Jan 2013 – Feb 2015

Environmental Coordinator

ROMPCO PIPELINE – Worley Parsons
Mozambique and South Africa

- Experience was gained in the oil & gas and construction industries. The pipeline length was 127km. Application and obtaining of environmental permits encompassed a large section of the role. The position also required the management of an on-site environmental team. It was required to meet with different governmental departments and build relationships with key individuals to allow swift communication and permit a platform for transparency. Ensured compliance with National, best neighboring as well as IFC legislation and standards. Review and submission of monthly reports and monthly audits was also a requirement of the position.

Fun Facts:

- I can deadlift 135kg
- To keep fit I Olympic weight lift
- I run ultra Marathons & the longest run yet the fish river Canyon 65km
- I am one of 6 children - do you think that means 4 of us suffer middle child syndrome?

Words I live by:

‘The journey will bring you happiest, not the destination’

Experience & Work History

History

Feb 2013 – Feb 2014

Environmental Consultant

Ensolve Pty Ltd - Australia

In February 2013 an opportunity came about to launch my own business, Blue Wren Environmental Services.

During this time I have worked alongside Ensolve Pty Ltd to deliver several environmental projects including:

- A mine closure project taking an operating mine site into the rehabilitation and closure phase. This project involved the full development of a mine closure plan, facilitation of the government approvals, stakeholder engagement and technical environmental studies to inform the mine closure plan
- Sustainability reporting in accordance with the Global Reporting Initiative
- Rehabilitation of historic exploration sites and obtaining associated government approvals for relinquishment of bonds.

Jan 2010 – Feb 2013

Site Environmental Manager

Panoramic Resources – Australia

- Brought the site into full compliance with the Environmental Licence within 1 year.
- Managed projects relating to the expansions of the current mine tailings dams including obtaining approvals under the Mining Act 1978 and Environmental Protection Act 1986.
- Managed the environmental and community aspects of three operations; Savannah Nickel Mine, Copernicus Nickel Mine (currently in care and maintenance) and the operations at Wyndham Port
- Responsible for the environment, sustainability and social reporting portfolio
- Developed productive working relationships with local government environmental agencies and non-government agencies, which assisted with the approvals process.
- Developed strategies for the recruitment and retention of local Indigenous personnel

Jan 2007 – Jan 2010

Environmental Systems

Coordinator

Lihir Gold Limited – Australia

Working on site to provide technical environmental and community advice to ensure all regulatory and licence obligations were met or exceeded

- Regulatory Approvals (State and Federal Government)
- Environment and social aspects of the international cyanide management code
- Operational budgeting and bond management for mine closure

- Keen photographer.
- Make a mean curry.

Words I live by:

*'Regret the things you do and
not the things you don't do'*

**April 2017 -
January 2018**

Experience & Work History

ENVIRONMENTAL CONSULTANT

Self-employed

- In January 2017, an opportunity came about to relocate to Namibia and provide environmental and sustainability advise to the Zambezi Queen Collection, part of the Mantis Collection. I provided leadership and guidance to the development of the Collection's environmental and social responsibilities; prepared and implemented a successful waste management strategy; drafted a preliminary environmental action and management plan; as well as the Collections' draft sustainability strategy.

In August I moved to Windhoek and provided environmental services to several consultancies, and during this time, I delivered the following projects:

- EIA and associated Scoping Report and EMP for the Water Infrastructure Upgrades and Construction of two new Pollution Control Dams at the Tsumeb Smelter Site;
- Environmental Screening Report and Environmental Management System report as part of an application for a grant to support Eco-System Base Climate Change Adaptation through Community Based Natural Resource Management in Namibia

**April 2008 -
April 2017**

Principal Environmental Consultant

Jacobs Engineering

Having spent nine years at Jacobs, I accumulated a significant amount of experience in the coordination, management and delivery of a range of environmental assessments for various development projects across the UK.

For over three years I was the Lead EIA Project Coordinator for one of the largest major infrastructure projects in the UK; Horizon Nuclear Power, a new nuclear power station in Wales. During this time, I coordinated a team of over 100 environmental specialists, producing a range of specialist reports as part of the Development Consent Order. I undertook optioneering assessments; EIA screening and scoping exercises; produced various EIA reports and worked directly with engineers, designers and legal team. I also led and participated various stakeholder consultation events and produced associated reports.

In addition to this project, I also have experience in road, rail and electrical transmission projects; nuclear waste management, processing, and decommissioning; housing developments; large scale site preparation and excavation projects; and marine schemes. I have undertaken strategic environmental assessments and best available technique assessments, produced environmental safety case reports and various environmental management plans.
