**PUBLIC CONSULTATION MEETING MINUTES:**

**ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR THE PROPOSED MINERAL EXPLORATION  
ACTIVITIES ON EXCLUSIVE PROSPECTING LICENSE (EPLS) NO. 9551 AND 9552 LOCATED IN  
OMAHEKE REGION, NAMIBIA**

**Date:** 24 June 2024

**Venue:** Talismanes village council 12:00 – 13:00

Two environmental consultants from Excel Dynamic Solutions (Pty) Ltd and one representative from Noronex headed the meeting. *Please refer to the attached attendance register.*

**1. INTRODUCTION AND WELCOMING REMARKS**

The meeting was officially opened by Mr. Stefanus Johannes, who briefly explained to the attendees what the meeting was all about and why they were invited (with reference to the Environmental Management Act (EMA) No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations on Public Consultation).

The meeting attendance register was then circulated for the attendees to write down their names and contact details and sign so that they could be added to the list of interested and affected parties (I&APs) and receive further information on the ESA process.

**2. MEETING AGENDA AND PRESENTATION**

The agenda of the meeting included the following:

**2.1. Brief Description of the Project**

Mr. Johannes provided a short description of the planned project and its associated activities, the Environmental Impact Assessment (EIA) process, and the reason why the proponent appointed EDS, as an independent environmental consultant to carry out the EIA and Environmental Clearance Certificate (ECC) application.

## 2.2. Presentation of Potential Project Impacts:

To ensure transparency and provide clarity to the attendees, the Environmental Consultants also presented the potential pre-identified positive, negative environmental, and social impacts.

## 2.3. Public Open Discussion (Interactive Session):

Mr. Johannes provided the meeting attendees the opportunity to raise their concerns or issues and or comment on the proposed project activities. The issues and comments are presented in **Table 1** below.

**Table 1: Comments and issues raised during the consultation meeting**

Comment or issue No.	Commenter name and issue or comment or question	Response and name of responder:
1.	<p><b>Commenter 1:</b> Article 100 of the constitution says that water and land belongs to the state, I am emphasizing on this because there was a certain traditional authority that wanted to stop a similar project from happening clearly because they don't know their position in these matters and they think they have the final say on such developments.</p> <p>The only involvement we as the traditional authority have in this project as is to give land rights and perimeters of operation on our conserved areas such as graves historical areas etc.</p> <p>My point is just to clarify that no traditional authority has the power to stop any development project in their area of jurisdiction.</p>	<p><b>Mr. SJ:</b> That was well said, I believe, thank you.</p>
2.	<p><b>Commenter 2:</b> Most of the time our people don't really consider the positive outcomes of the projects, so we always emphasize to educate our people on any proposed development in our areas to make sure they fully understand the real intended meaning of the project.</p>	<p><b>Mr. SJ:</b> Thank you for that, as most of our people in the communal areas and rural areas lack the knowledge or capacity to understand proposed projects, and tend to stereotype misleading information about proposed projects.</p>

Comment or issue No.	Commenter name and issue or comment or question	Response and name of responder:
3.	<b>Commenter 3:</b> I just want to strongly advice the exploration company that to please consider the people and the community when doing cooperate social responsibility.	<b>Mr. Ivo Kahimise:</b> I will definitely forward and recommend this to the Noronex Board members.

### FINAL REMARKS AND CONCLUSION OF THE MEETING

Mr. Johannes thanked the attendees for their input. He indicated to them that all the comments and concerns have been noted down for consideration and will be addressed and incorporated into the draft ESA report and the Environmental Management Plan (EMP).

Furthermore, they were informed that the draft meeting minutes, the ESA report, and the EMP will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register. Once the review of the draft ESA report and the EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.
