Appendix E: Background Information Document (BID)

Background Information Document (BID)

Project Name: **Environmental Scoping Assessment Study for the Proposed Mineral Exploration Activities on Exclusive Prospecting Licence (EPL) No. 8778 located within Aussenkehr in Karas Region, Namibia**

Proponent: **Gayane Trading Enterprises CC**

Consultant: **Excel Dynamic Solutions Pty Ltd**

1 INTRODUCTION: BACKGROUND

Gayane Trading Enterprises CC (hereinafter referred to as The Proponent) has applied to the Ministry of Mines and Energy (MME) to be granted an Exclusive Prospecting Licence (EPL) No. 8778 on the 24th of February 2022. However, the approval and granting of the EPL is subjected to an Environmental Clearance Certificate, thus the “pending ECC” status on the mining cadaster portal here <https://portals.landfolio.com/namibia/>. The 2 869. 8107 hectares (ha) EPL is located within the Aussenkjer Farm No.147 in the Karas Region (**Figure 1**). The Proponent is interested in Industrial Minerals, Precious Metals, Precious Stones and Semi-Precious Stones.

Exploration and all mining-related activities are among the listed activities that may not be undertaken without an Environmental Clearance Certificate (ECC) under the Environmental Management Act (EMA) (2007) and its 2012 Environmental Impact Assessment (EIA) Regulations. The relevant listed activities as per EIA regulations are as follows:

-3.1 The construction of facilities for any process or activities which requires a license, right of other forms of authorization, and the renewal of a license, right or other form of authorization, in terms of the Minerals (Prospecting and Mining Act, 1992).

-3.2 other forms of mining or extraction of any natural resources whether regulated by law or not.

-3.3 Resource extraction, manipulation, conservation and related activities.

The Proponent is, therefore, required to obtain an ECC for the approval of the EPL and before the commencement of works on the EPL. To fulfill the legal requirements, the Proponent has appointed Excel Dynamic Solutions (Pty) Ltd, an independent team of Environmental Consultants / Assessment Practitioners (EAP), to conduct the required Environmental Scoping Assessment (ESA) process and submit the ECC application to the Department of Environmental Affairs and Forestry (DEAF) at the Ministry of Environment, Forestry & Tourism (MEFT).

2 PURPOSE OF THIS DOCUMENT

This Background Information Document (BID) is a non-technical document of the ESA and not an ESA Report. The BID is aimed at:

-Introducing the proposed project and related activities to potential interested and affected parties (I&APs) and stakeholders, and afford them an opportunity to raise issues, concerns / submit comments about the proposed project.

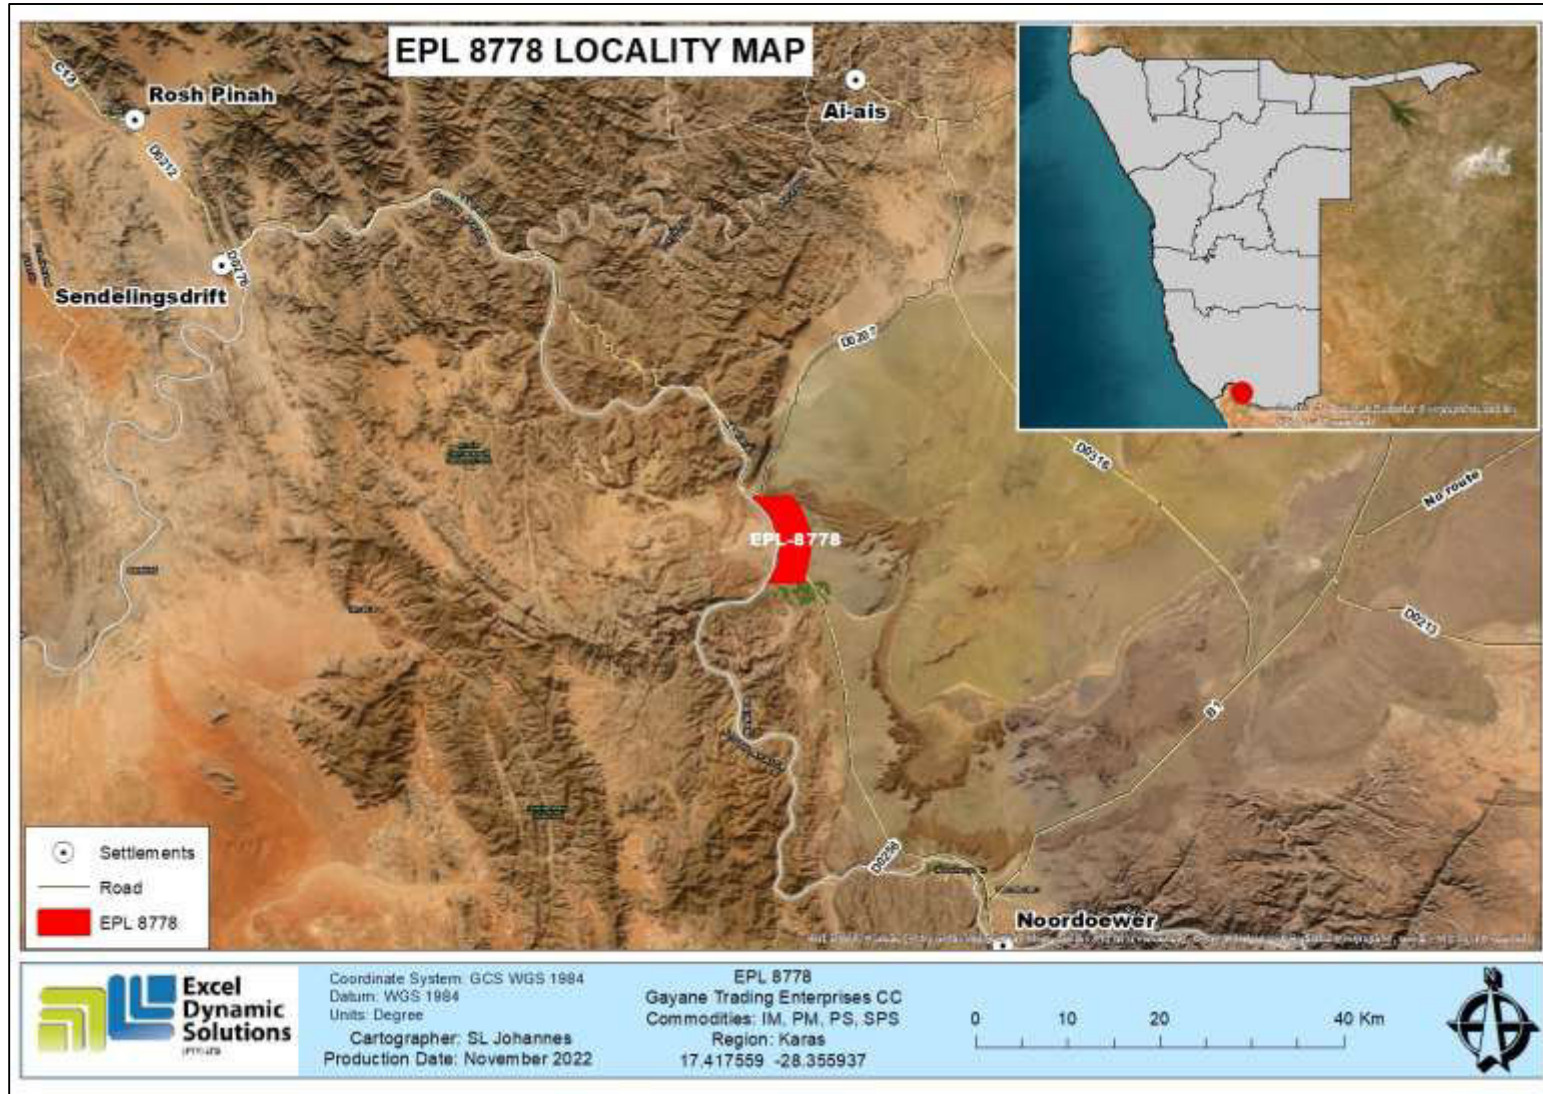

Figure 1: The locality map of EPL - 8778 located within the Aussenkjer No. 147, Karas Region

3 PROJECT DESCRIPTION

Once the Proponent has been issued with the ECC and obtained all required permits such as land use consents, where necessary and is ready to commence the exploration activities, the planned activities will commence.

The proposed activities entail prospecting and detailed exploration activities to delineate the mineral deposits. This is to determine whether the deposit for the targeted commodities is economically feasible (to advance to the resources development and mining phase).

The prospecting and exploration of minerals are the first components of any potential mining project. This is done to acquire the necessary data required for further decision-making and investment options.

Exploration activities are anticipated to last for about three years or sometimes longer (depending on the various factors such as turnaround between exploration data analysis and availability of funds between project phases, etc.).

3.1 Project Activities

The proposed prospecting and exploration activities (methods) are divided into the following categories:

-Phase 1: Non-invasive techniques (prospecting) – mapping / surveys.

-Phase 2: Invasive techniques (detailed exploration) – soil sampling, trenching and exploration drilling.

Once the target areas have been selected and verified under the prospecting phase, detailed exploration works will follow.

3.2 Human Resources, Services and Infrastructure

The following services and infrastructure as provided below will be required for the project activities:

-Human resources and accommodation:
Around 5-10 people will be employed on-site during the exploration phase and will be accommodated in tented camps or accommodate in the nearby Aussenkjer Farmstead.

-Working Space (Administration and Control)

-Water supply: Water will be required for the project activities such as drilling, equipment cooling, washing, and drinking. However, the estimate volumes will be confirmed during and provided in the Report.

-Fuel Supply (machinery and equipment):
Diesel will be used for machinery and equipment and fuel generator.

-Accessibility (roads): The EPL is accessible via the C13 road.

-Waste management:

Sewage: Mobile chemical ablution facilities will be provided on-site. The wastewater will be transported offsite for treatment at a facility.

Solid waste: Sufficient waste bins (containers) will be made available at exploration sites and campsites for waste storage and later disposal at the nearest approved waste facility.

Hazardous waste: The waste fuel/oils will be carefully stored in a standardized container for disposal at an approved hazardous waste management facility in the nearest Town/Settlement.

-Health and Safety: Adequate and appropriate Personal Protective Equipment (PPE) will be provided to project personnel. A minimum of two first aid kits will be readily available onsite.

-Potential Accidental Fire Outbreaks: Fire extinguishers will be readily available in vehicles, at the sites and campsite.

-Project Equipment, Material, Machinery, and Vehicles: Among others two or three 4X4 vehicles, drilling supporting truck, excavator / front-end loader, dozer, air compressor, drilling fluids stored in manufacturers approved containers, generator for power supply, etc.

Upon completion of exploration works, the disturbed sites will be rehabilitated as practically possible. This will include backfilling of exploration trenches, boreholes, levelling of stockpiled topsoil and cleaning of site areas.

4 ENVIRONMENTAL ASSESSMENT

This ESA process is conducted in accordance with the provisions stated in the EMA No 7 of 2007 and its 2012 EIA Regulations.

The primary objective of the ESA is to identify potential negative impacts associated with the project and assess them. Practical and effective mitigation measures will be recommended for implementation.

The main objectives of this ESA are to:

-Identify potential impacts associated with the proposed Activity.

-Inform I&APs and relevant authorities about the project and provide them with an opportunity to participate during the ESA process.

-Assess the significance of issues and concerns raised.

-Compile a report addressing all identified issues and potential impacts.

-Compile a Draft Environmental Management Plan (EMP) which includes impacts management and mitigation measures.

4.1 Potential Impacts

The following potential impacts have been identified:

4.1.1 Positive:

-Socio-economic development: employment creation and skills transfer.

-Investment opportunities/infrastructure-related development benefits,

-Produce a trained workforce and small businesses in the area.

-Boosting the local economic and regional economic development.

-Increased support for local businesses through the procurement of locally available goods and services.

4.1.2 Adverse (Negative) Impacts:

-Disturbance of existing communal grazing areas,

- Physical land/soil disturbance and prone to erosion.
- Impact on fauna and flora (habitat disturbance and poaching).
- Water resources (over-abstraction of water) and soils pollution.
- Air quality issue owing to dust generation
- Occupational and community health and safety risks/hazards.
- Vehicular traffic safety and services infrastructure (local roads).
- Vibrations and noise associated with drilling activities.
- Environmental pollution from poor waste management,
- Archaeological or cultural heritage impact
- Potential social nuisance and land use conflicts.

Other potential impacts may be identified as the ESA process progresses. All impacts and public concerns/comments will be incorporated and addressed in the Environmental Report and EMP.

4.2 Public Consultation Registration

Public consultation is an important part of the EA process. During the consultation process, I&APs are given an opportunity to raise any issues or concerns pertaining to the project activities.

To comment or receive further information on the project, **please register with Excel**

Dynamic Solutions (Pty) Ltd (contact details herein) as an Interested and Affected Party (I&AP) **before or on Tuesday, 31 January 2023.**

Furthermore, the Consultation Meeting details will be communicated to registered I&APs.

For comments and or further information requests, please contact the EDS Consultant on the details provided below:

**NOTICE OF ENVIRONMENTAL
SCOPING ASSESSMENT (ESA) FOR:
THE PROPOSED EXPLORATION
ACTIVITIES ON THE EXCLUSIVE
PROSPECTING LICENCE (EPL) No.
8778 LOCATED NORTHWEST OF
NOORDOEWER, /KARAS REGION**
Under the Environmental Management Act
No. 7 of 2007 and its 2012 EIA Regulations,
the proposed prospecting and exploration
activities on EPL 8778 require an Environ-
mental Clearance Certificate (ECC)
from the Department of Environmental
Affairs and Forestry (DEAF) before com-
mencement.
The public is hereby notified that an ap-
plication for an ECC will be submitted to
the Environmental Commissioner.
Brief Project Description: The envi-
ronmental scoping process will identify
potential positive and negative impacts of
the proposed exploration activities on EPL
8778. The target commodities on the EPL
are Industrial Minerals, Precious Metals,
Precious Stones and Semi-Precious
Stones.

**ENVIRONMENTAL IMPACT
ASSESSMENT AND ENVIRONMENTAL
MANAGEMENT PLAN TO OBTAIN AN
ENVIRONMENTAL CLEARANCE FOR
THE OPERATIONS OF THE VARIOUS
TOURISM ESTABLISHMENTS AND
OTHER ACTIVITIES ON ONGUMA
NATURE RESERVE, OSHIKOTO REGION**
Green Earth Environmental Consultants
have been appointed to attend to and
complete an Environmental Impact
Assessment and Environmental
Management Plan (EMP) in order to obtain
an Environmental Clearance Certificate as
per the requirements of the Environmental
Management Act (No. 7 of 2007) and
the Environmental Impact Assessment
Regulations (GN 30 in GG 4878 of 6
February 2012) for the operations of the
various tourism establishments and other
activities on Onguma Nature Reserve,
located on the eastern border of the Etosha
National Park, Oshikoto Region.
Name of proponent: Onguma
Nature Reserve (Pty) Ltd
Project location and description: Onguma
Nature Reserve is located directly east of
the Etosha National Park, north of Road
C38 which link up with the B1 National
Road between Tsumeb and Ondangwa.
Onguma Nature Reserve consists of ±34
000 hectares of private wilderness. Currently
various tourism establishments and activities
operate from the Nature Reserve. The
tourism establishments include upmarket
lodging, camping facilities and tourism
activities like boma evenings, bush walks,
game drives, sundowner drives, massage
therapies, adventure sleep-outs and services
for weddings and others. Oshivello Farming,
also located on a portion of the Nature
Reserve, is part of their Sustainability
Program which produce agricultural products
under irrigation and provides jobs and
training to the community of Oshivello and
surroundings. A locality plan of the site
is available at the offices of Green Earth
Environmental Consultants at Bridgeview
Offices, No. 4 Dr. Kwame Nkruma Avenue,
Klein Windhoek.
Interested and affected parties are hereby
invited to register in terms of the assessment
process to give input, comments, and
opinions regarding the proposed project.
A public meeting will be held only if there
is enough public interest. Only I&APs that
registered will be notified of the possible
public meeting to be held.
The last date for comments and/or
registration is **30 November 2022**.

**NOTICE OF INTENTION TO
APPLY FOR THE
REZONING,
CONSOLIDATION AND
CONSENT**
Take note that Asinovative
Planning Consultants on behalf
of the owner of Remainder Erf
1528, Erven 1530 and 1532,
Rundu Extension 5, intends
to apply to the Rundu Town
Council and the Urban and
Regional Planning Board for the:

- rezoning of Remainder
Erf 1528, Rundu Extension
5 from “General
Residential”
to “Hospitality”,
- rezoning of Erf 1530,
Rundu
Extension 5 from
“Residential” to
“Hospitality”,
- consolidation of
Remainder Erf 1528 and
Erf 1530 Rundu Extension
5 with Erf 1532 Rundu
Extension 5 and
- consent to Commence with
the Proposed Development
/ Land Use (Hospitality) on
the newly consolidated erf
whilst rezoning is ongoing.

In accordance with the Rundu
Town Planning Scheme,
Remainder Erf 1528 Rundu
Extension 5 is zoned “General
Residential”, Erf 1530
Rundu Extension 5 is zoned
“Residential” and Erf 1532
Rundu Extension 5 is zoned
“Hospitality”. Should the
rezoning of Remainder Erf 1528
and Erf 1530 Rundu Extension
5 be approved, these erven will
be consolidated with Erf 1532
Rundu Extension 5 and this
envisaged consolidation would
increase the development
potential of the consolidated
erf. The tourism facilities and
activities already located on
Erf 1532 Rundu Extension
5 would be expanded thus
strengthening the owners’
position within the tourism
industry in Rundu and the
Kavango Region.
Please further take note that
(a) the plans of the erf or land
lie for inspection at the
Offices of Rundu Town
Council and
(b) any person having
objections to the rezoning,
consolidation and consent
concerned or who wants
to comment, may in writing
lodge such objections
and comments, together
with the grounds, with the
Chief Executive Officer,
Rundu Town Council,
and with the applicant
within 14 business days
of the last publication of
this notice, i.e. no later
than **05 December 2022**.

Appendix G: Public Consultation Meeting Minutes

06 February 2023

PUBLIC CONSULTATION MEETING MINUTES:

ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR THE PROPOSED PROSPECTING & EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENCE (EPL) No.8778 LOCATED WITHIN AUSSENKEHR, KARAS REGION.

Date: Monday, 06 February 2023

Time: 10:00 – 11:15

Venue: Aussenkehr Community Centre

The public consultation meeting was attended by 42 people, including 1 Environmental Consultant and an Archaeologist from Excel Dynamic Solutions (Pty) Ltd (EDS) - **Please refer to the attached attendance register.**

1. INTRODUCTION AND WELCOMING REMARKS

The meeting was opened by the environmental consultant with an introduction of the team, who they are, and the purpose as to why they are consulting affected parties of the proposed prospecting and exploration activities on EPL 8778. The meeting attendance register was then circulated for the attendees to write down their names, contact details and sign so that they can be added to the list of interested and affected parties (I&APs) and receive further information on the ESA process.

2. MEETING AGENDA AND PRESENTATION

The agenda of the meeting included the following main points:

2.1 Brief Description of the Project

Physical Address: 112, Robert Mugabe Avenue, Windhoek

Postal Address: P.O Box 997154 Maerua Mall, Windhoek

Telephone: +264 (0) 61 259 530

Fax2email: +264 (0) 886 560 836

Email: info@edsnamibia.com

Web: www.edsnamibia.com

The Environmental Scoping Assessment (ESA) and the reason that the Proponent appointed Excel Dynamic Solutions (Pty) Ltd (EDS), an independent Environmental Consultant to carry out the ESA and apply for the Environmental Clearance certificate (ECC).

2.2 Explanation of what an ESA is, its Process, and the Public Role in the Process

Mr. Silas David explained to the attendees what the meeting was all about and why they were invited (with reference to the Environmental Management Act (EMA) No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations on Public Consultation). Mr. David further explained what an ESA is and that the proposed exploration activities are one of the listed activities in the 2012 EIA Regulations of the EMA that cannot be undertaken without an ECC from the Environmental Commissioner.

2.3 Presentation of Potential Project Impacts

To ensure transparency and that the attendees understand both sides of the proposed project activities, the Environmental Consultants also presented the potential pre-identified potential positive & negative environmental and social impacts.

2.4 Public Open Discussion (Interactive Session)

Mr. David provided the meeting attendees the opportunity to raise their concerns/issues and/or comment on the proposed project activities. The issues and comments recorded are presented in **Table 1** below.

Table 1: Comments and issues raised during the public consultation meeting, 06th February 2023

Comment/ issue No.	Commenter name & issue / comment / question.	Response and name of responder:
1.	<p>Commenter 1: How long will the proposed project take?</p>	<p>Mr. Silas David (SD): An ECC is only valid for three (3) years, once it is obtained for the proposed project. Within that period, the Proponent should conduct prospecting and exploration activities.</p> <p>The Proponent will need to conduct an Environmental Audit by contracting an Environmental Consultant, to ensure that the proposed project operates as per the requirements outlined in the Environmental Management Plan.</p>
2.	<p>Commenter 2: What is the coverage of EPL 8778?</p> <p>Does this mean that the EPL also overlays the grape farming area?</p>	<p>Mr. SD: The EPL covers (overlies) Aussenkehr Farmstead.</p> <p>Mr. SD: Yes, with respect to that. Section 52 (1) of the Minerals (Prospecting and Mining) Act, 1992 (No. 33 of 1992) will apply to these aspects. Where the law</p>

Comment/ issue No.	Commenter name & issue / comment / question.	Response and name of responder:
		stipulates that the License holder is not allowed to exercise his/her mineral rights within 100 m of any roads, boreholes, water resources, or established facilities.
3.	Commenter 3: The Background Information Document (BID) states Industrial Minerals, Precious Metals, Precious Stones and Semi-Precious Stones are commodities of interest. Is the Proponent going to prospect and explore all the commodities?	Mr.SD: Those commodities are what the Proponent has applied under EPL 8778, however, the target commodity is Precious Stones.
4.	Commenter 4: It is very disappointing when companies promise employment but, they do not fulfill those promises. It will be good for the Proponent to invest in the community by providing training and not only hiring community members for general work. In terms of waste disposal, where will the waste be disposed? Since we do not have a waste dumpsite here in Aussenkehr.	Mr.SD: Noted. The waste will be disposed of at any identified waste dumpsite/ landfill through the approval of the settlement consent.
5.	Commenter 5: The Proponent must be here during the meeting so that we have the chance to meet him/her.	Mr.SD: I fully understand your position on this matter, however, the Proponent could not attend the meeting due to unforeseen circumstances.

Comment/ issue No.	Commenter name & issue / comment / question.	Response and name of responder:
6.	Commenter 6: Aussenkehr is mainly an agricultural farmstead where grape farming is the source of income and employment. It should be noted that the Proponent's proposed project does not in any manner affect the grape farming of Aussenkehr.	Mr.SD: Noted, with thanks. Please take note that we have acknowledged your comment and Section 52 (1) of the Minerals (Prospecting and Mining) Act, (No. 33 of 1992) shall apply as mentioned earlier.
7.	Commenter 7: Considering the legal battle that has occurred in the past because of such activity, will this not go in the same direction?	Mr.SD: Thank you, I am not aware of what happened in the past and I cannot comment on a such aspect in which I was not involved in. To answer your question I do not know.
8.	Commenter 8: Will the activities not pose any health risks such as diseases in the future?	Mr. SD: Taking into account the target commodity for exploration, I do not think so, with reference to NAMDEB in OOranjemund I have not heard of precious stones exploration posing health hazards.

3. FINAL REMARKS AND CONCLUSION OF THE MEETING

Mr. David thanked the attendees for their crucial input through comments and raising their concerns. He indicated to the attendees that all their comments, concerns, and inputs had been noted down for consideration and addressing in the Environmental Scoping Assessment (ESA) Report as well as incorporating their recommendations into the draft EMP.

Furthermore, Mr. David informed the attendees that the draft meeting minutes, Environmental Assessment Report, and Environmental Management Plan (EMP) will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register.

Once the review of the draft ESA Report and EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

The meeting adjourned at 11h15.

07 February 2023

2nd PUBLIC CONSULTATION MEETING MINUTES:

ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR THE PROPOSED PROSPECTING & EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENCE (EPL) No.8778 LOCATED WITHIN AUSSENKEHR, KARAS REGION.

Date: Tuesday, 07 February 2023

Time: 09:08 – 10:00

Venue: Aussenkehr Community Centre

The public consultation meeting was attended by 51 people, including an Environmental Consultant and an Archaeologist from Excel Dynamic Solutions (Pty) Ltd (EDS) - **Please refer to the attached attendance register.**

1. INTRODUCTION AND WELCOMING REMARKS

The meeting was opened by the environmental consultant with the introduction of the team, who they are, and the purpose as to why they are consulting affected parties of the proposed prospecting and exploration activities on EPL 8778. The meeting attendance register was then circulated for the attendees to write down their names, and contact details so that they can be added to the list of interested and affected parties (I&APs) and receive further information on the ESA process.

2. MEETING AGENDA AND PRESENTATION

The agenda of the meeting included the following main points:

2.1 Brief Description of the Project

The Environmental Scoping Assessment (ESA) and the reason that the Proponent appointed Excel Dynamic Solutions (Pty) Ltd (EDS), an independent Environmental Consultant to carry out the ESA and apply for the Environmental Clearance certificate (ECC).

2.2 Explanation of what an ESA is, its Process, and the Public Role in the Process

Mr. Silas David explained to the attendees what the meeting was all about and why they were invited (with reference to the Environmental Management Act (EMA) No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations on Public Consultation). Mr. David further explained what an ESA is and that the proposed exploration activities are one of the listed activities in the 2012 EIA Regulations of the EMA that cannot be undertaken without an ECC from the Environmental Commissioner.

2.3 Presentation of Potential Project Impacts

To ensure transparency and that the attendees understand both sides of the proposed project activities, the Environmental Consultants also presented the potential pre-identified potential positive & negative environmental and social impacts.

2.4 Public Open Discussion (Interactive Session)

Mr. David provided the meeting attendees with the opportunity to raise their concerns/issues and/ or comment on the proposed project activities. The issues and comments recorded are presented in **Table 1** below.

Table 1: Comments and issues raised during the public consultation meeting, 07th February 2023

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
1.	Commenter 1: Was the Owner of Aussenkehr contacted?	Mr. Silas David (SD): This is a conversation I had yesterday through email regarding your question which I believe some of you have been cc'd in by your attorney. Yes, they have been involved in the communication.
2.	Commenter 2: It is important to note that Aussenkehr has a lot of farms operating under it.	Mr. SD: Noted, unfortunately, the mining cadastre contains information on affected parties, and according to the information displayed on the Namibian Mining Cadaster Aussenkehr 147 is the only affected farmstead covered by the EPL. I do not know other farms that are operating under the Aussenkehr.

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
3.	Commenter 3: Grape Farming is the main source of income in the area and creates employment in Aussenkehr. The proposed project will have a negative impact on this.	Mr.SD: Noted.
4.	Commenter 4: Grape farming in the area depends on the orange river and the groundwater in the area. Deemed, the groundwater is contaminated by the proposed project activities. This project will have a huge impact not only on the economy of the country but also on the lives of the people who depend on grape farming.	Mr.SD: Noted.
5.	Commenter 5: The proposed project is not possible and we object to the proposed project.	Mr.SD: Noted.
6.	Commenter 6: As a consultant representing your client what factor will not allow this project to go forward?	Mr.SD: Kindly note as we are contracted by the Proponent, we are here to hear your concerns and comments so we incorporate them in the ESA and EMP. These documents will be shared with you all, for your review, once we are all satisfied to a certain extent. Those documents will be submitted to MME and MEFT for the

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
		ministries to make their own decision regarding this proposed project. Please note that Section 52 (1) of the Minerals (Prospecting and Mining) Act, 1992 (No. 33 of 1992) will apply to the proposed project.
7.	Commenter 7: How did you grant the EPL in Aussenkehr?	Mr.SD: Please note that I do not grant EPLs. However, the MME is the one that grants the aforementioned. Deemed, you would like to find out more information on this, MME is a public office, and everyone is allowed to consult their offices.
8.	Commenter 8: Please take into account that the 100 m as per the Minerals Act is not sufficient enough for grape farming. Any operation in the range of 100 m can still affect the production of grapes. Maybe the Proponent should look into about plus/minus 20 km away from grape farming.	Mr. SD: Noted.
9.	Commenter 9: The usage of groundwater for the proposed project in the area will affect the grapes.	Mr. SD: Noted.

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
10.	Commenter 10: We have people that have worked in the grapes industry for about 20- 30 years and the proposed project can affect farming and losses of jobs can be created at a high rate.	Mr.SD: Noted.

FINAL REMARKS AND CONCLUSION OF THE MEETING

Mr. David thanked the attendees for their crucial input through comments and raising their concerns. He indicated to the attendees that all their comments, concerns, and inputs had been noted down for consideration and addressing in the Environmental Scoping Assessment (ESA) Report as well as incorporating their recommendations into the draft EMP.

Furthermore, Mr. David informed the attendees that the draft meeting minutes, Environmental Assessment Report, and Environmental Management Plan (EMP) will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register.

Once the review of the draft ESA Report and EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

The meeting adjourned at 10h00.

Dear Mr Silas David

Environmental Scoping Assessment for the Proposed Exploration Activities on Exclusive Prospecting Licence EPL No. 8778 Located within Aussenkehr, Karas Region, Namibia

I am Ljubomir Vasiljevic a Member of Easyshop Supermarkets CC. Easyshop Supermarkets CC owns property on the area (EPL 8778).

Easyshop Supermarkets currently has a large Shopping Mall Complex on (EPL 8778) with a Spar Supermarket, Standard Bank branch, FNB branch, PEP stores, Dunns, Nampost, Telecom and a Furnmart Furniture store. We are also currently constructing a Shell Service Station.

We have plans to develop the Shopping Center Complex further in the coming years.

This proposed EPL 8778 will put our Shopping Center Complex and business in jeopardy.

We service the whole community in Aussenkehr and our Shopping Center Complex customers are the employees of the Grape Farms also within the EPL 8778. The grape farms employ up to 10 000 Namibians.

Any job losses at the grape farms will negatively affect our Shopping Center Complexes tenant sales.

This will lead to more job losses at our Shopping Mall as well as a financial loss to Easyshop Supermarket CC due to closing down of shops at the Shopping Center.

The Shopping Center currently employs over a 100 people and this number is growing.

Easyshop Supermarkets **HAS NOT CONSENTED AND DOES NOT CONSENT** to any exploration or prospecting on its property.

Please record and submit this message to the Ministry of Environment and Tourism.

Please respond to this message to let us know you have received it.

LJUBOMIR VASILJEVIC
