11 April 2023

Two carcasses of rhinos were found in the Etosha National Park last Monday and Wednesday.

Commander of the Etosha National Park's anti-poaching unit commissioner Naftal Sakaria confirmed. Sakaria told The Namibian that four suspects linked to both incidents have been arrested.

"They were found in possession of rhino horns and guns," he said. However, ministry of environment, forestry and tourism spokesperson Romeo Muyunda said he was not aware of any poaching incident at Etosha.
