Attention Mr. T. Mufeti

Dear Sir

RE: ENVIRONMENTAL CLEARANCE CERTIFICATE (ECC) FOR THE UPGRADING OF EXISTING S. I. !GOBS SENIOR SECONDARY SCHOOL OXIDATION PONDS IN OMARURU TOWN, ERONGO REGION – APPLICATION FOR ENVIRONMENTAL CLEARANCE CERTIFICATE (ECC): APP-004529

Municipality of Omaruru (*the Municipality*) hereby acknowledges that we have appointed Trinitas Consulting Engineers to design and plan for the better management of our wastewater at wastewater handling and treatment facilities, including the upgrading of the S. I. !Gobs Senior Secondary School' sewer (oxidation) ponds (to serve as temporal holding ponds). The wastewater management facilities fall under the listed activities that require environmental clearance certificates (ECCs). Subsequently Trinitas subcontracted Mafuta Environmental Consultants CC (Environmental Assessment Practitioners) to apply for ECC for the ponds by preparing Environmental Management Plan (EMP) for the upgrading of the temporal holding ponds.

It is against this background, that we humbly request your office to receive the EMP prepared and submitted by the Environmental Consultants for evaluation and consideration of the ECC for the ponds.

Should you have any questions or need clarifications, please do not hesitate to contact us.

Sincerely,

Sindongo Valentinus
Chief Executive Officer
Municipal Council of Omaruru
