Adopt a Pet

Open your heart to those in need. Give them a warm & loving home!

Andersen argued that if Parton is a Christian, as she proclaims, she should call out homosexuality as a sin. "Parton's version of love, which includes condoning immoral sexual behavior ('be who you are,' she's said), is unaligned with God's vision for humanity," Andersen wrote. But Andersen told Yahoo Entertainment on Saturday that the widespread backlash made her realize she shouldn't have used Parton to press her argument. "I regret using Dolly as the example for the point I was making in the article," she said. "As I wrote in the piece, I love her and think she does some incredible things for the world. We all make poor choices in how to frame things sometimes. This was one of those moments for

me! Dolly is one of the few people who is beloved by all and who loves all. The world is lucky to have her."

What has Dolly Parton said about her faith?

Parton tends to speak generally about her faith and love of God. In her 2020 book *Dolly Parton, Songteller: My Life in Lyrics*, she said, "I'm not that religious, but I'm very, very spiritual. I grew up in very religious surroundings. I grew up with a Bible background, and I'm glad I did." In a 2023 interview with *The Guardian*, Parton said, "I ain't that good a Christian to think that I am so

good that I can judge people. That's God's job, not mine. So as far as politics, I hate politics."

What Dolly Parton's fans are saying now

Fans on X, formerly Twitter, were anything but happy to see the *Federalist* coming for Parton. (A different writer for the *Federalist* declared in 2016 that the "Islands in the Stream" crooner would make an excellent president.) "They came for Dolly. We ride at dawn," one fan wrote alongside a screenshot of the article. "Folks, a land war in Asia is the SECOND biggest blunder anyone

can make," another added. "The first? Coming for Dolly Parton." "No. You do not come after Dolly Parton. You absolutely do not," a third shared. "I will go after anyone on this app ... except Dolly Parton," another shared. "Delete your whole account."

What Dolly Parton has said about the LGBTQ community

While Parton may detest politics, she spoke to the *Hollywood Reporter* in 2023 about how the recent onslaught of anti-LGBTQ legislation affects people she loves. "I have some of everybody in my own immediate family and in my circle of

employees," she explained. "I've got transgender people. I've got gays. I've got lesbians. I've got drunks. I've got drug addicts — all within my own family. I know and love them all, and I do not judge. And I just see how broken-hearted they get over certain things and I know how real they are."

She continued: "I know how important this is to them. That's who they are. They cannot help that any more than I can help being Dolly Parton, you know, the way people know me. If there's something to be judged, that is God's business. But we are all God's children and how we are is who we are." -YAHOO

absence of megatours on par with Taylor Swift's "Eras Tour" and Beyoncé's "Renaissance" outings last year.

For artists whose popularity has crescendoed, there appears to be plenty of demand — and high prices. The average resale price for Olivia Rodrigo's "Guts" tour is \$571, and the next-highest is \$409 to see Morgan Wallen, according to SeatGeek data first reported by Axios. Many of those tours are being sold through Ticketmaster and its parent Live Nation. And prior to facing landmark accusations that it is a monopoly, a claim it denies, Live Nation reported its biggest first quarter ever, with \$3.8 billion in revenues. Its concerts business alone was up 26% to \$2.9 billion, while "estimated fans" globally were up more than 20%, and up 42% in North America.

Yet official government data points

to the makings of a return to a more normal pace for live music event sales after a post-pandemic boom. The U.S. Bureau of Labor Statistics reported last month that movie and concert admissions prices climbed just 3.4% year over year through April, the lowest reading since 2021 and the second-consecutive month showing a slowdown.

Dave Clark, editor of Ticket News, which tracks the live entertainment industry, said the period of explosive live music growth following pandemic reopenings may in hindsight be seen as an aberration: People were simply more eager — and more financially able — to go to as many shows as they

could after months cooped up indoors. This year, Clark said, a reckoning may be emerging.

"The days where there was enough demand to sell out arenas at top dollar just isn't there in this live events economy — outside of people like Taylor Swift who can sell whatever they want wherever they want," he said. At a time when many consumers are struggling to pay for basic necessities, he said, "people are seeing some of the prices they're asking and just saying, 'Hard pass.'"

Another factor may be a supply issue, Clark added: too many acts trying to tour at once, or too many times. In the pre-streaming era, bands would go on

tour as a way of marketing an album. These days, he said, it's reversed, since the returns on recorded music have shrunk dramatically.

"Now they're making records to sell the tour," he said. "That paradigm has a lot to do with it. It's just a very overloaded market."

The Black Keys did just release a new album, and its debut single hit No. 1 on Billboard's Alternative Airplay chart in March.

Still, the rock duo announced it would cancel and reschedule its summer touring plans, switching from arenas to other venues that provide a more "intimate experience," according to the band. The new dates have not yet been

announced.

The Black Keys aren't the only group that may be falling victim to costly concert fatigue.

Pop-rock band 311 announced it had canceled upcoming European tour dates due to the "rising costs of touring overseas," which made completing certain portions of the tour "unfeasible."

Other stars including Pink and Justin Timberlake have also recently canceled specific show dates, while the Jonas Brothers recently postponed their upcoming European tour, though none officially cited financial concerns as reasons for doing so.
