14 December 2021

To whom it may concern

Ref: consent letter for the application for an Environmental Clearance Certificate for exploration activities on Epl 7209 at and surrounding Otjikondavirongo village.

The leadership of the Otjikaoko Traditional Authority and their subject community have no objection for the application for an environmental clearance certificate for the exploration on Epl 7209 at Otjikondavirongo village within our jurisdiction.

The proponent, Sunset investment cc must however adhere to all mandatory requirements as per the agreed social responsibility with the traditional authority and the community of Otjikondavirongo village and should continue to engage with our office so that the community benefits from the mining activities that would take place if the mine starts with the operations.

Mr. Otniel Koujo is currently doing mining operations on mining claim 71113 and we have no problem with him, so he can continue and create more employment for our youth since he is also the owner of Sunset investment cc.

Yours truly

Mr. Uanjanekua Rukongo (Local Headman)

Mr. Ujeuetu Tjihange – Acting Chief OTA
