Two men were arrested yesterday around 09:00 in the Dordabis area after they allegedly poached two black rhinos, a cow and a calf, on a farm. The suspects had a hunting rifle in their possession, as well as 15 bullets, of which three had already been used. Two rhino horns were also found. The rhinos are valued at around N\$500 000 each. The men were charged with various offences, including hunting protected wildlife and being in possession of unlicensed weapons. Police investigations continue.
