Dear Madam,

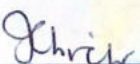

ADDITION OF COMMODITIES: BASE AND RARE METALS (BRM) ON ACTIVE MINING CLAIMS 73434

Your letter received on 12 September 2023 has reference.

For your request to be considered, i.e., to register your mining claim with BRM, you are required to carry out an Environmental Impact Assessment (EIA) as per Environmental Management Act. Additionally, you are required to **submit a valid Environmental Clearance Certificate (ECC) with Base and Rare Metals as a target commodity** on this mining claim. Only after this process that you can be permitted to commence with mining activities relating to BRM.

In the meantime, the registration and your activities on mining claim 73434 remains for SPS only, until you submit a new ECC.

Yours sincerely,

13/09/2023
Ms Isabella Chirchir
Mining Commissioner
