Ozonahi Natural Resource Report

A1

maximising wildlife returns by minimising threats...

Wildlife removals - quota use and value

Potential value estimates (N\$) for		Quota 2019		Animals actually used in 2019				Potential	Potential			
species are based on:Potential trophy value - the average	Species	Total	Trophy	Other Use	Trophy	Own Use	Shoot & Sell	Capture & Sale	Problem Animal	Total Use	Trophy Value N\$	Other use Value N\$
trophy value for that species in the conservancy landscape						Premium						
trophy values vary depending on trophy quality, international recognition of the hunting operator and the hunting area												
Potential other use value - the average meat value for common species												
Or												
the average live sale value of each high value species (indicated with an *). High value species are never used for meat												
Fractions of animals indicate that a quota of 1 animal was awarded with conditions i.e.												
a) over a period of several years and/or												
b) is shared with other conservancies												

monitoring numbers and trends for a healthy conservancy...

Current wildlife numbers and status

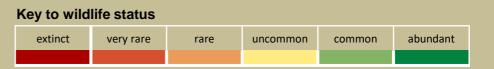

Desired Number – gives the species status in the conservancy based on what the conservancy would like to have.

dark green (abundant) - reduce a lot; light green (common) - reduce a little; yellow (uncommon) - keep numbers the same;

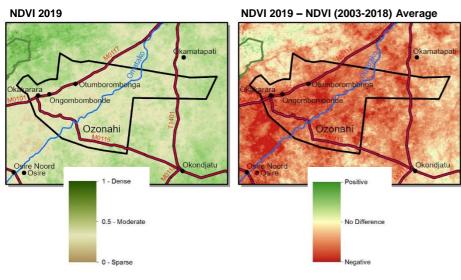

light orange (rare) – double numbers;

dark orange (very rare) - more than double numbers.

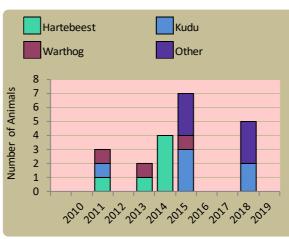

Vegetation monitoring

Green vegetation index (NDVI). Maps show vegetation cover during Feb-Apr of the current year and the difference between the current year and the long-term average (2003-2018)

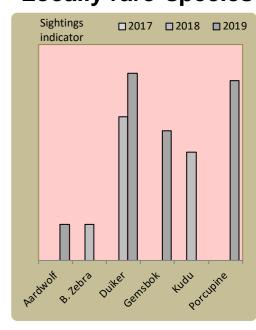

Wildlife mortalities

Locally rare species

Wildlife status summary in 2019

Locally rare species are not found very often in the conservancy and need special conservation attention.

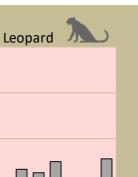

Increasing

No change

No change,

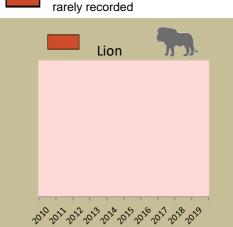

Annual game count - not undertaken in the east

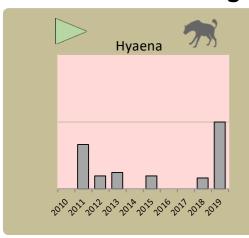

charts show the average number of animals seen per Event Book each year status barometers reflect the general sightings trend over the last 5 years

Flags

decreasing

Enabling wise conservancy governance...

Conservancy Statistics

Date Registered: September 2005

Population (2011 census): 10780

Size (square kilometres): 3204

Registered members: 2500

Key Compliance Requirements

Was an AGM held?	×
Were elections held?	×
Were benefits distributed according to the BDP?	V
Is game managed according to the GMUP?	×
Was the financial report presented and approved?	×

Conservancy Governance

	Male	Female	Total
Number of management committee members	6	3	9
	O	J	9
Attendance at AGM Date of the last AGM:			
Date of the next AGM:			
Other important issues			
Budget approved?			
Work plan approved?			
Annual conservancy report approved?			

Benefit Distribution

Туре	Description	Beneficiary	Number

Employment

	Male	Female	Total
Conservancy staff (Incl. CGG & CRM)	11		11
Number of Community Game Guards	10		10
Number of Community Resource Monitors			

Governance Performance Rating How well did the conservancy perform in the past year?

Performance Category				Prev. Year	Explanation of performance category					
1 Member engagement					The conservance	The conservancy is adequately engaging its members				
2a Benefit planning					The conservancy developed its BDP in a transparent and participatory manner					
2b Benefit distribution					The conservancy distributes benefits to its members in a fair, transparent and equitable manne					
3 Accountability Conservancy members are holding the					the management committe	nanagement committee accountable				
4 Compliance					The conservancy is compliant with the standard operating proceedures (SOPs)					
5 Stakeholder engagement					The conservancy maintains relationships with key external stakeholders					
6 Financial management					The conservancy is effectively managing its finances
