Two men were arrested yesterday around 09:00 in the Dordabis area after they apparently shot dead two black rhinos, a cow and a calf, on a farm. The suspects had a hunting rifle in their possession, as well as 15 bullets, three of which had already been used. Two rhinoceros horns were also found. The value of the rhinos is around N\$500,000 per rhino. The men were charged with various offences, including hunting protected wildlife and being in possession of unlicensed weapons. The police investigation continues.
