SCHEDULE

**BOUNDARY DESCRIPTION OF KAHENGE COMMUNITY FOREST:
 KAVANGO REGION**

Kahenge Community Forest is situated in the North-Western part of Kavango Region. The area lies within Mpungu Constituency and belongs to the Kwangali Traditional Authority. The boundary of Kahenge Community Forest is defined by six corner points. Corner point A is situated closely to Kaukuwa village which is commonly known as “winnie”. It is defined as the T-junction of gravel road C45 (linking Rundu with Okongo) and gravel road D3406 leading from Kaukuwa village in a north-easterly direction towards Nkurenkuru. The boundary line follows road D3406 for about 17km towards point B. Point B marks the beginning of a ‘settlement buffer zone’ encircling the town of Nkurenkuru. Here, the boundary line sharply turns off the gravel road D3406 and runs in a straight line parallel to the city limits of Nkurenkuru for about 13.5km through uncleared forest vegetation in a south-easterly direction towards corner point C. At corner point C the boundary line leads onto a fire cutline running for about 2.5km at a right-angle in a north-easterly direction towards the asphalt road D3405 which links the village Rupare with Nkurenkuru. Corner point D is the point at which the fire cutline intersects with asphalt road D3405. From here the boundary line follows the asphalt road in the direction of Rundu for about 5.2km. Corner point E is defined as a big marked Manketti tree at the village of Nambi. From here it is 111km to Rundu. The boundary line turns off the asphalt road at Nambi and follows an old bush road for about 10.3km leading in a south-westerly direction towards the village Nsivi. Corner point F is close to Nsivi village. It marks the point where the bush road coming from Nambi joins the gravel road C45. The intersection of both roads lies in a long-stretched curve. The boundary line follows the gravel road C45 in a westerly direction up to point A.
