ATT: "TO WHOM IT MAY CONCERN"

Shipapo Wambambangandu CC is a green scheme project established by local people to venture in Agricultural business at Muroro village of Mashare Constituency in Kavango East. The project was procedurally allocated land by Sambyu Traditional Authority in the year 2016. The project obtained all relevant documents including water permit from responsible ministry of Agriculture, Water and Forestry.

Such projects are important and recommendable as it will create employment particularly among high unemployed youth in our constituency and will also supplement government efforts of creating food for the country.

Therefore as Councillor of Mashare Constituency I wish all the best endeavours for the project and I fully support its implementation to bring development in our constituency.

Yours in Development,

.....  
**Hon. F. Mavara**  
**Constituency Councillor**  
**Mashare Constituency- Kavango East**
