

maximising wildlife returns by minimising threats...

Performance Indicators

Management performance in 2019

Category	Performance
1 Adequate staffing	Good
2 Adequate expenditure	Good
3 Audit attendance	Good
4 NR management plan	Good
5 Zonation	Good
6 Leadership	Good
7 Display of material	Good
8 Event Book modules	Good
9 Event Book quality	Good
10 Compliance	Good
11 Game census	Good
12 Reporting & adaptive management	Good
13 Law enforcement	Good
14 Human Wildlife Conflict	Good
15 Harvesting management	Good
16 Sources of NR income	Good
17 Benefits produced	Good
18 Resource trends	Good
19 Resource targets	Good

Key to performance indicators

Performance is assessed on a scoring system from zero (none) to a maximum of between 3 and 6 (strong/excellent) depending on the indicator.

Indicators 1-17 reflect the performance of the management team in place in the conservancy and an efficient team can achieve a good rating in all 17 indicators.

Indicators 18 & 19 are influenced by external factors and are not considered a reflection of conservancy management. They indicate the current status of wildlife in the conservancy in relation to a theoretical optimal situation.

Human wildlife conflict

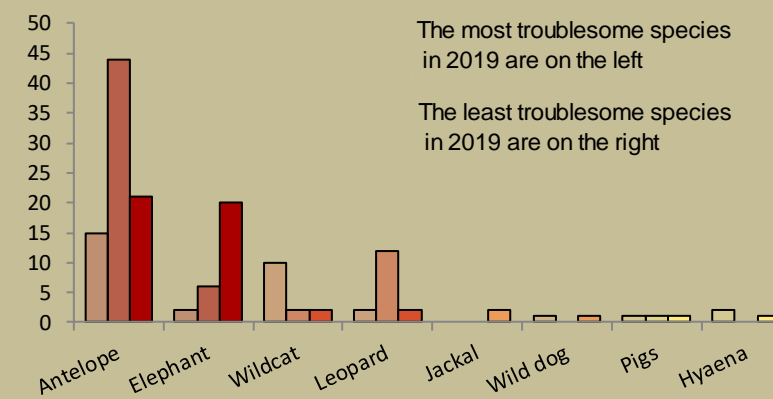

Human wildlife conflict trend

the chart shows the total number of incidents each year, subdivided by species, grouped as herbivores and predators

Most troublesome problem animals 2017-2019

the chart shows the number of incidents per species for the last 3 years; the darkest bar (on the right) indicates the current year for each species

Type of damage by problem animals 2017-2019

the chart shows the number of incidents per category for the last 3 years; the darkest bar (on the right) indicates the current year for each type

Poaching

Number of incidents per year

Commercial poaching is a serious threat to conservancy benefits. The chart shows the number of incidents per category

Traps and firearms recovered

number of incidents per category

Arrests and convictions

number of incidents per category

Wildlife removals – quota use and value

Potential value estimates (N\$) for species are based on:

• **Potential trophy value** - the average trophy value for that species in the conservancy landscape

trophy values vary depending on trophy quality, international recognition of the hunting operator and the hunting area

• **Potential other use value** - the average meat value for common species

or

the average live sale value of each high value species (indicated with an *). High value species are never used for meat

Fractions of animals indicate that a quota of 1 animal was awarded with conditions i.e. a) over a period of several years and/or b) is shared with other conservancies

Species	Quota 2019			Animals actually used in 2019						Potential Trophy Value N\$	Potential Other use Value N\$
	Total	Trophy	Other Use	Trophy	Own Use & Premium	Shoot & Sell	Capture & Sale	Problem Animal	Total Use		
Caracal	1	1		1					1	2,700	
Duiker	2	1	1	1					1	2,300	168
Eland*	1	1								12,700	
Elephant*	3	1	2	1	1				2	258,600	180,000
Gemsbok	5	2	3		2				2	3,700	2,592
Giraffe	1		1						1		13,440
Hyaena	1	1								4,700	
Impala	2	1	1	1	1				2	1,500	816
Kudu*	5	1	4	1	2				4	9,500	51,944
Leopard	0.167	0.167								40,600	
Roan*	1	1		1					1	75,300	
Warthog	2	1	1	1					1	2,300	480

Effective monitoring is key to understanding the status of wildlife in the conservancy and for the effective management of these resources.

Conservancies reduce environmental costs while increasing environmental returns. Returns from wildlife can far outweigh human wildlife conflict costs.

monitoring numbers and trends for a healthy conservancy...

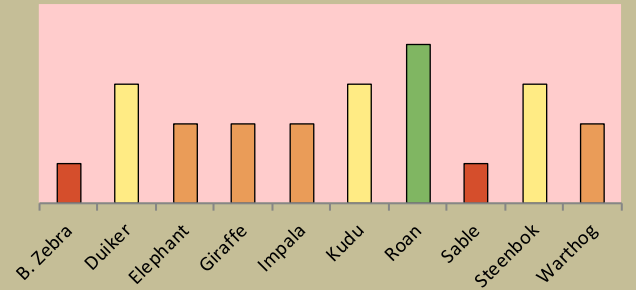

Current wildlife numbers and status

Species	Animals Seen	Estimate	Wildlife Status		
			Count Trend	Landscape Status	Desired Number
B. Zebra					
Duiker	27				
Elephant					
Giraffe	3				
Impala	6				
Kudu	23	129			
Roan	74	495			
Sable					
Steenbok	10	145			
Warthog					

Desired Number – gives the species status in the conservancy based on what the conservancy would like to have.

dark green (abundant) – reduce a lot;
light green (common) – reduce a little;
yellow (uncommon) – keep numbers the same;
light orange (rare) – double numbers;
dark orange (very rare) – more than double numbers.

Wildlife status summary in 2019

Key to wildlife status

Annual Game Count

Charts show the number of animals seen each year per 100 km of transect. Status flags reflect the general sightings trend over the last 5 years.

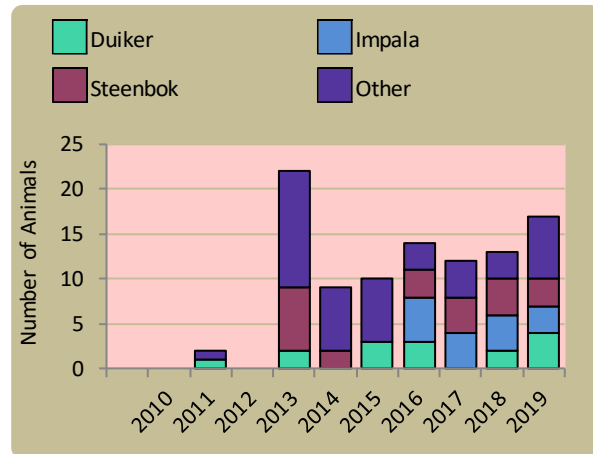

Flags decreasing No change Increasing
 No change, rarely recorded

Wildlife introductions

Wildlife mortalities

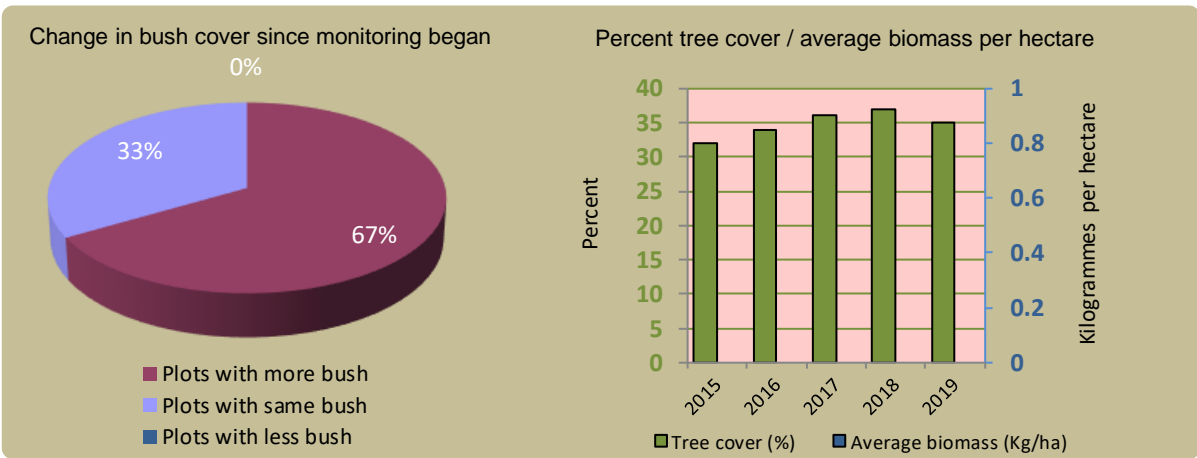

Locally rare species

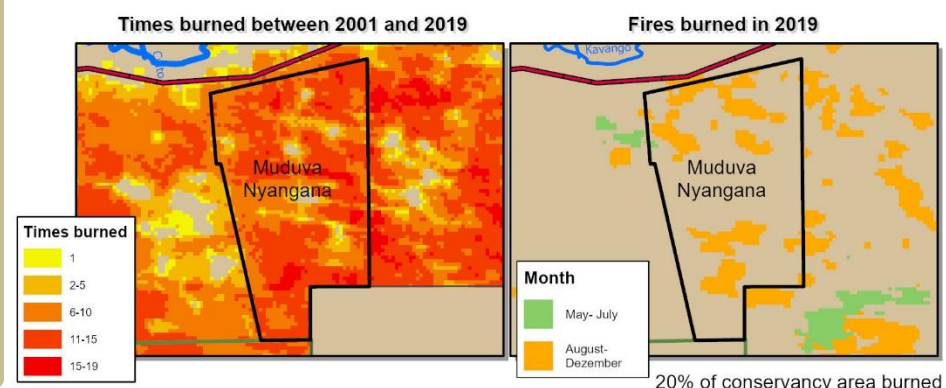

Locally rare and endangered species are not found very often in the conservancy and need special conservation attention.

Vegetation monitoring

Fire monitoring

Predator monitoring

charts show the average number of animals seen per Event Book each year. Status flags reflect the general sightings trend over the last 5 years.

Wildlife provides a wide range of benefits. Some wildlife can cause conflicts, but all wildlife is of value to tourism, trophy hunting and a healthy environment.

By using all the available information and adapting and improving activities, threats such as human wildlife conflict, poaching and other issues can be minimised.

Enabling wise conservancy governance...

Conservancy Statistics

Date Registered:	September 2005
Population (2011 census):	1730
Size (square kilometres):	615
Registered members:	575

Key Compliance Requirements

Was an AGM held?	✓
Were elections held?	N/A
Were benefits distributed according to the BDP?	✓
Is game managed according to the GMUP?	✓
Was the financial report presented and approved?	✓

Conservancy Governance

	Male	Female	Total
Number of management committee members	9	0	9
Attendance at AGM	116	105	221
Date of the last AGM:	14/11/2019		
Date of the next AGM:	11/2020		
Other important issues			
Budget approved?	✓		
Work plan approved?	✓		
Annual conservancy report approved?			

Benefit Distribution

Type	Description	Beneficiary	Number
Social Benefits	Casual Work		
	Contribute To Tertiary Education	Students	2
	Funeral Scheme	Households	5
	Soccer Tournament		
Meat Distribution	Support To School	Schools	1
	Meat For School Event	Schools	1
	Meat To Community Hostel	Schools	1
Other Benefits	Meat To Members	Villages	8
	Top Up To Hwc Offset	People	23

Employment

	Male	Female	Total
Conservancy staff (Incl. CGG & CRM)	8	4	12
Number of Community Game Guards	7	2	9
Number of Community Resource Monitors			
Lodge staff	2		2

Governance Performance Rating How well did the conservancy perform in the past year?

Performance Category	This Year	Prev. Year	Explanation of performance category
1 Member engagement	Exceptional		The conservancy is adequately engaging its members
2a Benefit planning	Weak		The conservancy developed its BDP in a transparent and participatory manner
2b Benefit distribution	Exceptional		The conservancy distributes benefits to its members in a fair, transparent and equitable manner
3 Accountability	Moderate		Conservancy members are holding the management committee accountable
4 Compliance	Exceptional		The conservancy is compliant with the standard operating procedures (SOPs)
5 Stakeholder engagement	Exceptional		The conservancy maintains relationships with key external stakeholders
6 Financial management	Exceptional		The conservancy is effectively managing its finances
