

REPUBLIC OF NAMIBIA

1994/95 Namibia Agricultural Census

The 1994/95 Namibia Agricultural Census was conducted in 1995 and covered both the commercial and communal sectors of the economy within the 13 administrative regions of the country.

It is indeed a pleasure to present this publication of the 1994/95 Namibia Agricultural Census. This document presents the basic tables from the census data as originally requested by our main users specifically, the Directorate of Planning of the Ministry of Agriculture, Water and Rural Development.

Efforts have been made to present these tables in as simple form as possible with the hope that it will assist potential users, planners, policy analysts and researchers to obtain a clear picture of the structural characteristics of commercial agriculture in Namibia.

The Central Statistics Office and the Department of Planning of the Ministry of Agriculture, Water and Rural Development are responsible for the census publications.

The preparation of these reports was supported by technical assistance from the Danish Overseas Development Administration (O.D.A.) under the executing agency of Food and Agriculture International Limited (F.A.I.).

The 1994/95 Namibia Agricultural Census has been supported by two major donors through bilateral arrangements. On behalf of the Namibia Government, I seize this opportunity to thank the Government of Sweden and the British Government for their valuable technical and financial support towards this undertaking. I wish to acknowledge the financial and material support provided by our Government.

I would also like to express my sincere appreciation to all those who have contributed to the success of this operation, and in particular to the farming community, the Central Statistics Office and the Directorate of Planning.
