Namibia

09 September 2021

**To: Whom it May Concern**

**REF: Consent letter for the application for an Environmental Clearance Certificate for the mining activities for base and rare metals (copper ore) and semi-precious stones at mining claim 72444 at Otjikondavirongo Village, Kunene Region.**

The leadership of the Otjikaako Traditional Authority and their subject community have no objection for the application for an Environmental Clearance Certificate for the mining of base and rare metals (copper ore) and semi-precious stones at mining claim 72444 at Otjikondavirongo village within our jurisdiction.

The proponent, Mr. Otniel Koujo must however adhere to all mandatory requirements as per the agreed social responsibility with the Traditional Authority and the community of Otjikondavirongo village and should continue to engage with our office so that the community benefits from these mining activities through the community trust fund to allow for our developmental priorities to be undertaken. Currently, Mr Otniel Koujo is undertaking mining activities in the area on the adjacent mining claim 71113, which employs 11 local people for its operations. Thus, he intends to create more employment opportunities and contribute to the local economy.

Yours truly,
