TERMS AND CONDITIONS

4. Definitions

- 1.1 "Agreement" means this document, together with all exhibits, appendices, amendments, and any other documents incorporated by reference into this Agreement.
- 1.2 "Company" means the corporation or other legal entity that is the subject of this Agreement.
- 1.3 "Contract" means any contract, agreement, or other document that is entered into by the Company in connection with this Agreement.
- 1.4 "Contractual Obligations" means the obligations of the Company under this Agreement.
- 1.5 "Contractual Obligations" means the obligations of the Company under this Agreement.
- 1.6 "Contractual Obligations" means the obligations of the Company under this Agreement.

- 1.7 "Contractual Obligations" means the obligations of the Company under this Agreement.
- 1.8 "Contractual Obligations" means the obligations of the Company under this Agreement.
- 1.9 "Contractual Obligations" means the obligations of the Company under this Agreement.
- 1.10 "Contractual Obligations" means the obligations of the Company under this Agreement.

5. Indemnification

- 5.1 The Company shall indemnify and hold the Contractor harmless from and against all claims, damages, losses, and expenses, including reasonable attorneys' fees, that may be asserted against or incurred by the Contractor in connection with the performance of its obligations under this Agreement.
- 5.2 The Contractor shall indemnify and hold the Company harmless from and against all claims, damages, losses, and expenses, including reasonable attorneys' fees, that may be asserted against or incurred by the Company in connection with the performance of its obligations under this Agreement.

6. Intellectual Property

- 6.1 All intellectual property created or developed by the Contractor in connection with the performance of its obligations under this Agreement shall be the property of the Contractor.
- 6.2 All intellectual property created or developed by the Company in connection with the performance of its obligations under this Agreement shall be the property of the Company.

7. Assignment

- 7.1 The Contractor shall not assign, subcontract, or otherwise dispose of its obligations under this Agreement without the prior written consent of the Company.
- 7.2 The Company shall not assign, subcontract, or otherwise dispose of its obligations under this Agreement without the prior written consent of the Contractor.

8. Termination

- 8.1 The Company may terminate this Agreement at any time, without cause, by giving the Contractor written notice.
- 8.2 The Contractor may terminate this Agreement at any time, without cause, by giving the Company written notice.

9. Force Majeure

- 9.1 Notwithstanding to the contrary herein, neither party shall be liable for failure to perform its obligations under this Agreement if such failure is caused by an event beyond the reasonable control of the party, including but not limited to acts of God, war, terrorism, or other extraordinary events.

10. Entire Agreement

- 10.1 This Agreement constitutes the entire agreement between the parties and supersedes all other agreements, understandings, and negotiations, whether written or oral, relating to the subject matter hereof.
- 10.2 This Agreement shall be governed by the laws of the State of California.

11. Assurances

- 11.1 The Contractor warrants that it is a duly organized and validly existing corporation or other legal entity under the laws of its jurisdiction.
- 11.2 The Contractor warrants that it has the full power and authority to enter into this Agreement.
- 11.3 The Contractor warrants that it is not under any legal proceedings that could materially and adversely affect its ability to perform its obligations under this Agreement.
- 11.4 The Contractor warrants that it is not insolvent or unable to pay its debts as they become due.

12. Notices

- 12.1 All notices under this Agreement shall be in writing and shall be delivered to the party to whom such notice is directed at the address set forth in the Agreement.
- 12.2 Notices shall be deemed to have been received when delivered by hand, or when sent by registered mail, return receipt requested, or by overnight courier service.

13. Counterparts

- 13.1 This Agreement may be executed in counterparts, each of which shall be deemed to be an original copy of this Agreement, and all of which together shall be deemed to constitute one and the same agreement.
- 13.2 This Agreement may be executed electronically, and such electronic execution shall be deemed to be as valid and effective as a signature in ink.

14. Assignment

- 14.1 The Contractor shall not assign, subcontract, or otherwise dispose of its obligations under this Agreement without the prior written consent of the Company.
- 14.2 The Company shall not assign, subcontract, or otherwise dispose of its obligations under this Agreement without the prior written consent of the Contractor.

15. Force Majeure

- 15.1 Notwithstanding to the contrary herein, neither party shall be liable for failure to perform its obligations under this Agreement if such failure is caused by an event beyond the reasonable control of the party, including but not limited to acts of God, war, terrorism, or other extraordinary events.

16. Entire Agreement

- 16.1 This Agreement constitutes the entire agreement between the parties and supersedes all other agreements, understandings, and negotiations, whether written or oral, relating to the subject matter hereof.
- 16.2 This Agreement shall be governed by the laws of the State of California.

17. Assurances

- 17.1 The Contractor warrants that it is a duly organized and validly existing corporation or other legal entity under the laws of its jurisdiction.
- 17.2 The Contractor warrants that it has the full power and authority to enter into this Agreement.
- 17.3 The Contractor warrants that it is not under any legal proceedings that could materially and adversely affect its ability to perform its obligations under this Agreement.
- 17.4 The Contractor warrants that it is not insolvent or unable to pay its debts as they become due.

18. Notices

- 18.1 All notices under this Agreement shall be in writing and shall be delivered to the party to whom such notice is directed at the address set forth in the Agreement.
- 18.2 Notices shall be deemed to have been received when delivered by hand, or when sent by registered mail, return receipt requested, or by overnight courier service.

19. Counterparts

- 19.1 This Agreement may be executed in counterparts, each of which shall be deemed to be an original copy of this Agreement, and all of which together shall be deemed to constitute one and the same agreement.
- 19.2 This Agreement may be executed electronically, and such electronic execution shall be deemed to be as valid and effective as a signature in ink.

28 March 2022

PUBLIC CONSULTATION MEETING MINUTES:

ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR THE PROPOSED PROSPECTING & EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENCES (EPLs) No. 8062, 8151, 8152 & 8160 EAST OF GOBABIS IN THE OMAHEKE REGION, NAMIBIA

Date: Monday, 28 March 2022

Time: 11h00 – 13h45

Venue: Goba Lodge

The Public Consultation Meeting was attended by twenty-eight (28) people, of which included two Environmental Consultants from Excel Dynamic Solutions (Pty) Ltd (EDS) and a representative from Parabola Investments CC. - **Please refer to the attached attendance register.**

INTRODUCTION AND WELCOMING REMARKS

The meeting was officially opened by Mr. Nerson Tjelos from EDS. He expressed gratitude to everyone in attendance for making time to attend the meeting.

The meeting attendance register was then circulated for the attendees to write down their names, contact details and sign so that they could be added to the list of interested and affected parties (I&APs) and receive further information on the ESA process.

MEETING AGENDA AND PRESENTATION

The agenda of the meeting included the following main points:

2.1 Brief Description of the Project

The Environmental Impact Assessment (EIA) or ESA and the reason that the proponent appointed Impala Consulting with assistance from Excel Dynamic Solutions (Pty) Ltd (EDS), to carry out the EIA and apply for the Environmental Clearance certificate (ECC).

2.2 Explanation of what an ESA is, its Process and the Public Role in the Process

Mr. Tjelos explained to the attendees what the meeting was all about and why they were invited (with reference to the Environmental Management Act (EMA) No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations on Public Consultation). He further explained what an ESA is and that the proposed exploration activities are one of the listed activities in the 2012 EIA Regulations of the EMA that cannot be undertaken without an ECC from the Environmental Commissioner.

2.3 Presentation of Potential Project Impacts

To ensure transparency and that the attendees understand both sides of the proposed project activities, the Environmental Consultants also presented the potential pre-identified potential positive & negative environmental and social impacts.

2.4 Public Open Discussion (Interactive Session)

Mr. Tjelos provided the meeting attendees the opportunity to raise their concerns/issues and or comment on the proposed project activities. The issues and comments recorded are presented in **Table 1** below.

Table 1: Comments and issues raised during the public meeting at Goba Lodge on the 28th of March 2022

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
1.	Will it pose as a problem to livestock on the farm and what activities will be done at the farms?	<p>Mr. Tjelos: After the Environmental Impact Assessment (EIA), we produce an Environmental Management Plan (EMP). In this report we raise issues that were raised now and what needs to be done. This will indicate the responsible person for specific actions. It will also indicate how regularly certain actions should happen. The proponent can also stipulate in the contract that there should be a daily report of different tasks that were completed on a daily basis.</p> <p>All the issues that you have no are ones that are currently happening on active projects. For this reason, monitoring is done and an audit report needs to be done every 6 months. If the EPL holder and the workers are not compliant towards what is stated in the EMP, evidence can be submitted to the MEFT, and such works could be closed. This was the case, 2 weeks ago for a project in Usakos. This is costly for exploration companies and most people that do have licences are not in the country.</p>
	<p>What is the quantity of water that will be abstracted for prospecting operations?</p> <p>And in which manner will the water be purified and disposed of?</p>	<p>Mr. Tjelos: These were some of the questions that we got earlier. What they have is a pre-project proposal and they also legally don't own the licences. At this stage the client may not yet know how much water will be extracted and used for the exploration activities but it is up to the I&APs to mention now if they are experiencing water shortages in certain areas. This issue will then be raised and they (EPL holder) can look at alternatives.</p>

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
2.	<p>My problem is that these activities that will take place is going to disturb our farming activities. It won't be possible to farm the way we did before. So then what about compensation? We know the minerals belongs to the state, but surely everything above ground is ours. We can agree on anything but we need compensation. Can you tell us a little bit about that then?</p>	<p>Mr. Tjelos: That's a very good question. People have gotten away with it in the past; without rehabilitating the area. When they operate, some of the funds should actually go towards filling the holes and rehabilitating the area. I know at this point the Minerals Act and the Environmental Management Act are under revision. They were supposed to release them at the end of last year for cabinet consideration. At this point they are trying to rectify the Act so that rehabilitation is taken more seriously.</p> <p>As far as compensation goes, in my opinion it is still lacking our legal system. You could refuse at an agreement stage, that unless they promise to leave your area in a certain state, that you will not grant them any access. If you need support from the legal side, that is what is being addressed now.</p> <p>Therefore you really need to be strict when it comes to access to your farm while we await for the legal documents to be finalized for reinforcement.</p>
3.	<p>Are you doing the impact assessment for the exploration and not for mining as yet?</p>	<p>Mr. Tjelos: Yes, that is correct. This is purely for prospecting and exploration. And if they do discover enough minerals then a full environmental assessment needs to be conducted with different specialists to be able to get another ECC and then they can apply for a Mining Licence.</p> <p>This also where they bring in the economics. They focus on the feasibility of the project. Therefore, this stage the geologists will use mapping to determine where certain rock unit are located. When they know these target, they can then go directly to the farmer and ask for access.</p>

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
	At this point and time, will you involve other specialists, such as geologists, etc?	Mr. Tjelos: No, at this stage it will just be scoping, assessing what is there and gather input from affected parties.
	Another thing, the Act asks for the Scoping and Impact Assessment should be done by a competent person/organization. Can you send us information on your company and how do you fit in with Impala Consulting? Kindly mail the company profiles and CVs to me please. (2nd Name on the attendance register)	Mr. Tjelos: That can be made available and we can share our company profile and Impala is an associate company that we work with for this project. Their area is mostly geo-science. The CV's are also as part of the final product that will be shared to the public for review. You can also search for our company online.
	Do you perhaps have a Draft Environmental Management Plan (EMP) that you are working from? To share that as well so that we can work through it as well. Because you have to submit this EMP before getting an ECC, contain our issues?	Mr. Tjelos: What normally happens is that you raise a concern, we rate it in terms of its significance and come up with a mitigation measure in the EMP. Once this is done, it will be made available to the public for their review and further input. Yes, this will be submitted together with the Environmental Scoping Report.

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
	Please send us a previous EMP even if it is from other projects. Also include rates of payment for access, for using roads, etc.	I have some copies of access agreements which I assisted some colleagues with. The problem is, this is not regulated yet but I can provide an average rate what others ask.
4.	<p>I'm just looking at the concept itself, and it seems as if you guys are focusing on a vast area of about 100,000 Ha. There are some benefits for the surrounding and that area, but when you are coming and conducting these activities on a pre-existing business, other people have their livelihood there for generations. All of a sudden someone comes and goes to Ministry of Mines and Energy and wants to prospect on this area. The way things have been done in the past was not really to benefit the intended people.</p> <p>Most people come here only to give 10% to the country and they keep the 90%, which is exploitation. Never mind of them employing a few people. Other countries don't allow us to go into their country and</p>	<p>Mr. Tjelos: For exploration, you do not get a single dollar, up to the definition of the mine plan.</p> <p>I fully agree and the Mining Act should be strict because here we have resources going out of the country, unprocessed, people get jobs and then the same people get taxed for these jobs. At exploration phase it doesn't really matter if someone out of the country does it but when it comes to mining phase, a larger portion should be for the benefit of the country.</p> <p>The biggest challenge is funding, especially for geo-physics and a more practical example is drilling. These activities normally require millions and in most cases locals do not have these funds and therefore has to seek for investors.</p>

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
	<p>set up businesses. We are selling our country for nothing. There is a need to control this for the benefit our country. You would expect certain people to be compliant, but on the long run the country might not be benefitting. I know this is just an exploration, but these will come out eventually. It's better to address this now because to avoid the sense of mistrust every time such projects are introduced.</p> <p>Unfortunately, these activities need to be looked and so that the country can start benefitting.</p>	

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
5.	<p>Can we have more information of who Carl Joone is and share his profile?</p> <p>From what we heard now, Botswana has found copper on the other side, could we have some more information about how they went about of this process, because they might be ahead of us in terms of how they got the information and how they will be dealing with this. How they are going about this? What can we learn from them?</p>	<p>Mr. Tjelos: There are a lot of discoveries. By law, the operators should report to the Ministry of Mines, but somehow our government does not have the facilities to get the information to the affected people.</p> <p>When we are done with the reports for this project, we are supposed to bring these back to you. Bi-annual reports and updates are also part of the requirements by MEFT.</p> <p>The Ministry does have a whole storage of information.</p>
6.	<p>What is the extent to which the land can be used and transformed during prospecting and exploration?</p>	<p>Mr. Tjelos: This will be dependent on the activities. What they are doing now are more desktop work.</p> <p>For a bore hole, you just need to clear small area. These will mainly be made more clear once the Clearance are granted. This will be the point where one can disagree.</p>
7.	<p>As long as they do not plan to pump hazardous substances into the water sources or anything like that, I do not think there should be a reason to deny them</p>	<p>Mr. Tjelos: Yes, we agree and take note.</p>

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
	access or refuse these activities from taking place.	

FINAL REMARKS AND CONCLUSION OF THE MEETING

Mr. Tjelos thanked the attendees for their crucial input through comments and raising their concerns. He indicated to the attendees that all their comments, concerns and inputs had been noted down for consideration and addressing in the Environmental Scoping Assessment (ESA) Report as well as incorporating their recommendations into the draft EMP.

Furthermore, Mr. Tjelos informed the attendees that the draft Environmental Assessment Report together with the meeting minutes, and Environmental Management Plan (EMP) will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register.

Once the review of the draft ESA Report and EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

The meeting was adjourned at 13h45.

EDS Stakeholder Engagement

From: ironwood.vs@icloud.com
Sent: Tuesday, 22 March 2022 6:25 PM
To: public@edsnamibia.com
Subject: Prospecting on Farm Haarlem - No.391 and Portion 1 of the Farm Sukses – No.426

Dear Sir/Madam,

I refer to the letter of 25 February 2022 from Excel Dynamic Solutions (“**EDS**”) regarding prospecting on Farm Haarlem – No. 391 and Portion 1 of the Farm Sukses – No. 426 (together the “**Farm**”).

Thank you for your invitation to register as an interested and affected party for purposes of the environmental impact assessment to be conducted under the Environmental Management Act, 2007 and Environmental Regulations, 2012 promulgated thereunder.

The undersigned represents the interests of Khumba Farming Enterprises (Proprietary) Limited (the “**Company**”). The Company is the owner of the Farm, which falls within the area covered by exclusive prospecting licence No. 8151 and 8160 (together the “**EPL**”) issued to Carl Joone (the “**Licensee**”).

The Company is conducting extensive farming operations on the Farm. It is envisaged that the environment of the Farm, its infrastructure and the farming operations being conducted thereon will be detrimentally and prejudicially affected by any prospecting operations contemplated under the EPL.

The extent to which it will be affected can only be determined if more particulars are provided to the Company about the nature and extent of the prospecting operations contemplated on the Farm. It follows that rational comments on the environmental effect of the contemplated prospecting operations can only be formulated if and when particulars are provided to the Company about -

- (i) the number of boreholes to be drilled on the farm;
- (ii) the number, sizes, locations of any holes or trenches to be excavated on the farm and the mechanical means to be used in the process;
- (iii) the quantity of subterranean water to be extracted for prospecting operations; the manner in which such water will be purified and disposed of;
- (iv) the extent to which the land will be used and transformed;
- (v) the means and methods of rehabilitation of the land during and after prospecting operations;
- (vi) the number of persons who will be involved in the prospecting operations, transportation to be used by them, their residential and sanitary requirements and facilities;
- (vii) the inherent danger that prospecting operations may pose to the wildlife and livestock on the farm (especially as a result of illegal activities);

(viii) the area of land that will be affected by prospecting operations, the noise generated by it, the stress-effect on livestock and their production

(ix) to name but a few.

You are requested to provide more particulars to enable a rational assessment of the intended prospecting operations and to address these concerns in writing and in the course of consultations.

You are requested, therefore, to register the Company as an interested and affected party under the Act. Any written notices under the Act are to be delivered to the Company at the homestead on the Farm Haarlem and by email to ironwood.vs@icloud.com . Any correspondence conducted on this platform should not be regarded as a waiver of that requirement.

Moreover, it is to be noted at the outset that any communication or any participation by the Company in any process or procedure contemplated by the Act will be without prejudice to the Company's rights as landowner under -

(a) the Constitution (in particular those guaranteed under Articles 12, 16 and 25 of Constitution)
and

(b) the Minerals (Prospecting and Mining) Act, 1992 (in particular the provisions of sections 52(1)(a)(i) and (d)) and to require that the licensee complies with his obligations under the EPL and the provisions of the Act (in particular those enumerated in sections 41 and 52 of the Act.

Yours sincerely,

Sarita Steyn

Director of Khumba Farming Enterprises (Proprietary) Limited

CALL FOR PUBLIC PARTICIPATION
ENVIRONMENTAL IMPACT ASSESSMENT FOR PROPOSED DEVELOPMENT OF MARBLE QUARRY

This notice serves to inform interested and affected parties that an application for the environmental clearance certificate will be launched with the environmental commissioner in terms of the Environmental Impact Assessment Management Act (No.7 of 2007) and Environmental Regulations (GN 30 of 12 February 2012) for the proposed activity:

Project: Proposed development of a marble quarry on mining claims T1425, T1426, T1430, T1431, T1432, T1433 & T1434.
Location: The project is situated approximately 30 km westward of the town of Karibib on the farm 75.

Proponent: Oravello Kayyomo.
Project description: Marble quarrying on mining claims T1425, T1426, T1430, T1431, T1432, T1433 & T1434.

In accordance with Namibia's Environmental Management Act (No. 7 of 2007) and Environmental Regulations (GN 30 of 12 February 2012), all interested and affected parties (IAAPs) are invited to register and submit comments, concerns and questions in writing to the results point below on or before 15/03/2022.

Tel: +264 65 762 4750
 Email address: info@minera-xplore.com.na or feedback@minera-xplore.com.na

CALL FOR PUBLIC PARTICIPATION
ENVIRONMENTAL IMPACT ASSESSMENT FOR PROPOSED MINERAL PROSPECTING AND EXPLORATION

This notice serves to inform interested and affected parties that an application for the environmental clearance certificate will be launched with the environmental commissioner in terms of the Environmental Impact Assessment Management Act (No.7 of 2007) and Environmental Regulations (GN 30 of 12 February 2012) for the proposed activity:

Project: Proposed mineral prospecting and exploration activities on EPL 5722.
Location: The project is situated approximately 15 km south of the Wittebaard. EPL 5722 covers farms Kalaharu, Wittebaard, Lantscha 1N1, Okavango North 15, Okavango South 14, Okavango 14, Karibibom and Faltreim in Erongo Region.

Proponent: Windhoek Investments (Pty) Ltd.
Project description: Mineral prospecting and exploration on EPL 5722.

In accordance with Namibia's Environmental Management Act (No. 7 of 2007) and Environmental Regulations (GN 30 of 12 February 2012), all interested and affected parties (IAAPs) are invited to register and submit comments, concerns and questions in writing to the results point below on or before 15/03/2022.

Minera-Xplore Consultancy

CALL FOR PUBLIC PARTICIPATION
ENVIRONMENTAL IMPACT ASSESSMENT FOR THE PROPOSED ESTABLISHMENT OF A DENSEWOOD'S STORE AND COPPER CONCRETE BLOCKING FACILITY ON FARM 36, 9 ALVAIS BAY, ERONGO REGION

Minera-Xplore Consultancy CC hereby gives notice to all potentially interested and affected Parties (IAAPs) that an application will be made to the Environmental Commissioner in terms of the Environmental Management Act (No.7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 12 February 2012) for the proposed activity:

Project description: Environmental Impact Assessment (EIA) for the proposed establishment of a stockholding site on a 2 Ha portion of farm 36 on lease agreement with Walvis Bay Municipality. The primary purpose of the stockholding facility is for the receipt, sorting, packaging, storage, and dispatching of densewood store (logs and staves) and copper concrete.

Location & size: This (2) hectare portion of farm 36, Lease No.16, Farm 36, registration Division F, Walvis Bay, Erongo Region, Namibia.

Proponent: Expansive Investments (Pty) Ltd.

In accordance with Namibia's Environmental Management Act (No. 7 of 2007) and EIA regulations (GN 30 of 12 February 2012), all interested and affected parties (IAAPs) are invited to register and submit comments, concerns or questions in writing to email: info@minera-xplore.com.na or feedback@minera-xplore.com.na on or before Friday 25 March 2022. A public meeting will be held on the date expressed by the public and stakeholders. Should a public meeting be held all registered IAAPs will be advised accordingly.

Environmental Assessment Practitioner (EAP): Minera-Xplore Consultancy CC
 Contact Person: Tj Ndiandhi

Minera-Xplore Consultancy cc

VACANCIES
WE ARE HIRING:

Minera-Xplore Consultancy CC needs services of the following (state that the positions will be on per time basis):

Geologist-Geophysicist (Part time)
 Responsibilities: Core logging, RC Chip logging, Conventional and sampling, Interpretation of RC-logs for the Risk of landline survey, hand-held GPS & magnetic compass, Ground geophysical surveys (magnetotellurics, ground geophysical surveys (radio exploration).

Qualification: BSc. Honours degree in geology.

Driller (Part time)
 Responsibilities: Operating a diamond core rig as a driller, repairing water drill rig as a driller.

Qualification: Must have credible experience as a driller, a drilling training course certificate.

Assistant driller (Part time)
 Responsibilities: Assisting with drilling operations at the rig, Providing assistance to the driller.

Qualification: Grade 12. Must have experience at the rig, a drilling training course certificate.

Due date: 18 March 2022 at 17:00h

Send CV and copies of qualification to:

Email address: info@minera-xplore.com.na or info@minera-xplore.com

CALL FOR PUBLIC PARTICIPATION
ENVIRONMENTAL IMPACT ASSESSMENT FOR MINERAL EXPLORATION ON EPL 8405

This notice serves to inform all interested and affected parties that an application for the environmental clearance certificate will be launched with the Environmental Commissioner in terms of the Environmental Management Act (No.7 of 2007) and the Environmental Regulations (GN 30 of 2012).

Project: The license area is located about 7 to 20 km south of Outjo, accessible along the M63 and C39 roads. The proponent intends to explore for Base Metals. Exploration methods may include geological mapping, geophysical surveys, sampling, and drilling.

Proponent: Mr. Carl Andries Joone

All interested and affected parties are hereby invited to register and submit their comments regarding the proposed project on or before 15/03/2022. Contact details for registration and further information:

Impala Environmental Consulting
 Mr. S. Andjamba
 Email: eia@impalac.com, Tel: 0856630598

CALL FOR PUBLIC PARTICIPATION
ENVIRONMENTAL IMPACT ASSESSMENT FOR MINERAL EXPLORATION ON EPL 8160, 8151, 8152 & 8062

This notice serves to inform all interested and affected parties that an application for the environmental clearance certificate will be launched with the Environmental Commissioner in terms of the Environmental Management Act (No.7 of 2007) and the Environmental Regulations (GN 30 of 2012).

Project: The licenses area located about 38 to 110 km east of Gobabis, accessible from the B6 road which leads to Buitepos. The proponent intends to explore for Base Metals. Exploration methods may include geological mapping, geophysical surveys, sampling, and drilling.

Proponent: Mr. Carl Andries Joone and GFM Geophysics cc

All interested and affected parties are hereby invited to register, obtain details of the public meeting and submit their comments regarding the proposed project on or before 15/03/2022. Contact details for registration and further information:

Build job security as your own boss

ONE of the best ways to thrive as a freelancer is to build loyalty in your clients. Repeat work is considered a goldmine because it can lead to both consistency and referrals. To keep your clients returning, take the following steps.

- Interact with your clients in a personable way. Do not just focus on the results, build your relationships. Get to know your clients, their challenges, and what their goals are. The better the rapport you develop, and the more interest you show in them as a human, the more they will remember you — and keep using your services.
- Find out what other projects they might need help with and offer support. If you do not hear of any follow-up opportunities during your initial stint, take initiative and tell your employer that you are open to working on more projects in the future.
- Never over-promise and then under-deliver. Delivering great work on time is paramount to building trust. Do not get yourself into a situation where you cannot follow through on your promises. Build in extra time where you can.
- Always get testimonials. Ask for feedback on your work. Not only can you use their compliments to attract new clients but having them articulate what has made the relationship work will increase the chances they turn to you the next time they need a freelancer.

** This tip is adapted from 'What successful freelancers do differently', by Ben Laker and others.*

A better January for credit uptake

• LAZARUS AMUKESHE

JANUARY this year had companies taking up debt, including overdrafts, but this is not expected to continue.

This is according to Simonis Storn Securities analysts in reaction to the credit uptake for the first month of the year.

The analysis says the data shows a clear 'January effect' for corporates, most likely due to the holiday season and business being slower than usual during December.

"As a result, corporates

make use of overdrafts to meet short-term operational expense obligations. The data shows a clear trend that overdraft demand by corporates immediately reduces in February each year, indicating that overdrafts obtained in January is mostly a once-off event," the commentary reads.

Bank of Namibia (BoN) data shows that credit extended to the private sector increased by 2,7% in January 2022 year on year, with all sub-categories recording increases in net debt levels for households, while overdrafts were the only sub-category recording

a lower net level of debt for corporates.

Growth in corporate debt was driven by increases in short-term debt instruments of businesses in the agriculture, fishing and transport sectors, according to the central bank.

This growth had the month boasting a loan book of N\$107 billion — with N\$45 billion extended to businesses, and N\$62 billion to households.

Mortgages made up the bulk of these loans at N\$55 billion.

According to Simonis Storn's analysis, household annual credit growth

increased by 3,2% in January 2022, with personal and other loans increasing by 4%, instalment and leasing credit shooting up by 3,6%, and mortgage loans by 3,4%.

Despite January being considered to be a very long month, overdrafts at individual level did not grow much, edging up by 1,2% only.

Credit growth increased by 2% year on year for businesses, with loans and advances increasing by 5,5%, and instalment and leasing credit by 3,6%.

Corporate overdraft growth, however, decreased

by 2,7% when compared to 2020.

Reacting to the same data, PSG Namibia's Michelle Louw said overall, the monetary and credit aggregates did not show any signs of a resurgence in credit demand and economic growth in the first month of 2022.

Expectations are, however, that credit extension will pick up gradually and moderately over the course of the year as economic growth recovery gains traction, said Louw.

She, however, highlighted that the Russia-Ukraine war, unless it escalates beyond the borders of

Ukraine, would have a relatively small impact on Namibia, as trade with Russia and Ukraine is limited, but could have a serious impact when considered at a grander scale.

"The main impact of the war will be via higher global oil and food prices, which will raise domestic headline inflation beyond our current

forecast of 4,7% in 2022, possibly to 5%, or slightly higher due to the Russia-Ukraine war.

"The increase in inflation this year, together with the expected monetary policy tightening, will inhibit the growth recovery in private-sector credit extension and private consumption," she said.

Bank sees Covid-19 as opportunity for estate agents

• MATTHEW DLAMINI

WHILE Bank Windhoek recognises the difficult economic conditions in the Erongo region under Covid-19, it sees the circumstances as an opportunity to be innovative and think outside the box.

This was said by the bank's head of specialist finance, Saara Shivute, at the annual awards ceremony for estate agents held at the coast on 25 February.

"I am, however, a firm believer that any situation presents an opportunity — an opportunity to innovate and think

outside of the box," she said. "It is thus pleasing to see that the resilience of estate agents ensured that the housing market gained traction."

Ramos Realtors Namibia, J & B Estates, and Home Page Estate Agency were recognised as the top estate

agencies in the country at the event. Mome Human from J & B Estates won the gold award for achiever of the year in the commercial category.

Claudia Lofty-Eaton of Ramos Realtors scooped silver in the commercial and the residential categories, while Cecilia Muller from Grobbies

Estates took third spot in the commercial category.

Janine du Plessis from Monopoly Housing claimed the residential category, and Toini Mweenda from Glory Real Estate took the third prize.

Finance ministry wants soccer kit

• MATTHEW DLAMINI

THE Ministry of Finance has put out a tender, seeking to buy soccer, volleyball and netball kits, as well as two treadmills and five whistles.

In a request for quotations for the kits, signed by the procurement management unit, the ministry also asked for four exercise bikes.

Giving specifications of kits required, the ministry said the soccer kit must comprise silk T-shirts and shorts, and polyester socks. It must be blue and yellow, numbered and branded 'Ministry of Finance'.

The netball kit must be blue-and-yellow dresses that are branded and numbered, while the volleyball kit must be blue-and-yellow T-shirts and shorts, as well as socks.

Also on the wanted list are two commercial treadmills and four exercise bikes. "All prices charged for goods supplied

and the related services performed shall not be adjustable," said the ministry.

Although it could not be established what the ministry intends to do with the sport kits, at the presentation of his pro-youth budget speech last week, finance minister Iipumbu Shimi came to parliament accompanied by members of the Iipumbu Shimi Football Club in full sport attire.

He said he sponsors the team and had brought them to illustrate that the country's youthful population remained the most significant resource which could propel Namibia's economy onto a competitive and sustainable growth path.

"I believe our youth is indeed the lifeline of our economy. In light of this, I have decided to dedicate my budget speech today to the youth of Namibia," Shimi said.

Questions sent to the ministry were not answered at the time of going to print. Email: matthew@namibian.com.na

VACANCY

Enthusiastic and motivated youth with impressive skills in social networking to join our promotional team in Windhoek

Position: Internet Promoter
Full-time employment only
Age: 20-30 years old
Minimum requirements:

- Graduated high school education
- Good interpersonal and communication skills
- Proficient in the use of smart phone & Computer
- Comprehensive use of Facebook, Twitter, Instagram and other social Media Apps

Applications must include your Curriculum Vitae, relevant supporting documentation, identification and contact details.

Applications to be sent via email to: talent@numamresources@gmail.com
 Alternatively, contact +264 817 256 222 for enquiries.

CALL FOR PUBLIC PARTICIPATION

ENVIRONMENTAL IMPACT ASSESSMENT FOR MINERAL EXPLORATION ON EPL 8160, 8151, 8152 & 8062

This notice serves to inform all interested and affected parties that an application for the environmental clearance certificate will be launched with the Environmental Commissioner in terms of the Environmental Management Act (No.7 of 2007) and the Environmental Regulations (GN 30 of 2012).

Project: The license area located about 38 to 110 km east of Gobabis, accessible from the D6 road which leads to Buitopos. The proponent intends to explore for Base Metals. Exploration methods may include geological mapping, geophysical surveys, sampling, and drilling.

Proponent: Mr. Carl Andries Joone and GFM Geophysics cc

All interested and affected parties are hereby invited to register, obtain details of the public meeting and submit their comments regarding the proposed project on or before 15/03/2022. Contact details for registration and further information:

Ms. Althea Brandt, Email: public@etenamibia.com, Tel: 061259530 / 0811524420

Anglican game of thrones

... priests push to lower criteria for bishop post

• ELIASER NDEYANALE

ANGLICAN priests are requesting the church to lower the criteria for the Diocese of Namibia bishop position, saying the bar has been set above their qualifications.

Two weeks ago, the church sent out nomination forms for bishop candidates for the Diocese of Namibia where those interested in the position are required to have a bachelor's degree in theology.

The church will have its elective assembly next month at Odibo in Ohangwena region where the 12th bishop of the Diocese of Namibia will be elected.

VOICES OF DISSENT

A series of voice notes from the church priests' WhatsApp group, Clergy Matters, leaked to *The Namibian* show that several priests are in support of the lowering of requirements, with some proposing that the requirements be rejected.

"We do not want a foreign bishop. They are setting these criteria looking at the weakness at the Diocese of Namibia. We are saying this because the outgoing bishop is from the same country as the archbishop. We might get another bishop from South Africa," one of the priests said.

One of the reverends, who identified himself as Mathew, claimed that those at the church's stopechelons do not have the interest of the church at heart, but they are serving their own interests.

He further said the church should elect an Oshiwambo-speaking person as its bishop. He added, "If we elect a foreign bishop, when he goes for confirmation, the church will pay for his accommodation at guest houses. Let's work together and elect a Namibian bishop."

However, one of the contenders for the bishop's position, Taura Shalyefu, said in a voice note, also posted in the

Nangula Kathindi

group, the criteria are in line with canons 4 and 18, which were revised in 2019 at the provisional synod.

FEMALE BISHOP?

The Namibian is informed that the church only has one priest who has a bachelor's degree in theology, but one of her male colleagues said the female bishop might not gain support as the "church is not ready to have a female bishop".

The office vicar general Nicky Barth informed church wardens to submit names of candidates for the office of bishop in conformity with the provisions of the church canon.

It is also indicated in the correspondence that for a priest to be considered for election, they shall be at least 40 years of age.

Other requirements are that the nominee must have been ordained and in full time ministry for not less than 10 years.

Photos: anglicancompass.com/contributed

ELECTION COMING... The Anglican Diocese of Namibia will have its elective assembly next month at Odibo in Ohangwena region where its 12th bishop will be elected.

Nominated priests are also required to have led a sound Christian spiritual and social life; must have a good reputation; be a person of integrity; and must have experience in pastoral ministry.

The nomination is expected to be sent to the chairperson of the advisory committee Mathew Nghihangwa before 4 March this year.

The church indicated that every nomination should have two seconders, who should provide supporting motivation for their nomination.

"The nominator should obtain the consent of the nominated candidate, which should be submitted in writing. The two supporters of the nomination must provide a supporting motivation each for the candidate they are supporting. Also note that if the nominated candidate is in full-time employment elsewhere, they

must be prepared to resign and work full-time as bishop, if elected."

THE HOPEFULS

The *Namibian* is informed that those who are interested in the position are Anglican St Thomas (Oshakati) priest Nangula Kathindi, Ohangwena parish pastor Phillipus Hainane and their St Michael Ongwediva colleague Shalyefu, who is also the mayor of Ongwediva. However, none of the priests allegedly have this qualification.

Contacted for comment two weeks ago, Shalyefu confirmed that he wants to be bishop and several people have allegedly approached him telling him that they want to nominate him.

"I will still have to think about whether you need to be spiritually ready, and the Spirit hasn't spoken to me. I will have an answer in March. My conscience tells me to participate," he said.

Kathindi declined to comment on the matter, saying she is still waiting for nomination.

Anglican executive director Archford Musodza says the requirements are formulated according to the church canons.

He also says these requirements are not only applicable to Namibia, but also to Anglican dioceses of South Africa, Lesotho, Angola, Mozambique and Swaziland.

The bishop will replace bishop Luke Pato, who retired last December. Pato, a South African clergyman, was assigned to Namibia in 2016 as the Anglican bishop of Namibia.

This was after the death of bishop Nathaniel Nakwanambu in 2015. He was supposed to be in that position for three years, but in 2019, Anglican archbishop Thabo Makgoba extended his term by two years.

He was sent to prepare the church for the election of a new Namibian bishop.

However, such elections never took place and the bishop allegedly took the position for himself.

Several pastors have since been involved in a power struggle with Pato, with some showing the door for questioning the bishop's legitimacy.

This led to one of the church priests Lukas Katenda forming his Reformed Evangelical Anglican Church of Namibia (REACH-NA).

Seed bank project off the ground

• NOMHLE KANGOOTUI

TO support biodiversity conservation and climate change intervention in Namibia, a community seed bank was launched in the capital on Tuesday.

An amount of NS400 000 has been

sponsored toward the seed bank project.

The environment ministry, with the support of the Environment Investment Fund of Namibia (EIF) and MTC will undertake the first project in the Kavango West region at the Neucum constituency through the National Gene Bank.

The Ministry of Environment, Forestry and Tourism's environmental commissioner, Timo Mufeti, says there is a need to develop formal community

seed banks within the rural areas.

"This project entails erecting a simple structure for community members to save their seed for current and future use. These are locally governed institutions to conserve, share and facilitate direct access to gene bank material," Mufeti said.

The government is committed to conserving genetic resources for current and future use, said Mufeti, which led to the establishment of the National Plants Genetic Resources Centre (NPGC).

At the launch, the CEO of EIF, Benedict Libanda, said the Intergovernmental Panel on Climate Change's sixth

assessment report on climate change and several other models suggests a reduction in ground cover and reduced net primary productivity by 2060 for Namibia.

"The EIF of Namibia is at the forefront of supporting biodiversity conservation and climate change intervention. I would therefore not underestimate the significance of seed banks towards securing indigenous genetic pools of our plant species."

What is more appealing to us is that this is a community-based seed bank. We can clearly see the National Botanical Research Institute's intention to build

community resilience and capacity," Libanda said.

MTC's chief human capital and corporate affairs officer, Tim Ekandjo, said Namibians must make an effort to preserve the environment.

"You might ask why we are involved, issues of environmental sustainability are prominent at MTC, and we also have a philosophy of preserving our environment. There will be a lot of initiatives from us when it comes to the environment. We would like to see this project succeed, and from Kavango it must move to the south and throughout the country," said Ekandjo.

One of the beneficiaries of the seed bank from the Neucum constituency in the Sarikwe community, Sinauzi Asser, told *The Namibian* that he feels lucky to be one of the first to benefit from the project.

"Already we are losing our most important plant species such as daumeni (pearl millet), nobopa, kakunya and tandimbe. These are lost due to droughts or floods, deforestation," Asser said. He further added that the seed bank will help the community conserve and exchange seeds among themselves and promote food security.

He also said they will regain, maintain and increase the control of the seeds while protecting the seeds for future generation.

SUSTAINABILITY... The launch of the community seed bank project.
