20 May 2023

Dear Mr. Mufeti,

## **ENVIRONMENTAL CLEARANCE – OTAVI CEMENT GROUP (PTY) LTD**

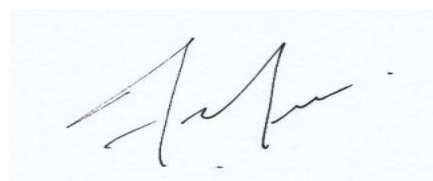

The application for Otavi Cement Group refers: -

Our consultant has been informed to conduct an arkeological and heritage survey on the proposed land. Our Scope of work is however limited to mapping and sampling to verify the already known deposit of shale and limestone. We are therefore seeking permission to conclude the process without the requirement to do any exploration such as drilling, trenching and bulk sampling.

We are merely seeking permission to legally conclude what we have already done in the past. We have the full knowledge of the geological structure and gained sufficient information to conclude our objective.

A heritage survey would therefore serve no purpose at this moment. I agree that it is crucial for the future during the application for a Mining License. We therefore humbly request the requirement for a heritage survey at this stage.

Yours faithfully

Andre Neethling  
Director and Ohorongo Founding member.

Cc Mr. Ruth at Ecowise  
Mr. George Nghifikwa  
Hon. George Garab MP

Directors: - Mr. George B Garab, Mr George Nghifikwa and Andre Neethling
