

2.4. PROJECT LOCATION

The location of the proposed EPL 8809 is situated in Western Namibia (**Figure 3**), within the Dorob National Park in the Erongo Region and approximately 23 km East of Cape Cross. To enhance potential impact mitigation, the proponent demarcated and marked a portion of the EPL into an area of 537 m² (herein referred to as Area of Interest (AOI)) which constitute Mining Claims 71556, 71557 and 71558.

2.4. SUPPORTING INFRASTRUCTURE

2.4.1 Basecamp

Given the location of the EPL and that it is situated in a national park, a base-camp consisting of shipping containers (already on-site see **Figure 4**, left by previous mining site owners) to house the equipment and for employees to guard the facility will be established and will be enclosed in 100m x 100m fence facility. Otherwise, it is strictly recommended that other staff
