Dear Sir

**SUBJECT: ENVIRONMENTAL CLEARANCE FOR THE ENVIRONMENTAL IMPACT ASSESSMENT FOR THE PROCESSING OF EXISTING COPPER STOCKPILES AND MINING ACTIVITIES ON THE MINING CLAIMS 69236-69245 SITUATED IN KARIBIB DISTRICT, ERONGO REGION**

The Environmental Impact Assessment submitted is sufficient as it made an adequate provision of the environmental management during your project activities. From this perspective regular environmental monitoring and evaluations on environmental performance should be conducted. Targets for improvements should be established and monitored throughout this process.

In view of the fact that your project is located in an environmentally sensitive area, this Ministry reserves the right to attach further legislative and regulatory conditions as follows; the zoning accommodating the proposed project should be made before the commencement of the project.

On the basis of the above, this letter serves as an environmental clearance for the project to commence. However, this clearance letter does not in anyway hold the Ministry of Environment and Tourism accountable for misleading information, nor any adverse effects that may arise from this project activity. Instead, full accountability rests with the proponent and his/ her consultants.

This environmental clearance is valid for a period of 3 (three) years, from the date of issue unless withdrawn by this office.

Yours sincerely

Teofilus Nghitila
