Re: Environmental Scoping Assessment and Environmental Management Plan for the Construction and Operational Activities of Bachmus Oil & Fuel Supplies' Proposed Depot in the New Light Industrial Area of Walvis Bay

Dear Sir/Madam

In terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (Government Notice No 30 of 2012), notice is hereby given to all potential interested and/or affected parties (IAPs) that an application will be made to the Environmental Commissioner for an environmental clearance certificate for the following project:

**Project:** Environmental Scoping Assessment and Environmental Management Plan for the Construction and Operational Activities of Bachmus Oil & Fuel Supplies' Proposed Depot in the New Light Industrial Area of Walvis Bay

**Proponent:** Bachmus Oil & fuel Supplies (Pty) Ltd

**Environmental Assessment Practitioner:** Geo Pollution Technologies (Pty) Ltd

Bachmus Oil & Fuel Supplies (Pty) Ltd (the Proponent), under licences issued by the Ministry of Mines and Energy, currently operates two diesel wholesale facilities in Walvis Bay. It is the Proponent's intention to ultimately relocate and consolidate the two existing sites by establishing a new depot and warehouse on erf 5738, in the new light industrial area, Extension 12, Walvis Bay. Once developed, erf 5738 will continue to serve as the Proponent's oil and lubricant storage and retail outlet as well as bulk diesel sales facility.

Preliminary site plans propose that the site contains one 200 m<sup>3</sup> aboveground diesel storage tank. The installation will be constructed according to South African National Standards (SANS) which include requirements for spill control infrastructure such as bund walls, concrete slabs and oil/water separators. Operations entails the receipt of diesel from road tankers, storage of fuel in the aboveground storage tank, dispensing of fuel to clients at the pump islands and day to day administrative tasks. Operations not related to the diesel wholesale facility will continue on site and include the sale of oil and lubricants to customers.

Geo Pollution Technologies (Pty) Ltd was requested to conduct an environmental assessment for the proposed facility. As part of the assessment we consult with IAPs who are invited to register with the environmental consultant to receive further documentation and communication regarding the project. By registering, IAPs will be provided with an opportunity to provide input that will be considered in the drafting of the environmental assessment report and its associated management plan.

Please register as an IAP and provide comments by **15 February 2021**.

To register, please contact: Email: [bachmus@thenamib.com](mailto:bachmus@thenamib.com) Fax: 088-62-6368

Should you require any additional information please contact Geo Pollution Technologies at telephone 081-1452164 / 061-257411.

Thank you in advance.

Sincerely,

Geo Pollution Technologies

### MAN SUES POLICE FOR N\$900K FOR ALLEGED ASSAULT

**JAHJA-MARI SMITH**  
WINDHOEK

An unemployed man is suing the Namibian police and three police officers for close to N\$1 million for allegedly assaulting him while in police custody.

The man was reportedly injured to such an extent that he defecated during the attack, in addition to sustaining various physical injuries.

The police deny the assault, arguing that the man had insulted a police officer while drunk and was taken to the police station to sober up.

Court documents filed at the High Court by Ebeon Katire, an Otjomuise resident, details the alleged assault by multiple police officers which took place in September 2019 in Okondjatu in the Otjozondjupa Region.

Katire is suing the police, and the three police officers, for N\$900 000 in damages, claiming that the not only sustained physical injuries including a dislocated left shoulder, but experienced mental distress, shock and discomfort

police officers. He was hounded into the vehicle and taken to the police station.

**Attack**

His court papers claim that he was handcuffed and then severely assaulted by the three police officers.

"The defendants were kicking me with boots all over my body, punching me, hitting me with their hands, and twisting my handcuffed arms."

He further alleged that "the brutal assault lasted for more than an hour, until [he] defecated."

"He said he was kept at the police station for more than 24 hours and eventually released without being charged with a crime."

**Insulted**

In their defence, the police allege that Katire had insulted the police officers in question, and he was "brought to the police station to sober up and was released the next day with a warning."

"Katire appeared very drunk and continued to hurl insulting words at the police officer."

"The police officer who confronted by the plaintiff who insulted him by swearing at him and using words of an abusive and insulting nature towards him in his official capacity as a police officer."

ENVIRONMENTAL ASSESSMENT FOR BACHMUS OIL & FUEL SUPPLIER PROPOSED DEPOT IN THE NEW LIGHT INDUSTRIAL AREA OF WALVIS BAY

Geo Pollution Technologies (Pty) Ltd was appointed to undertake an environmental assessment for the construction of a new diesel depot and warehouse on erf 5738, in the new light industrial area, Extension 12, Walvis Bay. Preliminary site plans propose that the site contains one 200 m<sup>3</sup> aboveground diesel storage tank. The installation will be constructed according to South African National Standards (SANS). Once developed, erf 5738 will serve as the Proposer's new oil and lubricant storage and retail outlet as well as bulk diesel sales facility. More information regarding the project is available at:

<http://www.thesun.co.na/projects/projects.html>.

The environmental assessment will be according to the Environmental Management Act of 2007 and its regulations as published in 2012.

All interested and affected parties are invited to register with the environmental consultant. By registering you are provided with the opportunity to share any comments, issues or concerns related to the facility, for consideration in the environmental assessment. Additional information can be requested from Geo Pollution Technologies.

All comments and concerns should be submitted to Geo Pollution Technologies by 15 February 2021.

Versteekte geld VAN BL. 1 "Ongehoorlik is daar van verlede jaar af 'n poging deur die media om te sê dat hulle goed gekom het, ook met Fishnet te verband," het Moller aan Republiek gesê. "Die geld wat deur staalwerkers gesteel is, was geld wat uit die opebrenge van die horendery verdien is. Toe die geld einde verlede jaar weg-

geloop wat hy ontwikkel het. Volgens Moller was bedrag van onderskeidelik N\$4,5 miljoen en N\$1,5 miljoen wat op 23 Oktober 2017 deur min. Maris de Klerk van MII Properties en Celas Investments Number One se rekening oorbetal is, hieroor betrou. Dit rekening is as bevoordeling deur De Klerk gebruik om geld namens die Fishnet-besluiting te was. Moller se te transaksie was 'n saak tussen Hutukuli, sy produer, en die eiendomsagentskap, Pam Golding Properties, wat die oernde bemaak het. "Hy het as 'n te eiendomsagent gader, dik het nie met die loop van die oernde toe doen gehad nie. Net so kon die ACC oekgenwehntus tussen D&M Real Construction en Fishnet, transaksies vind nie," het hy die nuwek gesê. Moller en Bost moet weer op 28 April in die landdroshof op Gobabis verskyn. Hulle is op 15 Januarie op berlog vrygelaat. -republic01.com
