KAMDESHA COPPER MINING (PTY) LTD

F.E. WESTRAADT Claims 71785 – 71794

4. Sport and recreation facilities.
5. Assistance with the building of a Community Clinic.
6. Assistance with the building of a Community Hall for gatherings.
7. Procurement and assistance with learning utensils, books, pens etc.
8. Assistance to provide Internet and Computers where required.
9. Job creation and on the job training and development of local employees.
10. Development of specialised skills identified in the community.
11. Upliftment of Community Standards in Health and Sanitation.
12. To assist NGO's in assisting with Community Development.

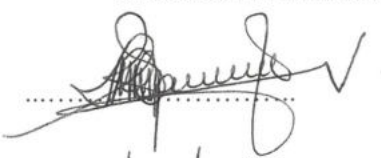

The above is just a few issues identified by Mr Frans Westraadt to facilitate Community Development.

The above is some of the early identification of assistance that the development of the Copper and other minerals can provide to the Community. It is also important that the Community provide assistance in creating an amicable environment to ensure the future success of the project.

Best Regards

Mr Frans Westraadt
Executive Member of the Community Trust

Mr Amon Kapi
(Acting Chairperson)

BACKGROUND INFORMATION DOCUMENT FOR PROPOSED SMALL-SCALE MINING ON 10 MINING CLAIMS (71785, 71786, 71787, 71788, 71789, 71790, 71791, 71792, 71793, 71794) LOCATED NEAR KAMANJAB, KUNENE REGION.

1. INTRODUCTION

Mr. Frans Ernst Westraadt has applied to the Ministry of Mines and Energy for 10 Mining Claims, located west of Kamanjab in the Kunene Region. The size of the Mining Claims range between 17.5 - 18 hectares (ha).

The proponent proposes to undertake small-scale mining for base and rare metals.

This document has been prepared to inform you:

- about the proposed activities;
- about the EIA process to be followed;
- of possible environmental impacts;
- how you can have input into the EIA process

3. ENVIRONMENTAL APPROVAL

Prior to the commencement of the proposed construction activities, an application for environmental clearance will be submitted in terms of the Environmental Management Act, 7 of 2007 and Regulations 19 and 21 of the EIA Regulations (January 2012) to the MEFT - Department of Environmental Affairs (DEA). MEFT - DEA will review the application and relevant reports for a final decision. An EIA process will be conducted in terms of the above-mentioned Act and Regulations.

I.N.K Enviro Consultants cc (I.N.K), is an independent firm of environmental consultants and has been appointed to manage the EIA process for the above-mentioned activities.

2. YOUR ROLE

Public involvement is an essential part of the EIA process.

You have been identified as an interested and affected party (IAP) who may want to know about the proposed activities and have input into the EIA process.

All comments will be recorded and addressed in the EIA process.

4. HOW TO RESPOND

Responses to this document can be submitted or through communication with the contact person listed below.

Name: Immanuel N. Katali

Cell No: +264818035825

Email: ikatali@inkenviroconsult.com

5. DESCRIPTION OF THE PROJECT

5.1 Introduction

The proponent proposes to undertake small-scale mining for base and rare metals.

5.2 Machinery/Vehicles

The machinery/vehicles include the following:

- Simple mining method of making use of excavators to remove the overburden;
- Jackhammers to loosen the hard rock material;
- Tipper lorries to transport material; and
- Crusher to crush the material into smaller pieces.

5.3 Power Supply

Power will be supplied from a compressor and fuel will be sourced from Kamanjab.

6.1.3 Water Requirements

Approximateky 1000 liters will be required per month. The water will be sourced from Kamanjab or the nearest farms.

6.5 Personnel

It is anticipated that the following personnel will be employed to carry out the above-mentioned activities:

- Skilled: 2
- Semi-skilled: 6
- Unskilled: 14

The personnel will establish a temporary camp on site.

7. STEPS IN THE EIA PROCESS

PHASE I – Internal Screening

- EIA project initiation.
- Notify MEFT: DEA..
- Site visit and identify environmental issues.
- Identify key stakeholders.

PHASE II – Combined Scoping & Assessment Phase and Environmental Management Plan (EMP)

- Submit Application form to MEFT
- Notify other regulatory authorities and IAPs of the proposed project (via newspaper advertisements, this document, emails, site notices).
- Conduct public meeting (see details provided) and key stakeholder (focus group) meetings.
- Assess impacts of proposed projects and compile Scoping (including assessment) report and EMP.
- Comment period: Reports will be made available for review and comment by regulatory authorities and registered IAPs.
- Compile final reports (including Issues and Response Report).
- Submit the final reports to MEFT for their review and decision-making.

8. POTENTIAL IMPACTS

Potential environmental issues associated with the small-scale ining include:

- Biodiversity: Physical destruction and general disturbance of flora and fauna as a result of the exploration activities.
- Topography: Potential impact resulting from hazardous excavations.
- Waste management: General waste generated from exploration activities.
- Air quality: Dust generation from drilling/excavation activities and vehicle movement.
- Groundwater and surface water: Potential ground water and surface water contamination from hydrocarbon spillages.
- Archaeology impact: Possible impact/loss of archaeological resources.
- Socio-economic: Potential impact on current land use activities; nuisance-related disturbance created by noise; and impacts relating to exploration staff on site.
