NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT (EIA): ENVIRONMENTAL CLEARANCE CERTIFICATE FOR THE PROPOSED EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENSE (EPL) NO. 8189 LOCATED NORTHEAST OF KHORIXAS, KUNENE REGION.

Under the Environmental Management Act No. 7 of 2007 and its 2012 EIA Regulations, the proposed prospecting and exploration activities on EPL No. 8189 requires an Environmental Clearance Certificate (ECC) from the Department of Environmental Affairs (DEA) before commencement.

The public is hereby notified, that an application for an ECC will be submitted to the Environmental Commissioner. Brief Project Description: The environmental scoping process will identify potential positive and negative impacts stemming from the proposed exploration activities on EPL No. 8189. Invasive and non-invasive activities are expected to take place upon issuance of an ECC. The targeted commodities are Base and Rare, and Precious Metals.

Proponent: Golden Empire Mineral Mining CC
Environmental Consultant: Excel Dynamic Solutions (Pty) Ltd

Members of the public are invited to register as Interested and Affected Parties in order to comment/raise concerns or receive further information on the Environmental Assessment process.

Public participation meeting will be held on:

Date: 24 November 2021
Time: 11h00
Venue: To be confirmed and communicated with Interested and Affected Parties

Registration requests and comments should be forwarded to Excel Dynamic Solutions (Pty) Ltd on the contact details below, before or on 6 December, 2021.

PUBLIC CONSULTATION MEETING MINUTES:

ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR THE PROPOSED EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENSE (EPL) NO. 8189 NORTHWEST OF KHORIXAS TOWN IN THE KUNENE REGION, NAMIBIA

Date: Saturday, 04 December 2021

Time: 11h00

Venue: Fransfontein Traditional Authority Office

The Public Consultation Meeting was attended by over twenty (20) people. Thereafter, Mr. Nerson Tjelos ('Consultant' hereafter) visited Farm Braklaagte where 3 farmers (who are also smaller scale miners) were notified of the project and engaged to share their concerns and input. **Please refer to the attached attendance register.**

COVID-19 REGULATIONS ADHERENCE

The Consultant reminded the gathering of the COVID-19 health regulations. Traditional Authority office has hand sanitation facilities that were availed to meeting attendees. The chairs were set up in a way that social distancing between the people is observed and every attendee had a face mask on.

TRANSLATION OR INTERPRETATIONS OF LANGUAGES (ENGLISH AND OSHIWAMBO)

Given the fact that some of the meeting attendees were elders from the area who only spoke Damara and Afrikaans language and to ensure transparency and effective communication in the meeting, Mr. Romeo Nauseb translated for the elders (from English to Damara) and provided translation to the Consultant from Damara to English to make sure that all comments and other inputs presented in the local language were recorded in the minutes for consideration in the ESA Report.

INTRODUCTION AND WELCOMING REMARKS

The meeting was opened with a prayer and welcoming remarks by the Traditional Authority Senior Leader Ms Anna Ihuhua. She then handed over the floor to the Consultant who expressed gratitude to everyone in attendance for making time to attend the meeting and briefly introduced himself and the consulting company to the community members and explained to the attendees what the meeting was all about and why they were invited.

The meeting attendance register was circulated for the attendees to write down their names, contact details and sign so that they could be added to the existing list of interested and affected parties (I&APs) and receive further information on the ESA process.

MEETING AGENDA AND PRESENTATION

The consultant presented the agenda of the meeting which included the following main points:

2.1 Brief Description of the Project

A brief description of the project activities was presented to the attendees. The consultant gave a background of Golden Empire Mineral Mining CC highlighting their interests as the EPL holder including exploration and development activities for exploitation of Base and Rare Metals on the EPL area and the brief presentation of the activities and resources anticipated for the project.

The Consultant further explained the EIA process to the community members and outlined the competent authorities for the project and what their roles are in the proposed project. He further explained that the proposed exploration activities are one of the listed activities that cannot be undertaken without an environmental clearance certificate (ECC) from the Environmental Commissioner; and what the ECC entails and its purpose in line with the proposed project.

2.3 Presentation of Potential Project Impacts

The consultant presented the pre-identified potential positive (i.e., creation of employment opportunities, boosting of local economy etc.) and negative environmental (disturbance of farming land, impact on biodiversity, surface scars, occupational health and safety etc.) and social impacts to the attendees, this was done to ensure that the community understand both sides of the activities on the proposed project.

2.4 Public Open Discussion (Interactive Session)

The meeting attendees were then presented with an opportunity to raise their concerns/issues and or comment on the proposed project activities.

The issues and comments recorded are presented in **Table 1** below.

Table 1: Comments and issues raised during the public meeting in Fransfontein and on the Braklaagte Farm.

Comment/ issue No.	Issue / comment / question	Response and name of responder:
1.	The targeted area is hard hit by drought. In the past explorers drilled water boreholes and capped them when they left. In the future water supply points should be left to the community.	Consultant: The concern is noted. Recommendations will be made to the Proponent in the ESA report and in the Management Plan under Decommissioning Section.
2.	To what extent are the community concerns considered by the competent bodies before issuing clearance certificates	Consultant: Public concerns and comments play a big role in the evaluation of environmental assessment reports and in the decision-making- whether to issue the clearance certificate or not. We therefore advise that the community members share as many concerns as they possibly have with the consultant or directly to relevant authorities such the Traditional Authority, the Ministry of Environment, Forestry and Tourism or Ministry of Mines and Energy.

Comment/ issue No.	Issue / comment / question	Response and name of responder:
3.	Who is the owner of this EPL? Are they listed on the Namibia Stock Exchange (NSX)	Consultant: The EPL is owned by a local company, Golden Empire Mineral Mining CC. The company is not listed on NSX
4.	What is the target commodity?	Consultant: Primary target is Base Metals (i.e., Copper)
5.	Community members should be prioritized when the company is hiring. We have also experienced in the past that locals are underpaid by these companies when comparing to what they pay people from outside.	Consultant: The concern is noted. Salaries amount depend on work experience, skills and technical know-how. This needs to be clarified to all recruits at the beginning of the hiring process.

Comment/ issue No.	Issue / comment / question	Response and name of responder:
6.	I support the proposed project. Mining is the only economic activity that can help our communities. Farming is no longer viable with unpredictable climatic conditions.	Consultant: Comment is noted.
7.	We have small scale miners in the same area. How do they apply for certification?	Consultant: Miners can approach the Ministry of Mines and Energy or representatives, or Regional/Local Authority offices to assist them with understanding the legal requirements for applying for mineral rights.
8.	Will there be another meeting?	Consultant: Depending on the demand, we can organize for a follow up meeting. We however recommend that whoever has more comments or issues to raise that they do it through the Traditional Authority Office then the office can share with us. We understand most of the community members do not have access to the modern platforms of communication such as emails and postal mails.
9.	How about access roads to exploration site? Is that something the Proponent will work on to make sure there is a proper access road	Consultant: Access Road(s) creation would be one of our recommendations in the ESA report.
10.	How long will the ECC take to be issued? When is the estimated commencement date for exploration works?	Consultant: The process can take from 3 - 4 months before issuing of Environmental Clearance Certificate.

FINAL REMARKS AND CONCLUSION OF THE MEETING

The Consultant thanked the attendees for their crucial input through comments and raising their concerns. He indicated to the attendees that all their comments, concerns and inputs had been noted down for consideration and addressing in the ESA Report.

Furthermore, the Consultant informed the attendees that they will have an opportunity to review the meeting minutes meeting and to submit further questions/ comments for incorporation into the draft ESA Report which will also be shared with the public for their review. The EMP and associated documents will be shared with the public for review and further comments prior to finalizing the ESA Report and its submission to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for consideration of an ECC. He also informed them that the period for submission of comments will be open for another 2-3 weeks, after which if there are still concerns and comments they can do so directly to the Ministry of Environment, Forestry and Tourism.

The Senior Traditional Authority Leader concluded the meeting by thanking the attendees for making time for the meeting and with a closing prayer.

The meeting was adjourned at 13h20.
