

## Erratum to: A new species and a revised record in Namibian *Barleria* (Acanthaceae)

Iain Darbyshire<sup>1</sup>, Erin A. Tripp<sup>2,3</sup> & Kyle G. Dexter<sup>4</sup>

**Summary.** Due to a production error, an out-of-date (uncorrected) pdf of this paper was uploaded onto Springerlink, and used for the print version of *Kew Bulletin* 67 (4): 759 – 766 ([10.1007/s12225-012-9393-1](https://doi.org/10.1007/s12225-012-9393-1)). Consequently the authority abbreviation for the second author was incorrect. The new species name is published again below with the correct authority.

***Barleria grootbergensis*** I. Darbysh. & E. Tripp **sp. nov.** resembling *B. lancifolia* T. Anderson but differing in the more congested, spiciform yellow-green inflorescences with the calyces largely hidden within the suberect bracts during anthesis; the longer bracteoles and the longer glandular inflorescence indumentum that is more dense on the bracts. Type: Namibia, W of Grootberg Pass, Tripp & Dexter 828 (holotype RSA!; isotypes K!, NY!, WIND!).
