**Year:** 2017  
**Location:** Tsandi - Omusati Region  
**Client:** Tsandi Village Council  
**Main Project Features:** Construction of a new landfill site (waste disposal site) for Tsandi Town – inclusive of Hydrogeological, flora and vertebrate faun specialist studies.  
**Position held on project:** Environmental Assessment Practitioner (EAP)

**Activities performed:**

An Environmental Impact Assessment (EIA) study for the new landfill site in Tsandi. As the EAP, I was responsible for the entire EIA process, writing Environmental Assessment reports, public participation, Client and stakeholder liaison as well as submissions of the Environmental Clearance Certificate (ECC) Application to the Environmental Commissioner.

The project was completed successfully within the expected timeframe (2-3 months) and the Environmental Clearance Certificate was issued.

**Project Name:** Construction of a Service Station (Fuel Retail Facility)  
**Year:** 2017  
**Location:** Oranjemund- //Karas Region  
**Client:** Vivo Energy Namibia Limited (Pty)  
**Main Project Features:** The construction and operation of a service station in Oranjemund.  
**Position held on project:** Environmental Assessment Practitioner (EAP)

**Activities performed:**

An Environmental Impact Assessment (EIA) study for the construction and operation of a new service station in Oranjemund. As the EAP, I was responsible for the entire EIA process, writing Environmental Assessment reports, public participation, Client and stakeholder liaison as well as submissions of the Environmental Clearance Certificate (ECC) Application to the Environmental Commissioner.

The project was completed successfully within the expected timeframe (2-3 months) and the Environmental Clearance Certificate was issued.

**Project Name:** Road Construction  
**Year:** 2013  
**Location:** Rundu – Kavango East Region  
**Client:** Rundu Town Council  
**Main Project Features:** Construction of internal roads for the Township development of Extension 8 in Rundu.  
**Position held on project:** Environmental Assessment Practitioner (EAP)

**Activities performed:**

An Environmental Impact Assessment (EIA) study for the construction of roads in Rundu. As the EAP, I was responsible for the entire EIA process, writing Environmental Assessment reports, public participation, Client and stakeholder liaison as well as submissions of the Environmental Clearance Certificate (ECC) Application to the Environmental Commissioner.

The project was completed successfully within the expected timeframe (2-3 months) and the Environmental Clearance Certificate was issued.

**Project Name:** Renewal of Environmental Clearance Certificate for the exploration in terms of the Exclusive Prospecting Licence 2491, Offshore  
**Year:** 2019  
**Location:** St. Francis Bay - //Karas Region  
**Client:** Together Quando Mining (Pty) Ltd  
**Main Project Features:** Renewal of the ECC for the EPL 2491 for construction and operation phases.  
**Position held on project:** Environmental Assessment Practitioner (EAP)

**Activities performed:**

The renewal of the Environmental Clearance Certificate for the EPL 2491 to commence with the construction phase of the project. As the EAP, I was responsible for the renewal process, site investigation analysis (due diligence), Client liaison as well as submissions of the Environmental Clearance Certificate (ECC) Application to the Environmental Commissioner.

The project was completed successfully within the expected timeframe (2-3 months) and the Environmental Clearance Certificate was issued.

**Project Name:** Township Establishment of Oshikuku Extension 9  
**Year:** 2018  
**Location:** Oshikuku – Omusati Region  
**Client:** Oshikuku Town Council  
**Main Project Features:** New township development of Extension 9 which included creation of internal streets.  
**Position held on project:** Environmental Assessment Practitioner (EAP)

**Activities performed:**

An Environmental Impact Assessment (EIA) study for the new township development of Extension 9 in Oshikuku. As the EAP, I was responsible for the entire EIA process, writing Environmental Assessment reports, public participation, Client and stakeholder liaison as well as submissions of the Environmental Clearance Certificate (ECC) Application to the Environmental Commissioner.

The project was completed successfully within the expected timeframe (2-3 months) and the Environmental Clearance Certificate was issued.

**Project Name:** Electrification of Upukos Settlement  
**Year:** 2018  
**Location:** Upukos Settlement - Erongo Region  
**Client:** ErongoRED  
**Main Project Features:** Provision of electricity to Upukos Settlement inclusive of erection of power transmission lines to the settlement.  
**Position held on project:** Environmental Assessment Practitioner (EAP)

**Activities performed:**

An Environmental Impact Assessment (EIA) study for the new township development of Extension 9 in Oshikuku. As the EAP, I was responsible for the entire EIA process, writing Environmental Assessment reports, public participation, Client and stakeholder liaison as well as submissions of the Environmental Clearance Certificate (ECC) Application to the Environmental Commissioner.

The project was completed successfully within the expected timeframe (2-3 months) and the Environmental Clearance Certificate was issued.

**Project Name:** Road Constructions or Establishments  
**Year:** 2014  
**Location:** Katima Mulilo – Kavango East Region  
**Client:** Namibia Housing Enterprise (NHE)  
**Main Project Features:** Construction of access roads for the Mass Housing initiative in Namibia.  
**Position held on project:** Environmental Assessment Practitioner (EAP)

**Activities performed:**

An Environmental Impact Assessment (EIA) study for the construction of multiple access roads in Katima Mulilo. As the EAP, I was responsible for the entire EIA process, writing Environmental Assessment reports, public participation, Client and stakeholder liaison as well as submissions of the Environmental Clearance Certificate (ECC) Application to the Environmental Commissioner.

The project was completed successfully within the expected timeframe (2 months) and the Environmental Clearance Certificate was issued.

**Project Name:** Upgrading of the Windhoek – Hosea Kutako International Airport Railway Line  
**Year:** 2015  
**Location:** Windhoek - Khomas Region  
**Client:** Ministry of Works & Transport  
**Main Project Features:** The upgrade of the Windhoek – Hosea Kutako International Airport Railway Line for sustainable and ease commuting between the airport and the city.  
**Position held on project:** Environmental Assessment Practitioner (EAP)

**Activities performed:**

An Environmental Impact Assessment (EIA) study for the upgrade of the Windhoek – HKIA Railway. As the EAP, I was responsible for the entire EIA process, writing Environmental Assessment reports, public participation, Client and stakeholder liaison as well as submissions of the Environmental Clearance Certificate (ECC) Application to the Environmental Commissioner.

The project was completed successfully within the expected timeframe (2-3 months) and the Environmental Clearance Certificate was issued.

**Project Name:** Construction of a Service Station (Fuel Retail Facility)  
**Year:** 2015  
**Location:** Gobabis - Omaheke Region  
**Client:** Muzine Investment Holdings (Pty) Ltd  
**Main Project Features:** The construction and operation of a service station in Gobabis.  
**Position held on project:** Environmental Assessment Practitioner (EAP)

**Activities performed:**

An Environmental Impact Assessment (EIA) study for the construction and operation of a new service station in Gobabis. As the EAP, I was responsible for the entire EIA process, writing Environmental Assessment reports, public participation, Client and stakeholder liaison as well as submissions of the Environmental Clearance Certificate (ECC) Application to the Environmental Commissioner.

The project was completed successfully within the expected timeframe (2-3 months) and the Environmental Clearance Certificate was issued.
