NATIONAL NEWS

Kunene Continues

The 2021 Population and Housing Census (PHC) which was planned for August last year was postponed mainly due to competing priorities such as the COVID-19 budget prioritization. Again, this year's scheduled census exercise was not provided for in the national budget of 2022/2023 due to financial constraints and other critical national priorities, according to the Namibia Statistics Agency boss Alex Shimuafeni.

"Kunene is a vast region. As such, access to some schools is a challenge due to distances for some communities. There are some centres where you find the youth attending literacy classes in some areas. We are however left with no choice but to allow them to learn which has proven to be beneficial towards developing their intrinsic thinking levels," Shivute said.

As per the 2011 population and housing census, the literacy rate of Khorixas was top at 84%, Outjo 78%, Kamanjab 75%, Sesfontein 72%, Opuwo (Urban & Rural) 62% and Epupa 29%.

"These statistics tell that the region is not doing really that bad, nevertheless, it indicates that concerted efforts were needed in the Epupa constituency as we have identified it as a dark spot," Shivute said.

"Therefore, as a directorate of education, arts and culture in the region we decided to employ more literacy promoters in the Epupa constituency than in other constituencies to enable us to provide adult education to as many residents of Epupa as possible," he explained.

He said that the region has an annual quota of employing 128 literacy promoters, with the Epupa constituency getting 30% of them. He also praised the vital role that traditional authorities are playing in advocating for adult education.

"We pride ourselves on the positive working relationship we have established with most of the traditional authorities in the region." He pointed out. "As such, the traditional authorities are our eyes and ears of the programme as they make up the community literacy committees. These committees are pivotal because they are the ones that oversee the operations of the literacy centres in

our communities," he said.

Through the literacy programme, he explained, the government has been able to teach people to read and write and better cope with the rapidly changing world. "The disadvantaged and marginalised groups continue to reap the benefits of being literate, making informed decisions, exercising their rights in many respects and and living meaningful lives," he said.

He said that literate women are more proactive when it comes to their children's education and are more likely to ensure that their children attend school.

Shivute explained that the literacy programme has made communities to understand health issues which is seen in the low child mortality rates and awareness about HIV/AIDS.

"We continue to assist people to develop specific competencies required in life for self-development, the labour market, and

ensuring that occupational mobility and sustainability are enhanced."

Shivute said that they have a programmes called the Adult Skills Development for Self-Employment which capacitates adult learners to become entrepreneurs and make them start their own businesses. As per the 2011 Census, Erongo, // Karas and Khomas regions were leading the country's literacy rate with 97% of literacy among people aged 15 years and older, with the Hardap region at 91%. The figures are higher than the country's national literacy rate estimated at 87%.

Shivute explained that the tough economic times have negatively impacted the literacy programme not only in the Kunene region but throughout the country, and other activities of the directorate of education, arts and culture.

NOTICE TO APPLICANT OF PREPAREDNESS TO GRANT APPLICATION FOR EXCLUSIVE PROSPECTING LICENCE No. 8555.

In terms of Section 48(4) of the Minerals (Prospecting and Mining) Act, No. 33 of 1992, notice is hereby given that the Minister is prepared to grant your new application, lodged on **02 September 2021**, for an exclusive prospecting licence in respect of **Dimension Stone, Base and Rare Metals, Industrial Minerals and Precious Metals** Groups of Minerals over an area of land as shown in the attached diagrams, subject to the terms and conditions contained in the attached schedule, which terms and conditions supplement the terms, conditions and provisions of the said Act.

Your attention is drawn to the provisions of Section 48(5) of the said Act, which require that within one (1) month from the date of this notice, written acceptance of such terms and conditions must be received by the Commissioner, failing which the application will be deemed to have lapsed.

Kindly acknowledge your acceptance of such terms and conditions by-

- (a) completing the section at the bottom of this notice;
- (b) initialing each page of the schedule and the diagrams; and
- (c) returning such signed and initialed documents to the Commissioner.
