A Dream - Almost a Reality

Rudi Bowe

The idea of building an Elderly Home in Narraville originated about 20 years ago when Board Chairman David Williams shared his dream with a few handpicked friends in Narraville.

The Elderly Home aims at giving the elderly an opportunity to live happy lives by providing services tailored to their individual needs. The total construction cost of the Narraville Elderly Home is expected to be around N\$25 million. The home will consist of a main hall, a clinic and 58 single and double residential units with a bathroom, bedroom, kitchen and lounge which will be constructed at a cost of N\$250 000 per unit.

At a fundraising gala dinner held in November last year an amount of well over N\$2 million was raised for the construction of long overdue old age home in Narraville. On Saturday, 30 July about N\$150 000 was raised at a dance and dinner that was held to raise more funds for the construction of the Narraville Elderly Home.

The board of trustees would like everyone to be part of the journey for the establishment of the Narraville Elderly home. They appealed to the community of Walvis Bay, particularly the Narraville residents to donate a brick per family per month for the construction of this of the elderly home. The Chairperson of the Board of Trustees of the Narraville Elderly Home, David Williams, said they intend to move full steam ahead as soon as they receive the green light from the Walvis Bay Town Council.

Williams said, "we need everyone's help to improve the lives of our senior citizens by providing them with a place of their own that they can call home and safe haven." The Minister of Fisheries and Marine Resources, Derek Klazen, also attended the event, and said the construction project of the Narraville Elderly Home is close to his heart.

Klazen said, "the idea was initially tabled in 2004 but stalled. At the time, the minister of local authorities announced a sponsorship of N\$1 million for the construction and benefit of nursing homes, but the group in Narraville was not ready and no money was received. However, several fishing companies came on board in 2021 and undertook to make the project a success."

The Mayor of Walvis Bay, Trevino Forbes, said David Williams and Daniel Mouton approached the municipality and request to make land available was tabled and is one of the few that were accepted unopposed. Forbes said, "the Walvis Bay town council fully support the initiative taken by the residence to build an old age home in Narraville."

Forbes emphasized that the project will not succeed without the support of the community.

The Board of Trustees of the Narraville Elderly Home are Elmo Plato, Daniel Mouton, Donovan Paulse, Carol Williams, Jeanine Strauss, David Williams, Shaheed Saban and Dr Dean Kock.

Members of the Board of Trustees of the Narraville Elderly Home with His Worship, Councilor Trevino Forbes, Mayor of the Port City of Walvis Bay, and Honorable Derek Klazen Minister of Fisheries and Marine Resources at the Narraville Elderly Home Dance and Dinner evening

Walvis Bay Child and Family Centre - Sunshine thanks De Gouveia for years of support

Eileen van der Schyff

Walvis Bay Child and Family Centre – Sunshine handed over a small gift made by the centre's needlework and woodwork programs as token of appreciation to Mr Ivo De Gouveia through his Consultant, Hubert Mukosho, for his constant support to the centre on 20 July.

Sunshine Centre handed over a certificate of appreciation, a table and chairs made by the centre's woodwork program (young men living with disabilities) and a handbag made by the centre's young girls living with disabilities. Everyone at the centre is grateful for the financial contributions Mr De Gouveia has made towards the centre through the years. At the handover, Director of the Sunshine Centre, Luzelle Lestrade said, "thank you so much for contacting the centre via your appointed consultant representing you, Mr Hubert Mukosho." Mr Mukosho's role in Mr De Gouveia's projects, is to see donated funds get used for the right purposes, and once accountability has been established, these relationships are sustained. Lestrade said, "of late, we have been hoping to reach your offices to express our sincerest gratitude and appreciation for the consistent and much needed support that you have been providing the centre for many, many years. We are thankful for this opportunity." Mr Mukosho said, "it is very special that this token of appreciation comes from the hands of the very children Mr De Gouveia is supporting." Mr Mukosho further said, "businessmen like Mr De Gouveia are very rare. He is a philanthropist in every sense." In Mukosho's opinion, if more businessmen were like him, community development will be attained. "As a specialist in community development, people like Mr De Gouveia are essential, as they work side by side with the government to make sure community develop-

ment is reached in a country where marginalised communities need all the assistance they can get." Established in 1996, the Sunshine Centre has become a place of hope and strength for many individuals living with disabilities, which has only been possible because of the help from the public in the form of donations. The centre, in addition to their own efforts to generate an income, relies on the support of private and public donors to keep going. "Mr De Gouveia gave his first donation in June of 1996 and has donated at least N\$138 500 up to now," Lestrade said. Mr De Gouveia's monthly contribution towards the centre benefits two children per month from the centre's services. This includes two warm nutritious meals per day, special needs education/training and/or therapy and social work services, music and movement instruction, life skills development through educational excursions, life skills lessons and practical training in gardening, self-care, and other interventions to help the child or individual become as independent as possible, reaching their own highest potential. "For this we can not say thank you enough, and we honour you for your continuous contribution," Lestrade concluded. Individuals interested in supporting the centre's special education, training, social enterprises, nutrition, music and movement programs for marginalised children and youth with disabilities, can contact the centre's office at 064-203553 to enquire, discuss or set up a meeting.

Mrs Gail Taukuheke (Social worker), Mrs Gustafine Louw (Supervisor) and Mrs Luzelle Lestrade (Executive Director) handed over the token of appreciation to the consultant of Mr. De Gouveia, Mr. Hubert Musosho.

Dear Potential Interested and Affected Party

Environam Consultants Trading is a wholly Namibian owned environmental management consultancy providing an array of environmental services to our clients including: Strategic Environmental Assessments; Environmental Assessments; Strategic Environmental Management Plans; Environmental Management Plans; Environmental Management Systems; Environmental Auditing, Monitoring and Evaluation; Solid Waste Management; and Project Management. Our daily activities are underpinned by excellent environmental outcomes aimed at achieving a symbiotic relationship between development and the environment. We have been appointed by Clasox Petroleum (PTY) Ltd to undertake the environmental scoping exercise and apply for an environmental clearance certificate from the Environmental Commissioner for the project below:

Proposed Construction of Walvis Bay Oil Refinery on a Portion of Portion 9 of Farm 58, Walvis Bay, Erongo Region.

The construction of facilities for refining of gas, oil and petroleum products; Any process or activity which requires a permit, licence or other form of authorisation, or the modifications of or changes to existing facilities for any process or activity which requires an amendment of an existing permit, licence or authorisation or which requires a new permit, licence authorisation in terms of a law governing the generation or release of emissions, pollution, effluent or waste; The bulk transportation of dangerous goods using pipeline, funiculars or conveyors with a throughput of 50 tons or 50cubic meters or more per day; The storage and handling of dangerous goods, including petrol, diesel, liquid petroleum gas or paraffin, in containers with a combined capacity of more than 30 cubic meters per day; Construction of filling stations or any other facility for the underground and aboveground storage of dangerous goods, including petrol, liquid petroleum gas or paraffin; and The construction of oil, water, gas and petrochemical and other bulk supply pipelines; are listed activities as per the *List of Activities requiring Environmental Clearance* (Government Notice 29 of 6 February 2012) and accordingly require an Environmental Impact Assessment (EIA) to be conducted. In line with Regulation 21(2) of the mentioned EIA Regulations, a Background Information Document (BID) is distributed to pre-identified Interested and Affected Parties as part of the public consultation process for this Environmental Impact Assessment.

An Environmental assessment will be undertaken to determine the potential impact of the development on the environment and to determine all safety, health and social impacts associated with the proposed development

FW: Proposed Construction of Walvis Bay Oil Refinery on a Portion of Portion 9 of Farm 58, Walvis Bay, Erongo Region.

To: 'ED@namdefence.org'

Dear Potential Interested and Affected Party

Environam Consultants Trading is a wholly Namibian owned environmental management consultancy providing an array of environmental services to our clients including: Strategic Environmental Assessments; Environmental Assessments; Strategic Environmental Management Plans; Environmental Management Plans; Environmental Management Systems; Environmental Auditing, Monitoring and Evaluation; Solid Waste Management; and Project Management. Our daily activities are underpinned by excellent environmental outcomes aimed at achieving a symbiotic relationship between development and the environment.

We have been appointed by **Clasox Petroleum (PTY) Ltd** to undertake the environmental scoping exercise and apply for an environmental clearance certificate from the Environmental Commissioner for the project below:

Proposed Construction of Walvis Bay Oil Refinery on a Portion of Portion 9 of Farm 58, Walvis Bay, Erongo Region.

The construction of facilities for refining of gas, oil and petroleum products; Any process or activity which requires a permit, licence or other form of authorisation, or the modifications of or changes to existing facilities for any process or activity which requires an amendment of an existing permit, licence or authorisation or which requires a new permit, licence authorisation in terms of a law governing the generation or release of emissions, pollution, effluent or waste; The bulk transportation of dangerous goods using pipeline, funiculars or conveyors with a throughput of 50 tons or 50cubic meters or more per day; The storage and handling of dangerous goods, including petrol, diesel, liquid petroleum gas or paraffin, in containers with a combined capacity of more than 30 cubic meters per day; Construction of filling stations or any other facility for the underground and aboveground storage of dangerous goods, including petrol, liquid petroleum gas or paraffin; and The construction of oil, water, gas and petrochemical and other bulk supply pipelines; are listed activities as per the *List of Activities requiring Environmental Clearance* (Government Notice 29 of 6 February 2012) and accordingly require an Environmental Impact Assessment (EIA) to be conducted.

In line with Regulation 21(2) of the mentioned EIA Regulations, a Background Information Document (BID) is distributed to pre-identified Interested and Affected Parties as part of the public consultation process for this Environmental Impact Assessment.

An Environmental assessment will be undertaken to determine the potential impact of the development on the environment and to determine all safety, health and social impacts associated with the proposed development activities.

Should you require any additional information or would like to register as an I&AP, please contact us at Mobile: +264 81 458 4297, Fax: +264 61 258 470 or E-Mail: colin@environam.com; P.O. Box 24213, Windhoek, on or before **19 August 2022**.

Dear Interested and Affected Party

We have the pleasure to inform you that the draft Environmental Scoping Report (DESR) and draft Environmental Management Plan (EMP) for the abovementioned project have been completed. We herewith notify all registered Interested and Affected Parties that the document is available for public comment from **05 January 2023 to 20 January 2023**.

Kindly provide your written comments and input to Environam Consultants Trading on or before **20 January 2023**, using any of the following methods:

P.O. Box 24213, Windhoek
Email: colin@environam.com
Cell: +264 814 584 297
Fax: +264 61 258 470

Input received during the comment period will be incorporated into the Final Environmental Scoping Report that will be submitted to the Office of the Environmental Commissioner in the Ministry of Environment, Forestry and Tourism for consideration and decision making.

Kindly feel free to contact us for any further information.

Dear Council Colleagues – Please take note of the attachment and email below.

Dear Colin – The highlighted in your email below has reference. You are very much aware (and out of past experiences) that a meeting at 11:00 am – working hours – cannot be intended to be a public meeting and or promoting public participation. You are more than welcome to have a stakeholders meeting 11:00 am, but requested to conduct a public meeting earliest 18:00 onwards.

Kindest regards & blessings to you,

David DH Uushona (CMP)
 Acting Chief Executive Officer
 Civic Centre, Nangolo Mbumba Drive, Walvis Bay, Namibia

Dear Potential Interested and Affected Party

Environam Consultants Trading is a wholly Namibian owned environmental management consultancy providing an array of environmental services to our clients including: Strategic Environmental Assessments; Environmental Assessments; Strategic Environmental Management Plans; Environmental Management Systems; Environmental Auditing, Monitoring and Evaluation; Solid Waste Management; and Project Management. Our daily activities are underpinned by excellent environmental outcomes aimed at achieving a symbiotic relationship between development and the environment. We have been appointed by Clasox Petroleum (PTY) Ltd to undertake the environmental scoping exercise and apply for an environmental clearance certificate from the Environmental Commissioner for the project below:

Proposed Construction of Walvis Bay Oil Refinery on a Portion of Portion 9 of Farm 58, Walvis Bay, Erongo Region.

The construction of facilities for refining of gas, oil and petroleum products; Any process or activity which requires a permit, licence or other form of authorisation, or the modifications of or changes to existing facilities for any process or activity which requires an amendment of an existing permit, licence or authorisation or which requires a new permit, licence authorisation in terms of a law governing the generation or release of emissions, pollution, effluent or waste; The bulk transportation of dangerous goods using pipeline, funiculars or conveyors with a throughput of 50 tons or 50cubic meters or more per day; The storage and handling of dangerous goods, including petrol, diesel, liquid petroleum gas or paraffin, in containers with a combined capacity of more than 30 cubic meters per day; Construction of filling stations or any other facility for the underground and aboveground storage of dangerous goods, including petrol, liquid petroleum gas or paraffin; and The construction of oil, water, gas and petrochemical and other bulk supply pipelines; are listed activities as per the *List of Activities requiring Environmental Clearance* (Government Notice 29 of 6 February 2012) and accordingly require an Environmental Impact Assessment (EIA) to be conducted. In line with Regulation 21(2) of the mentioned EIA Regulations, a Background Information Document (BID) is distributed to pre-identified Interested and Affected Parties as part of the public consultation process for this Environmental Impact Assessment.

In line with Regulation 21(2) of the mentioned EIA Regulations, a Background Information Document (BID) is distributed to pre-identified Interested and Affected Parties as part of the public consultation process for this Environmental Impact Assessment.

An Environmental assessment will be undertaken to determine the potential impact of the development on the environment and to determine all safety, health and social impacts associated with the proposed development activities.

Should you require any additional information or would like to register as an I&AP, please contact us at Mobile: +264 81 458 4297, Fax: +264 61 258 470 or E-Mail: colin@environam.com; P.O. Box 24213, Windhoek, on or before **19 August 2022**.

A Public consultation meeting will be held on 12 August 2022 at 11:00 am. The venue of the meeting will be Narraville Community Hall.
