**Waste management:**

**Sewage:** Mobile chemical ablation facilities will be provided on-site.

The wastewater will be transported offsite for treatment at a facility.

**Solid waste:** Sufficient waste bins (containers) will be made available at exploration sites and campsites for waste storage and later disposal at the nearest approved waste facility.

**Hazardous waste:** The waste fuel/oils will be carefully stored in a standardized container for disposal at an approved hazardous waste management facility in the nearest Town.

**-Health and Safety:** Adequate and appropriate Personal Protective Equipment (PPE) will be provided to project personnel. A minimum of two first aid kits will be readily available onsite.

**-Potential Accidental Fire Outbreaks:** Fire extinguishers will be readily available in vehicles, at the sites and campsite.

**-Project Equipment, Material, Machinery, and Vehicles:** Two 4X4 vehicles, drilling supporting truck, excavator / front-end loader, dozer, air compressor, drilling fluids stored in manufacturers approved containers, generator for power supply, etc. will be required for the proposed project.

Upon completion of exploration works, the disturbed sites will be rehabilitated as practically possible. This will include backfilling of exploration trenches, boreholes, levelling of stockpiled topsoil and cleaning of site areas.

#### 4 ENVIRONMENTAL ASSESSMENT

This ESA process is conducted in accordance with the provisions stated in the EMA No 7 of 2007 and its 2012 EIA Regulations. The primary objective of the ESA is to identify potential negative impacts associated with the project and assess them. Practical and effective mitigation measures will be recommended for implementation.

The main objectives of this ESA are to:

- Identify potential impacts associated with the proposed Activity.
- Inform I&APs and relevant authorities about the project and provide them with an opportunity to participate during the ESA process.
- Assess the significance of issues and concerns raised.
- Compile a report addressing all identified issues and potential impacts.
- Compile a Draft Environmental Management Plan (EMP) which includes impacts management and mitigation measures.

#### 4.1 Potential Impacts

The following potential impacts have been identified:

##### 4.1.1 Positive:

- Socio-economic development: employment creation and skills transfer.
- Investment opportunities/infrastructure-related development benefits,
- Produce a trained workforce and small businesses in the area.
- Boosting the local economic and regional economic development.
- Increased support for local businesses through the procurement of locally available goods and services.

##### 4.1.2 Adverse (Negative) Impacts:

- Disturbance of existing communal grazing areas,
- Physical land/soil disturbance and prone to erosion
- Impact on fauna and flora (habitat disturbance and poaching).
- Water resources (over-abstraction of water) and soils pollution.
- Air quality issue owing to dust generation
- Occupational and community health and safety risks/hazards
- Vehicular traffic safety and services infrastructure (local roads).
- Vibrations and noise associated with drilling activities.
- Environmental pollution from poor waste management,

-Archaeological or cultural heritage impact

-Potential social nuisance and land use conflicts.

Other potential impacts may be identified as the ESA process progresses. All impacts and public concerns/comments will be incorporated and addressed in the Environmental Report and EMP.

#### 4.2 Public Consultation Registration

Public consultation is an important part of the EA process. During the consultation process, I&APs are given an opportunity to raise any issues or concerns pertaining to the project activities.

To comment or receive further information on the project, please register with Excel Dynamic Solutions (Pty) Ltd as an I&AP to be provided the opportunity to comment on the ESA / Scoping Report.

**Contact: Mr. Silas David: Environmental Assessment Practitioner**

**Tel: +264 (0) 61 259 530 Email: [public@edsnamibia.com](mailto:public@edsnamibia.com)**

#### 4.3 Public and Stakeholders Consultation Meeting

Furthermore, the Consultation Meeting details will be communicated to registered I&APs.

**Appendix F: EIA Notification in the newspapers (New Era and the Namibian)**

### NOTICE FOR ENVIRONMENTAL IMPACT ASSESSMENT

Environclim Consulting Services cc hereby gives notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to the Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the following:

**PROJECT NAMES:** Environmental Impact Assessment (EIA) for the establishment of mining activities on two (2) Mining Claims no; 73787 & 73788, in Usakos District, Erongo Region.

**PROJECT LOCATION:** The mining claims are situated approximately 16 Km north of Usakos, Erongo Region.

**PROJECT DESCRIPTION:** The project involves conducting an Environmental Impact Assessment (EIA) for the establishment of semi-precious stones and industrial mineral at the above mining claims.

**PROJECT INVOLVEMENT:** Proponent: Mr Matti Shigwedha

**Environmental Assessment Practitioner (EAP):** Environclim Consulting Services cc

**REGISTRATION OF I&APs AND SUBMISSION OF COMMENTS:** In line with Namibia's Environmental Management Act (No. 7 of 2007) and EIA regulations (GN 30 of 6 February 2012), all I&APs are hereby invited to register and submit their comments, concerns or questions in writing via: Email: environclim@gmail.com on or before Friday 21<sup>st</sup> November 2022.

**A public participation meeting will be held as follows: Place:** Traditional Authority Hall, Usakos  
**Date:** 5<sup>th</sup> November 2022  
**Time:** 10h30  
**Contact:** +264 812705001  
**Email:** environclim@gmail.com

### NOTICE OF ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR: THE PROPOSED MINERAL EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENSE (EPL) No. 7685 LOCATED WEST OF OKAKARARA, OTJOZONDJUPA REGION.

Under the Environmental Management Act No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations, the proposed prospecting and exploration activities require an Environmental Clearance Certificate (ECC) from the Department of Environmental Affairs and Forestry before commencement.

The public is hereby notified, that an application for an ECC will be submitted to the Environmental Commissioner.

**Project Type & Location:** The proposed prospecting & exploration of **Base & Rare Metals, Dimension stone, Industrial Minerals, Non-nuclear Fuel Minerals and Precious Metals** on EPL 7685. The 31 744.0067-ha EPL is located about 32 km West of Okakarara in the Otjozondjupa Region. The EPL covers (overlies) Farms Okambukonde 417, Rodenstein 307, Ombujomatamba 287, New Otjikaru 526, Okuzauna 370, Chirima 352, Farm No. 582, Okawakona 351, Okawaka 150

**Proponent:** Einkelelo Investment CC  
**Environmental Consultant:** Excel Dynamic Solutions (Pty) Ltd

Members of the public are invited to register as Interested and Affected Parties (I&APs) in order to comment/raise concerns or receive further information on the Environmental Assessment process.

**Public consultation meeting details will be communicated with all the registered I&APs.** Registration requests and comments should be forwarded to Excel Dynamic Solutions (Pty) Ltd on the contact details below, before or on the **11 November 2022**.

**Contact:** Ms. Aili lipinge

### REZONING NOTICE:

Please note that the owner of Erf 506, Oshakati West, Oshakati intends to apply for:

- Rezoning of Erf 506, Oshakati West, Oshakati, from 'Single Residential' with a Density of 1:600 to 'General Residential' with a Density of 1:100

Erf 506 is situated in Oshakati West, Oshakati. The Erf is 940 m<sup>2</sup> in extent and is currently zoned 'Single Residential' with a density of 1:600. The proposed new zoning will allow the owner to use the said Erf for Business Activities as per the provisions of the Oshakati Town Planning Scheme. Access to the Erf will be obtained from the existing entrance. Parking will be provided in accordance with the requirements of the Oshakati Town Planning Scheme.

Please note that the locality plan of the Erf lies for inspection on the Town Planning Notice Board at **Oshakati Town Council Office Building, 906 Sam Nujoma Road, Civic Center, Oshakati.**

Further take note that any person objecting to the proposed use of land set out above may lodge such objection, together with the grounds therefore, with the **Oshakati Town Council** and with the applicant in writing within 14 days after the appearance of the last notice (**final date for objections 21 November 2022**).

## **PUBLIC CONSULTATION MEETING MINUTES:**

### **ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR THE PROPOSED PROSPECTING & EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENCE (EPL) No. 7685 LOCATED WEST OF OKAKARARA IN THE OTJOZONDJUPA REGION**

**Date:** Tuesday, 08 November 2022

**Time:** 10:00 – 10:56

**Venue:** Okakarara Community Hall

The public consultation meeting was attended by three (3) people, including one (1) environmental consultant and an archaeologist from Excel Dynamic Solutions (Pty) Ltd (EDS) - **Please refer to the attached attendance register.**

## **INTRODUCTION AND WELCOMING REMARKS**

The meeting was officially opened by Mr. Stefanus Johannes, an Environmental Assessment Practitioner (EAP) from Excel Dynamic Solutions (Pty) Ltd. Furthermore, he expressed gratitude to everyone in attendance for making time to attend the meeting.

The meeting attendance register was then circulated for the attendees to write down their names, and contact details and sign so that they could be added to the list of Interested and Affected Parties (I&APs) and receive further information on the ESA process.

## **MEETING AGENDA AND PRESENTATION**

The agenda of the meeting included the following main points:

**Physical Address:** 112, Robert Mugabe Avenue, Windhoek

**Postal Address:** PO Box 997154 Maerua Mall, Windhoek

**Telephone:** +264 (0) 61 259 530

**Fax2email:** +264 (0) 886 560 836

**Email:** [info@edsnamibia.com](mailto:info@edsnamibia.com)

**Web:** [www.edsnamibia.com](http://www.edsnamibia.com)

## **2.1 Brief Description of the Project**

Mr. Johannes provided a short description of the planned project and its associated activities, the Environmental Scoping Assessment (ESA) process, and the reason the Proponent appointed Excel Dynamic Solutions (Pty) Ltd (EDS), an independent environmental consultant to carry out the EIA and apply for the Environmental Clearance certificate (ECC).

## **2.2 Presentation of Potential Project Impacts**

To ensure transparency and clarity for the attendees, the Environmental Consultant presented the potential pre-identified potential positive & negative environmental and social impacts.

## **2.3 Public Open Discussion (Interactive Session)**

Mr. Johannes provided the meeting attendees the opportunity to raise their concerns/issues and or comment on the proposed project activities. The issues and comments are presented in **Table 1** below.

**Table 1: Comments and issues raised during the public consultation meeting, 08<sup>th</sup> of November 2022**

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
1.	<p><b>Mr. Gerd Sohrada (GS):</b> As stated in the Background Information Document (BID), the operational phase of the proposed project will require water. It is worth mentioning that groundwater is very scares in the area and a big concern to us. The proposed project activities will potentially affect our crop production and animals (domestic and wildlife), in terms of groundwater abstraction in the area.</p> <p><b>Mr. GS:</b> The main source of water in the area is rain water sourced from a canal to the dam, by using a pumping generator. This water is used to supply water for the neighboring farms for their daily activities.</p> <p><b>Mr. GS:</b> The area has some archaeological significance such as graves</p>	<p><b>Mr. Stefanus Johannes (SJ):</b> Thank you for raising such an important concern. Once an ECC is granted for the proposed project, the Proponent will be required to apply for an abstraction permit from the Ministry of Agriculture, Water and Land Reform (MAWL). This permit comes with condition of how much water the Proponent is allowed to abstract from the ground, to avoid groundwater over-abstraction. Furthermore, deemed abstracted groundwater are not enough for the proposed project activities. The Proponent is recommended to consult the Okakarara Town Council to source the project with water.</p> <p><b>Mr. SJ:</b> Noted, with thanks.</p>

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
	<p>and caves and I believe these aspects should be taken into account.</p> <p><b>Mr. GS:</b> Is there any law that deals with the issue of property rights between the EPL holder and the farmer/s?</p> <p><b>Mr. GS:</b> What is the intention of the Proponent? Deemed the prospecting and exploration results are good, will the Proponent sell the EPL on the market?</p>	<p><b>Mr. SJ:</b> Well noted. Archaeologically, such significant are not allowed to be disturbed during the exploration phase. The Proponent is highly recommended to ensure that the exploration activities are not conducted within a radius of 1.5 km. A trained and experienced archaeologist is recommended to be on site and/or on standby during the operational phase of the project.</p> <p><b>Mr. SJ:</b> Yes, there is. The Namibian constitution states, what is on the earth surface belongs to the farmer and what is below the earth surface belongs to the states which in this case, the Proponent has applied for as his property.</p> <p><b>Mr. Baron Mabhumbo (BM):</b> Excel Dynamic Solutions Pty Ltd (EDS) is currently conducting a study in that nature to see possible ways of how we can provide solutions to such property conflicts. Our office is willing to provide information, to give you a platform to contribute to the study.</p> <p><b>Mr. SJ:</b> Thank you for the questions, what the Proponent intend to do with the EPL once an Environmental Clearance Certificate (ECC) is granted is outside our scope of work. We are consulted to conduct an environmental Scoping assessment for the project only; to ensure that the proposed project activities do not environmentally, socio- economically negatively affect the surrounding.</p>

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
	<p><b>Mr. GS:</b> Once an ECC is granted, does this means that the Proponent should prospect and explore within three (3) years?</p> <p><b>Mr. GS:</b> Another concern I have is the amount of commodity the Proponent has applied for prospecting and exploring, which seems to be almost everything. Will the Proponent explore and prospect for all these Commodities (i.e. Base &amp; Rare Metals, Dimension Stones, Industrial Minerals, Non-Nuclear Fuel Minerals and Precious Metals)?</p> <p><b>Mr. GS:</b> Is the Proponent going to rehabilitate the trenches and holes that will be created during the exploration phase?</p>	<p><b>Mr. SJ:</b> The ECC is only valid for three (3) years whereby the Proponent should try by all means to prospect and explore by following the right procedures. Within those three years it is a requirement from the Ministry of Environment, Forestry and Tourism (MEFT) the Proponent should consult an independent environmental consultant to conduct an environmental audit every 6<sup>th</sup> month when an ECC was issued. The aim of the environmental audit is to ensure that the Proponent is adhering to the recommendation as stipulated in the Environmental Management Plan, which is a statutory document.</p> <p><b>Mr. SJ:</b> The Proponent is basically not limited to the number of commodities he/she is allowed to apply on EPL or a mineral right application, taking into consideration his/her interest.</p> <p>Yes, the Proponent intends to prospect and explore for those mineral commodities. Deemed, an economically viable mineral is determined from those commodities, the proponent will have to apply for a Mining Licence (ML). Whereby an EIA consultation process will need to conducted.</p> <p><b>Mr. SJ:</b> Yes, rehabilitation is highly recommended for the proposed project.</p>

## **FINAL REMARKS AND CONCLUSION OF THE MEETING**

Mr. Johannes thanked the attendees for their crucial input through comments and raising their concerns. He indicated to the attendees that all their comments, concerns and inputs had been noted down for consideration, and for addressing in the Environmental Scoping Assessment (ESA) Report, as well as incorporating their recommendations into the draft EMP.

Furthermore, Mr. Johannes informed the attendees that the draft meeting minutes, Environmental Assessment Report, and Environmental Management Plan (EMP) will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register.

Once the review of the reporting is completed, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration for an ECC.

The meeting adjourned at 10h56.
