THE NAMIBIAN
Public Notice: ENVIRONMENTAL IMPACT ASSESSMENT
MUNICIPALITY OF WALVIS BAY

Proof of public consultation

Minutes and attendance register

PUBLIC CONSULTATION MEETING MINUTES:

ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR THE PROPOSED MINERAL EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENSE (EPL) NO. 7284 LOCATED NORTHWEST OF UIS WITHIN THE KHORIXAS & DAURES DISTRICT OF THE KUNENE & ERONGO REGION, NAMIBIA

Date: Thursday, 15 September 2022

Time: 12h30 – 14H30

Venue: Ani#Gab Community Hall

The public consultation meeting was attended by Twenty-eight (28) people, including: an Environmental Consultant, a GIS technician, an Archaeologist from Excel Dynamic Solutions (Pty) Ltd (EDS), representatives from Traditional Authority and Sorri Sorri Conservancy

1. INTRODUCTION AND WELCOMING REMARKS

The meeting was officially opened by Ms. Hanna Awaras (in Damara-Nama) with a prayer. She expressed gratitude to everyone in attendance for making time to attend the meeting.

Mr. Awaras handed the floor to Ms. Aili lipinge (the Environmental Assessment Practitioner (EAP) / Consultant) to introduce herself and her colleagues. Ms. lipinge expressed gratitude to everyone in attendance for making time to attend the meeting. She briefly explained to the attendees what the meeting was all about and why they were invited (with reference to the Environmental Management Act (EMA) No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations on Public Consultation).

Given the fact that some of the meeting attendees were elders and Damara-Nama and Afrikaans are the well-spoken language in the area, Ms. Awaras and Mr. Stephanus Johannes translated for the elders from English to Afrikaans and Damara -Nama respectively in order to ensure that effective communication is conducted throughout the meeting.

The meeting attendance register was then circulated for the attendees to write down their names and contact details and sign so that they could be added to the list of interested and affected parties (I&APs) and receive further information on the ESA process.

2 MEETING AGENDA AND PRESENTATION

The agenda of the meeting included the following:

2.1 Brief Description of the Project

Ms. Lipinge provided a short description of the planned project and its associated activities, the Environmental Scoping Assessment (ESA) process, and the reason why the proponent appointed EDS, as an independent environmental consultant to carry out the EIA and Environmental Clearance Certificate (ECC).

2.2 Presentation of Potential Project Impacts:

To ensure transparency and provide clarity to the attendees, the Environmental Consultants also presented the potential pre-identified positive, negative environmental, and social impacts.

2.3 Public Open Discussion (Interactive Session):

Ms. Lipinge provided the meeting attendees the opportunity to raise their concerns or issues and or comment on the proposed project activities. The issues and comments are presented in **Table 1** below.

Table 1: Comments and issues raised during the consultation meeting, 13 September 2022

Comment or issue No.	Commenter name and issue or comment or question	Response and name of responder:
1.	<p>Commenter XX: There is a need of water in the area, May the Proponent please notify the community members when to make use of the water boreholes?</p>	<p>Ms. Aili lipinge Noted. We will incorporate that in our ESA and concurrently in the EMP.</p>
2.	<p>Commenter XX: How do these people get an EPL on our farms /area without our knowledge or consent?</p>	<p>Ms. Aili lipinge: Applications for EPL / EPLs are done through the Ministry of Mines and Energy (MME). Once the proponent got pre-approval from MME for that application, the next step is to conduct an Environmental Scoping Assessment. In the Environmental Impact Assessment process, we are required to reach out to all Interested & Affected Parties (I&APs) covered by the EPL, for each one to get an opportunity to raise their concerns regarding the potential project.</p>
3.	<p>Commenter XX: There are a lot of unemployed youth in our area, can they please consider employing residents / local people before they consider anyone? We are looking forward to such opportunities.</p> <p>There are a lot of people who were working on the mine before, please they must consider them.</p> <p>Can the proponent use the existing service e.g. buying firewood from local people?</p>	<p>Ms. Aili lipinge: Noted with thanks.</p>

Comment or issue No.	Commenter name and issue or comment or question	Response and name of responder:
4.	Commenter XX: Can the proponent please inform the communities once they are granted an ECC, not only the traditional authority but everyone.	Ms. Aili lipinge: Noted
5.	Commenter XX: What is next after this public consultation, do you perhaps know when the proponents will start with exploration activities?	Ms. Aili lipinge: After the meeting, we will share the meeting minutes with all registered Interested and Affected Parties (I&AP) and then incorporate all comments and issues raised by I&AP (during the meeting or via email) into the draft ESA report and the Environmental Management Plan (EMP). These documents will be shared with all registered I&AP for review for two weeks, once the review of the drafts are complete, these documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC. Once an ECC is acquired, that's when the proponent can commence with exploration activities.
6.	Commenter XX: Will the whole area covered by the EPL be explored? Where is the area of interest /hotspot for exploration purposes?	Ms. Aili lipinge: The Proponent has applied for the whole area inside the EPL. Therefore, yes, they will explore within the EPL, although the specific works will be limited to the selected targeted site areas within the EPL only, and not necessarily every spot of the area within the EPL will be explored.

Comment or issue No.	Commenter name and issue or comment or question	Response and name of responder:
	<p>What will happen if the commodities of interest are found within my homestead or fence boundary?</p>	<p>For this, The minerals act 52 (1) stipulate that no exploration activities are allowed within 100 m of proclaimed road, house, gardens cattle post boreholes .Thus no exploration activities might occur/ be conducted within such structure.</p>
7.	<p>Commenter XX: Although this is the first public meeting we are having for this exploration project in our area, the project must go ahead but please it must benefit the communities.</p>	<p>Ms. Aili lipinge: Noted and thank you very much.</p>

FINAL REMARKS AND CONCLUSION OF THE MEETING

Ms. Lipinge thanked the attendees for their inputs. She indicated to them that all the comments and concerns have been noted down for consideration and will be addressed and incorporated into the draft ESA report and the Environmental Management Plan (EMP).

Furthermore, they were informed that the draft meeting minutes, the ESA report, and the EMP will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register. Once the review of the draft ESA report and the EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

The meeting was adjourned at 14h30.
