Dear Sir,

## REVIEW LETTER FOR ENVIRONMENTAL IMPACT ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PLAN: FOR THE IMPLEMENTATION OF CLTS PROGRAMME IN THE INFORMAL SETTLEMENTS IN WINDHOEK, KHOMAS REGION, NAMIBIA

Your EIA and EMP report on the above captioned subject matter received via email on 12 September 2022 has reference.

This EIA/EMP report was circulated to the directly affected stakeholder within the Council for review and the comments are presented below.

Almost all the concerns raised with the first review (forwarded to you via e-mail on 15 July 2022) has been addressed. However only the following two points needs to be attended to before the Report is submitted to the Ministry of Environment and Tourism.

### i) Environmental Management Plan

Awareness and training is proposed as a mitigation measure for various aspects in the Environment Management Plan, but is not clearly assigned to a responsible person. Since this is the function of the proponent, it can at once be mentioned under section 4.1 the role of the proponent in the Report.

### ii) Decommissioning

Decommissioning which is the demolishing of the holding pits, will only be done to pave the way for upgrading and formalization of informal Settlement, and not necessarily when the pit has reached its capacity. Thus a different type of mitigation measures should be proposed to address holding pits once it has reached its capacity.

The consulted is therefore recommended to address the above two points and then submit the Report to MET.

Yours Sincerely,

  
O'Brien Hekandjo

ACTING CHIEF EXECUTIVE OFFICER
