

Communication with I&APs, and Means of Consultation Employed

Regulation 21 of the EIA Regulations details the steps to be taken during a public consultation process and these have been used in guiding this process. Communication with I&APs with regards to the proposed exploration activities was facilitated through the following means and in this order:

- A Background Information Document (BID) containing brief information about the proposed project was compiled and uploaded on the MEFT (ECC) Portal for project registration and shared with registered Interested and Affected parties (I&APs).
- Project Environmental Assessment notices were published in The Namibia Media Holdings' *Market Watch* newspapers (*Allgemeine Zeitung, Die Republikein, and Namibian Sun*) dated 07 and 15 November 2022 – Appendix D. The adverts provided a brief of the activity, locality, inviting members of the public to register as I&APs and submit their comments/concerns.
- After the newspaper adverts, an attempt (telephone and email communication) were made with some local stakeholders in June 2023 to assist in obtaining the contact details for the landowners affected by the EPL, but to no avail. Proofs of these attempts/efforts are attached hereto.

The public consultation which entailed the submission of comments and registration as I&APs started on the 07th of November 2022 until the 02nd of December 2022 as indicated in the newspaper adverts.

No comments were submitted to Serja Consultants to date.

A CALL FOR PUBLIC PARTICIPATION & ENGAGEMENT: ENVIRONMENTAL IMPACT ASSESSMENT (EIA) FOR THE PROPOSED PROSPECTING & EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENSE (EPL) NO. 8713 SOUTHWEST OF HELMERINGHAUSEN IN THE //KARAS REGION, NAMIBIA

The public is hereby notified that an application for an Environmental Clearance Certificate (ECC) will be submitted to the Environmental Commissioner as required under the Environmental Management Act No. 7 of 2007 and its 2012 EIA Regulations. The proposed exploration and associated works are listed activities in the EIA Regulations that cannot be undertaken without an ECC.

Project Nature and Location: The proposed prospecting and exploration of minerals on EPL-8713 which has a potential for Base & Rare Metals, Dimension Stone, Industrial Minerals, Precious Metals, Precious Stones and Semi-Precious Stones. The EPL covers an area of 15,220.5299 hectares (Ha) and located about 35km southwest of Helmeringhausen Settlement in the //Karas Region.

The Project Proponent: Loudima Resources (Pty) Ltd
Appointed Environmental Consultant: Serja Hydrogeo-Environmental Consultants CC

The public is therefore invited to register as Interested and Affected Parties (I&APs) to submit comments and or receive further information on the EIA process. The requests for registration as an I&APs and comments submission should be done before or on Friday, 02 December 2022.

Public Consultation Meetings will be communicated to the registered I&APs soon.

Contact Person: Ms. Fredrika Shagama
Mobile No.: +264 (0) 81 749 9223
Email: eias.public@serjaconsultants.com

Subject: Assistance with Farm owners details for EPL-8125 (at Ai-Ais) and 8399 (between Aus and Rosh Pinah)

Dear Mr. Loots,

I hope you are doing well.

Please find attached the background information document (BID) and Farm lists below to see if you can kindly assist us in providing contact details for the farmers/landowners, if they are maybe in the Aus Farmers' Association? We tried going through the Land Reform Offices in Keetmanshoop and Constituency but the Land Reform in Keetmanshoop referred us to the Aus Farmers Association.

EPL-8125 (near Ai-Ais)

1. Farm Soutkuil No. 181
2. Farm Bobbejaankrans No. 180
3. Farm Wegdraai No. 174
4. Farm Kochas No. 113
5. Farm Mara No. 114 (upper eastern part).

EPL-8399 (between Aus and Rosh Pinah)

1. Farm Witsputs No. 31
2. Witsputs Annex No. 85
3. Zebrafontein No.87

We need the farmers' details to **set up consultation meetings with them in the next 2 weeks or so** that we are able to compile an Environmental Assessment Report and submit to the Environmental Commissioner for evaluation of an Environmental Clearance Certificate (ECC). Once the ECC is issued, the Proponent will set up individual meetings with farmers to discuss land access agreements before any prospecting and exploration activities commence on the EPL.

Your assistance in this regard will be highly appreciated.

Kind regards,

**Ms. Fredrika N. Shagama: Principal Hydrogeologist & Environmental Assessment Practitioner
