Only gradual recovery expected-IPPR

Economy not expected to bounce back fast

It is only by 2024 that the domestic economy is expected to return to its pre-pandemic size.

PHILLEPUS UUSIKU

The domestic economy took, by historical standards, an unprecedented hit in 2020 from which it is expected to only gradually recover rather than bounce back quickly, according to the Institute for Public Policy Research (IPPR) democracy report.

The Namibia economy contracted by 8.5% in 2020 and finance minister Ilpumbu Shilmi in his budget statement projected the economy to grow by 1.2% in 2021.

In addition, Shilmi projected a 2.9% and 3.7% grow in 2022 and 2023, respectively. The projected growth is anchored by expectations of strong output mainly in the primary and

Primary and secondary industries are expected to drive the economy in 2022 and 2023. PHOTO NAMPA

secondary industries, while growth in tertiary industries is estimated to remain muted over the Medium-Term Expenditure Framework (MTEF), he said.

"It is only by 2024 that he expects the economy to return to its pre-

pandemic size. This gradual recovery has implications for the amount of revenue he has available and the reform what he can spend. The finance ministry is to be congratulated for taking a realistic rather than overly optimistic view of developments in

the economy during the pandemic," IPPR said.

The total expenditure ceiling is projected to increase to N\$470.6 billion, while revenue and grants for FY2022/23 is projected at N\$497 billion. Moreover, public debt at the

is expected to increase to N\$340.2 billion, equivalent to 71% of gross domestic product (GDP). Overall, the budget deficit is projected to reduce to about 5.6% of GDP.

With the economy only slowly starting to recover from the effects of the pandemic, revenue was once again limited. With public debt still threatening to spiral out of control, the minister had to take action to limit the size of this year's deficit and therefore was obliged to restrain spending IPPR said.

There is still a significant budget deficit and debt is still growing, albeit only slowly. Large bond redemptions are on the horizon.

Nevertheless, the minister's cautious approach may prove correct in the long run given there seems little political appetite to carry out more radical surgery on the size of the overall public sector and the public enterprise sector, IPPR said.

NamRA to reward taxpayers

The Namibia Revenue Agency (NamRA) announced the Taxpayer/Trader Appreciation Event, to recognise compliant taxpayers and traders in the various categories.

The initiative is expected to promote voluntary compliance and enhance the tax morale, by celebrating taxpayers and traders fulfilling their respective obligations. The event is set for 7 April 2022, coinciding with NamRA's first anniversary.

With regards to taxpayers, the awards will be based on the tax compliance for the period covering 1 January 2021 to 31 December 2021 ("award period"). For companies and close corporations, the financial year-end would be any month from January to December 2021. It must be noted that although regard will only be given to tax payments during the award period, consideration for the submission of returns shall apply to all returns ever since the registration of a particular tax account by the taxpayer.

Compliant traders participating in the Authorised Economic Operator Compliance (AEO-C)/Preferred Trader Programme will also be recognised on the day. The programme is part of customs modernisation drive and although participation is voluntary, NamRA encourages traders to be part of the initiative and utilize the related benefits. Additional categories will be considered for awarding.

PUBLIC NOTICE FOR THE APPLICATION OF AN ENVIRONMENTAL CLEARANCE CERTIFICATE - Class of Existing Waste Dumps & Development & Operation of New Waste Dumps for Holo-Nalati Town Council, Ohangwena Region

In accordance with the Environmental Management Act, 2001 (Act No. 1 of 2001) to the EA Regulations 20 of 2012, the development & operation of any waste dumps on listed activities which cannot be carried out without an Environmental Clearance Certificate (ECC) from the Department of Environmental Affairs & Forestry (DEAF), OMAF Geological & Geoenvironmental Consultant has been appointed to develop a Class of Waste for the existing municipal waste dumps, and undertake an Environmental Assessment Study as well as prepare an Environmental Management & Rehabilitation Plan for the proposed new waste dumps to support the application for ECC.

Request: Holo-Nalati Town Council

Site location: The old municipal waste dumps is located within the Holo-Nalati town, while the proposed site for the new waste dumps is located just outside the town on the border of Ohangwena region.

In terms of the requirements of the EA Regulations, all interested and affected parties (I&APs) must be provided with a fair opportunity to participate in the Environmental Assessment process. I&APs are therefore invited to register & submit written comments, concerns/ suggestions by close of business on 01 April 2022. A Budget and Information Document is available at I&APs upon registration.

A public consultation meeting will be held on 28th March 2022 at a venue to be confirmed with registered & interested I&APs. The meeting shall run from 08:00 to 15:00. The meeting venue will be communicated with registered I&APs approximately 7 days prior to the meeting date.

1.	<p>Welcome</p> <p>The facilitator welcomed and thanked all for heading to the invitation to attend the stakeholder engagement meeting for the proposed mining project in respect of EPL 8769 and EPL 8772 in and around UIS Settlement. He informed the meeting that Zhoengue Mining (PTY) Ltd. a joint venture between Namibians and Chinese nationals with interest in mining. He further explained that the proponent Zhoengue Mining Namibia (PTY) Ltd has contracted Enviro-Leap Consulting to conduct an Environmental Impact Assessment (EIA) on the two EPL's. One falling within the Tiseb Conservancy and the other near Uis Settlement.</p>
2. 2.1	<p>Agenda Points</p> <p>The EIA process</p>
2.2 2.1.1 2.2	<p>Registration of comments and input by (I&AP)</p> <p>The EIA Process:</p> <p>The Environmental Management Act, No.7 of 2007 and its Regulations of 6 February 2012 requires that an Environmental Impact Assessment (EIA) be conducted for the purposes of obtaining and or applying for an Environmental Clearance Certificate (ECC). The purpose of such exercise is to identify and outline possible environmental as well socio-economic impacts, be it positive or negative, right on the onset. A Scoping and Environmental Management Plan (EMP) will than submitted to the Environmental Commissioner for consideration prior to the issuance of an ECC to the proponent Zhoengue Mining (PTY) Ltd.</p> <p>Registration of comments and input by (I&AP):</p> <p>The facilitator explained that it is a legal requirement that stakeholders (I&AP) are given an opportunity to provide comments and input/s for inclusion which may equally form part of recommendations in the Scoping and EMP. As a result (I&AP) are invited to register their comment/s and or input/s. The meeting attendees were once again reminded to air their comments in writing, and provided with an e-mail address and contact details for comments with deadline of 05 April 2022.</p>
3. 3.1 3.1.2 3.1.3 3.1.4	<p>Discussion</p> <p>Input by the Conservancy representative Mr.Eric Xaneb: Due regard should be given to the overlapping rights of the Traditional Authority who are the custodians of communal land as well as to the activities of the Conservancy. It was added that in the event that any relocation of households and or any establishment due to the proposed activities, just compensation should be paid.</p> <p>Rehabilitation of the environment due to the exploration activities should be outlined in the Environmental Management Plan.</p> <p>The proponent Zhoengue Mining, should commit to Corporate Social Responsibility already during the exploration stage of the project and not wait until the mining stage, because the damage and effects to the natural environment has already taken place.</p> <p>The issue of surface land rights to be a major discussion and consideration, thus Access Agreement to be entered into between the Traditional Authority, the Conservancy and the proponent.</p>

3.1.5	Zonation covered by one of the EPL overlap into the sensitive and wildlife breeding. Therefore the Conservancy Committee should discuss the matter and consider how they can strike a balance between the interests.
3.1.6 3.1.7	Meeting requested that the Scoping and EMP Reports be circulated for review and comments. Stakeholder Engagement Strategy be in place from start to end in order to allow information flow at all stages of the proposed project.
4.	<p>Conclusion and Way Forward:</p> <p>Major consideration to the Game Management & Utilization Plan in order to guide all activities during the exploration process. The facilitator, reiterated the importance of the comments from (I&APs) which should submitted before 5 April 2022. Furthermore, he indicated that the Reports will be made available for review.</p> <p>Meeting was adjourned at 13H10</p>

TO WHOM IT MAY CONCERN

This letter serves to allow the continued commitment of the Daure Daman Traditional Authority leadership towards all positive endeavors aimed at uplifting our communities from socio economic impecuniousness.

The Daure Daman Traditional Authority is fully aware of the mining prospecting (exploration) activities by Zhonghe Mining Pty Ltd Windhoek, which is in our jurisdiction area. Furthermore, we have also been fully updated about the envisaged exploration in our area.

Going forward the Daure Daman Traditional Authority fully understands the adverse environmental impact, the not so sustainable mining activities has on land, biodiversity and ground water. However, we are taking serious cognizance of the envisaged job creation and the company's commitment to work very closely with this T/A to implement their Corporate Social Responsibility (CSR) Programme.

It is against this background that we pledge our support towards the planned exploration by Zhonghe Mining Pty Ltd, to take place in our area of jurisdiction, subject to all lawful rules are followed as required by the Mining Act. The following conditions to be implemented as time allow us:

- Labor Provisions: people in the immediate surrounding areas must be given 1st priority, fulfilling an agreed upon number of employees; trainings for these jobs could also be done through local classes, and apprenticeships or with bursaries.
- Economic Development Provisions: recognition and support of local businesses, through preferential contracting, as long as such businesses are cost competitive, efficient and timely; possible partnerships with businesses in the area to structure joint initiatives.
- Community Provisions: Support and affirmation of the Daure Daman rights and historic and cultural connection to the land, funding for youth, social programs, community projects and physical infrastructure. Facilitation of on-going communication between parties through establishment of committee.
- Environmental Provisions: establishment of environmental planning and monitoring committees, reclamation commitments, efforts to minimize activity in culturally sacred areas, recognition that the company will not apply for more permits after the IBA negotiation has finished.
- Financial Provisions: Monetary compensation arrangements, fixed or variable cash pay outs, funding agreements with an established monitoring committee.
