Dear Director,

Mining Licence ML111 : Operations during Environmental Clearance Certificate April 2019 to April 2022

This letter serves to inform that during the above-mentioned in-date Environmental Clearance Certificate no exploration or mining related activities took place within licence area ML111.

Since our previous mine campaign which ended January 2019 an updated exploration programme has been developed to finalise data collection towards designing the next mine programme.

An extended period of potential activity on site was further lost due to Covid related restrictions imposed by the Namibian Government.

This exploration programme will be activated once Diamond Fields Namibia has concluded a new agreement with an exploration and mining contracting company.

Sincerely Yours,

A handwritten signature in black ink, appearing to read 'Sybrand van der Spuy'. The signature is written over a circular stamp or seal that is partially obscured.

Sybrand van der Spuy
COO: Diamond Fields Namibia (Pty) Ltd
