

maximising wildlife returns by minimising threats...

Performance Indicators

Management performance in 2019

Category	Performance
1 Adequate staffing	Good
2 Adequate expenditure	Good
3 Audit attendance	Good
4 NR management plan	Good
5 Zonation	Good
6 Leadership	Good
7 Display of material	Good
8 Event Book modules	Good
9 Event Book quality	Good
10 Compliance	Good
11 Game census	Good
12 Reporting & adaptive management	Good
13 Law enforcement	Good
14 Human Wildlife Conflict	Good
15 Harvesting management	Good
16 Sources of NR income	Good
17 Benefits produced	Good
18 Resource trends	Weak/Bad
19 Resource targets	Weak/Bad

Key to performance indicators

Performance is assessed on a scoring system from zero (none) to a maximum of between 3 and 6 (strong/excellent) depending on the indicator.

Indicators 1-17 reflect the performance of the management team in place in the conservancy and an efficient team can achieve a good rating in all 17 indicators.

Indicators 18 & 19 are influenced by external factors and are not considered a reflection of conservancy management. They indicate the current status of wildlife in the conservancy in relation to a theoretical optimal situation.

Human wildlife conflict

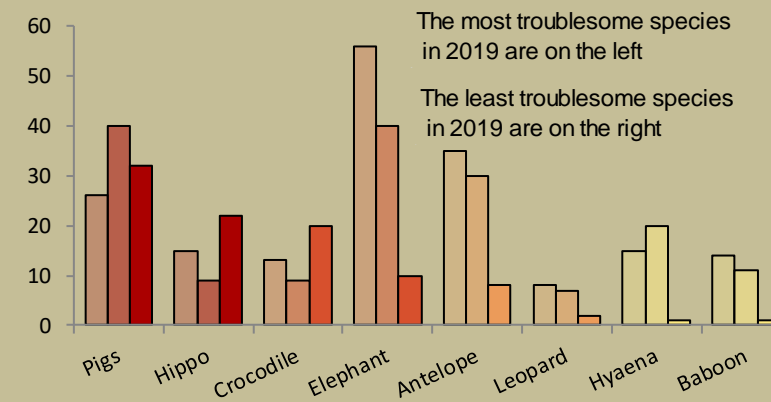

Human wildlife conflict trend

the chart shows the total number of incidents each year, subdivided by species, grouped as herbivores and predators

Most troublesome problem animals 2017-2019

the chart shows the number of incidents per species for the last 3 years; the darkest bar (on the right) indicates the current year for each species

Type of damage by problem animals 2017-2019

the chart shows the number of incidents per category for the last 3 years; the darkest bar (on the right) indicates the current year for each type

Poaching

Number of incidents per year

Commercial poaching is a serious threat to conservancy benefits. The chart shows the number of incidents per category

Traps and firearms recovered

number of incidents per category

Arrests and convictions

number of incidents per category

Wildlife removals – quota use and value

Potential value estimates (N\$) for species are based on:

• **Potential trophy value** - the average trophy value for that species in the conservancy landscape

trophy values vary depending on trophy quality, international recognition of the hunting operator and the hunting area

• **Potential other use value** - the average meat value for common species

or

the average live sale value of each high value species (indicated with an *). High value species are never used for meat

Fractions of animals indicate that a quota of 1 animal was awarded with conditions i.e. a) over a period of several years and/or b) is shared with other conservancies

Species	Quota 2019			Animals actually used in 2019						Potential Trophy Value N\$	Potential Other use Value N\$
	Total	Trophy	Other Use	Trophy	Own Use & Premium	Shoot & Sell	Capture & Sale	Problem Animal	Total Use		
Bushpig	1	1		1					1	3,100	
Crocodile	2	1	1	1					1	29,300	
Duiker	7	2	5		5				5	1,900	168
Eland*	1	1		1					1	12,700	
Elephant*	5	3	2	1	1				3	220,800	180,000
Hippo	6	3	3	2	1				5	35,500	6,600
Impala	5	1	4	1	3				4	2,700	816
Kudu*	6	3	3	1	2				3	5,900	38,958
Lechwe	6	6		5					5	20,900	
Reedbuck	3	3		3					3	7,700	
Roan*	1	1								61,700	
Sable*	0.33	0								61,900	
Warthog	5		5		1				1		480

Effective monitoring is key to understanding the status of wildlife in the conservancy and for the effective management of these resources.

Conservancies reduce environmental costs while increasing environmental returns. Returns from wildlife can far outweigh human wildlife conflict costs.

monitoring numbers and trends for a healthy conservancy...

Current wildlife numbers and status

Species	Animals Seen	Estimate	Wildlife Status		
			Count Trend	Landscape Status	Desired Number
B. Zebra			Dark Orange	Yellow	
Buffalo			Dark Orange	Yellow	
Duiker	9	284	Yellow	Yellow	
Elephant	20		Yellow	Light Green	
Giraffe			Dark Orange	Dark Orange	
Impala	2		Dark Orange	Yellow	
Kudu	7	55	Yellow	Yellow	
Roan			Dark Orange	Light Orange	
Sable			Dark Orange	Light Orange	
Steenbok	1	18	Dark Orange	Yellow	

Desired Number – gives the species status in the conservancy based on what the conservancy would like to have.

dark green (abundant) – reduce a lot;
light green (common) – reduce a little;
yellow (uncommon) – keep numbers the same;
light orange (rare) – double numbers;
dark orange (very rare) – more than double numbers.

Wildlife status summary in 2019

Key to wildlife status

Flags

Fixed route patrols

charts show the number of sightings of each species per fixed route foot patrol each year. Status flags reflect the general sightings trend over the last 5 years

Wildlife introductions

Wildlife mortalities

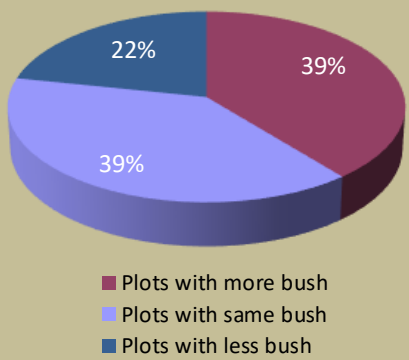

Locally rare species

Locally rare and endangered species are not found very often in the conservancy and need special conservation attention.

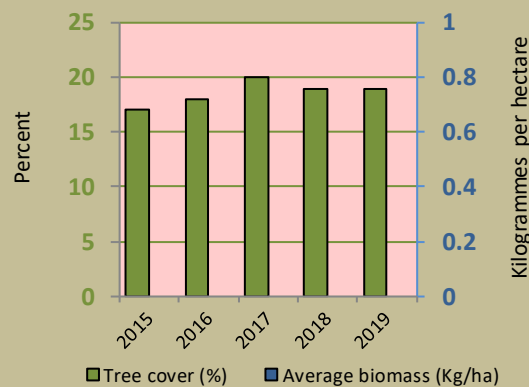

Vegetation monitoring

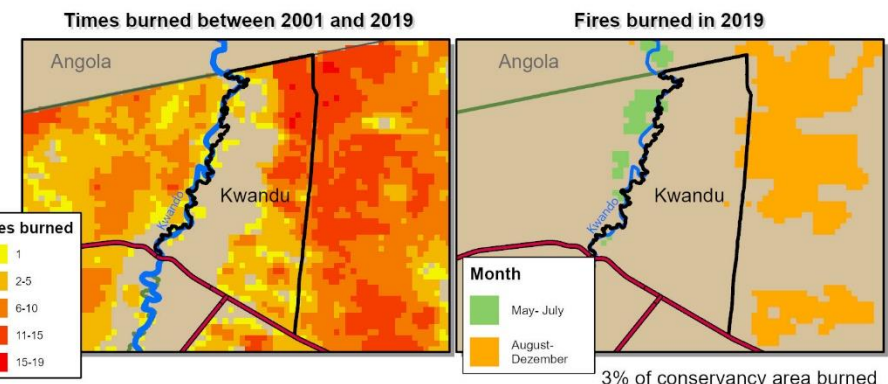

Change in bush cover since monitoring began

Percent tree cover / average biomass per hectare

Fire monitoring

Predator monitoring

charts show the average number of animals seen per Event Book each year. Status flags reflect the general sightings trend over the last 5 years

Wildlife provides a wide range of benefits. Some wildlife can cause conflicts, but all wildlife is of value to tourism, trophy hunting and a healthy environment.

By using all the available information and adapting and improving activities, threats such as human wildlife conflict, poaching and other issues can be minimised.

Enabling wise conservancy governance...

Conservancy Statistics

Date Registered:	December 1999
Population (2011 census):	3520
Size (square kilometres):	190
Registered members:	1761

Key Compliance Requirements

Was an AGM held?	×
Election requirement not specified	
Were benefits distributed according to the BDP?	×
Is game managed according to the GMUP?	×
Was the financial report presented and approved?	×

Conservancy Governance

	Male	Female	Total
Number of management committee members	8	5	13

Attendance at AGM

Date of the last AGM:

Date of the next AGM:

Other important issues

Budget approved?

Work plan approved?

Annual conservancy report approved?

Benefit Distribution

Type	Description	Beneficiary	Number
Cash Benefits	Cash To Patrons And Trustees	People	9
Social Benefits	For Poverty Eradication/alleviation	People	1761
	Stationary For Schools	Students	17

Employment

	Male	Female	Total
Conservancy staff (Incl. CGG & CRM)	12	9	21
Number of Community Game Guards	9	5	14
Number of Community Resource Monitors			

Governance Performance Rating How well did the conservancy perform in the past year?

Performance Category	This Year	Prev. Year	Explanation of performance category
1 Member engagement			The conservancy is adequately engaging its members
2a Benefit planning			The conservancy developed its BDP in a transparent and participatory manner
2b Benefit distribution			The conservancy distributes benefits to its members in a fair, transparent and equitable manner
3 Accountability			Conservancy members are holding the management committee accountable
4 Compliance			The conservancy is compliant with the standard operating procedures (SOPs)
5 Stakeholder engagement			The conservancy maintains relationships with key external stakeholders
6 Financial management			The conservancy is effectively managing its finances
