PUBLIC CONSULTATION MEETING MINUTES:

ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR THE EXCLUSIVE PROSPECTING LICENCE (EPL) No. 8244 LOCATED AROUND TSUMEB, IN OSHIKOTO REGION, NAMIBIA.

Date: Thursday, 05 September 2024

Time: 09:00 am

Venue: Tsumeb Constituency Office, Oshikoto Region.

The Public Consultation Meeting was attended by more than four (6) people, including: one environmental consultant and one archaeological consultant from Excel Dynamic Solutions (Pty) Ltd. *Please refer to the attached attendance register*

1. INTRODUCTION AND WELCOMING REMARKS

The meeting was officially opened by Mr. Stefanus Johannes, who briefly explained to the attendees what the meeting was all about and why they were invited (with reference to the Environmental Management Act (EMA) No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations on Public Consultation).

The meeting attendance register was then circulated for the attendees to write down their names and contact details and sign so that they could be added to the list of interested and affected parties (I&APs) and receive further information on the ESA process.

2. MEETING AGENDA AND PRESENTATION

The agenda of the meeting included the following:

2.1. Brief Description of the Project

Mr. Johannes provided a short description of the planned project and its associated activities, the Environmental Scoping Assessment (ESA) process, and the reason why the proponent appointed EDS, as an independent environmental consultant to carry out the EIA and Environmental Clearance Certificate (ECC) application.

2.2. Presentation of Potential Project Impacts:

To ensure transparency and provide clarity to the attendees, the Environmental Consultants also presented the potential pre-identified positive, negative environmental, and social impacts.

2.3. Public Open Discussion (Interactive Session):

Mr. Johannes provided the meeting attendees the opportunity to raise their concerns or issues and or comment on the proposed project activities. The issues and comments are presented in **Table 1** below.

Table 1: Comments and issues raised during the consultation meeting

Comment or issue No.	Commenter name and issue or comment or question	Response and name of responder:
1.	Commenter 1: The smelting has nothing to do with this but I just want to start there. For development and investment to come to Tsumeb the smelting is not a good activity, because of the arsenic that is stored there. I know the EIA has to be conducted and done but we also have look at were all the waste will stored, development is fine but we just need to see that the waste is stored in way that not pollute the underground water and it can also be remanufactured into other things	Mr. Stefanus Johannes: Your points are well noted, we usually extend the period for interested and affected parties to send in their comments and concerns and also enquire for information were they do not understand
2.	Commenter 1: Also I just want to say the guys who are doing the drilling for mineral rights, they need to inform us were and when the drilling will take place so that we just do not wake up one morning and	Mr. SJ: Noted, I will inform them of this.

Comment or issue No.	Commenter name and issue or comment or question	Response and name of responder:
	they here already. So they must be open and keep us updated with their plans.	
3.	<p>Commenter (Hon. Gotty Ndjendjela) 2: It is fine, the owner of the farm (the previous speaker). Ok, there is a man there on farm Uris, that attended a meeting for an EPL that I also attended, we wanted the consultants to come back again, I want you to have another meeting with the community because there must be some benefit for the communities, so they are aware of the project, I don't want them to find out there is a Mine and they were not informed. if not we will object this project</p> <p>Commenter 2: Because they also need to benefit, the rest, I wish you all best because we also need development so that my people also get employment.</p>	<p>Mr. SJ: The targeted sites are on farm Uris.</p> <p>Mr. SJ: I agree with your statement. We will use your office again so you can share the information.</p> <p>(even though the BID and Maps were shared with their offices and the councilor to share and inform the affected parties).</p>

FINAL REMARKS AND CONCLUSION OF THE MEETING

Mr. Johannes thanked the attendees for their input. He indicated to them that all the comments and concerns have been noted down for consideration and will be addressed and incorporated into the draft ESA report and the Environmental Management Plan (EMP).

Furthermore, they were informed that the draft meeting minutes, the ESA report, and the EMP will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register. Once the review of the draft ESA report and the EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

The meeting was adjourned at 10h30.

The Board of Directors, Management and Staff of the Namibia Training Authority (NTA) are deeply saddened by the untimely passing of the Deputy Chairperson of the Board of Directors, Ms. Esther Hoveka, who passed away on Saturday, 27 July 2024.

The late Ms. Hoveka served the NTA with diligence and zeal and leaves behind an indelible legacy of principled stewardship and servant leadership. Her passing leaves a deep void in the Technical and Vocational Education and Training (TVET) sector, to which she was a dedicated and committed servant.

We extend our heartfelt condolences to her bereaved children and loved ones and we pray for their peace and comfort. May God grant them strength during this difficult time.

May the soul of Ms. Esther Hoveka rest in eternal peace.

PUBLIC CONSULTATION MEETING MINUTES:

ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR THE EXCLUSIVE PROSPECTING LICENCE (EPL) No. 8244 LOCATED AROUND TSUMEB, IN OSHIKOTO REGION, NAMIBIA.

Date: Thursday, 05 September 2024

Time: 09:00 am

Venue: Tsumeb Constituency Office, Oshikoto Region.

The Public Consultation Meeting was attended by more than four (6) people, including: one environmental consultant and one archaeological consultant from Excel Dynamic Solutions (Pty) Ltd. *Please refer to the attached attendance register*

1. INTRODUCTION AND WELCOMING REMARKS

The meeting was officially opened by Mr. Stefanus Johannes, who briefly explained to the attendees what the meeting was all about and why they were invited (with reference to the Environmental Management Act (EMA) No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations on Public Consultation).

The meeting attendance register was then circulated for the attendees to write down their names and contact details and sign so that they could be added to the list of interested and affected parties (I&APs) and receive further information on the ESA process.

2. MEETING AGENDA AND PRESENTATION

The agenda of the meeting included the following:

2.1. Brief Description of the Project

Mr. Johannes provided a short description of the planned project and its associated activities, the Environmental Scoping Assessment (ESA) process, and the reason why the proponent appointed EDS, as an independent environmental consultant to carry out the EIA and Environmental Clearance Certificate (ECC) application.

2.2. Presentation of Potential Project Impacts:

To ensure transparency and provide clarity to the attendees, the Environmental Consultants also presented the potential pre-identified positive, negative environmental, and social impacts.

2.3. Public Open Discussion (Interactive Session):

Mr. Johannes provided the meeting attendees the opportunity to raise their concerns or issues and or comment on the proposed project activities. The issues and comments are presented in **Table 1** below.

Table 1: Comments and issues raised during the consultation meeting

Comment or issue No.	Commenter name and issue or comment or question	Response and name of responder:
1.	Commenter 1: The smelting has nothing to do with this but I just want to start there. For development and investment to come to Tsumeb the smelting is not a good activity, because of the arsenic that is stored there. I know the EIA has to be conducted and done but we also have look at were all the waste will stored, development is fine but we just need to see that the waste is stored in way that not pollute the underground water and it can also be remanufactured into other things	Mr. Stefanus Johannes: Your points are well noted, we usually extend the period for interested and affected parties to send in their comments and concerns and also enquire for information were they do not understand
2.	Commenter 1: Also I just want to say the guys who are doing the drilling for mineral rights, they need to inform us were and when the drilling will take place so that we just do not wake up one morning and	Mr. SJ: Noted, I will inform them of this.

Comment or issue No.	Commenter name and issue or comment or question	Response and name of responder:
	they here already. So they must be open and keep us updated with their plans.	
3.	<p>Commenter (Hon. Gotty Ndjendjela) 2: It is fine, the owner of the farm (the previous speaker). Ok, there is a man there on farm Uris, that attended a meeting for an EPL that I also attended, we wanted the consultants to come back again, I want you to have another meeting with the community because there must be some benefit for the communities, so they are aware of the project, I don't want them to find out there is a Mine and they were not informed. if not we will object this project</p> <p>Commenter 2: Because they also need to benefit, the rest, I wish you all best because we also need development so that my people also get employment.</p>	<p>Mr. SJ: The targeted sites are on farm Uris.</p> <p>Mr. SJ: I agree with your statement. We will use your office again so you can share the information.</p> <p>(even though the BID and Maps were shared with their offices and the councilor to share and inform the affected parties).</p>

FINAL REMARKS AND CONCLUSION OF THE MEETING

Mr. Johannes thanked the attendees for their input. He indicated to them that all the comments and concerns have been noted down for consideration and will be addressed and incorporated into the draft ESA report and the Environmental Management Plan (EMP).

Furthermore, they were informed that the draft meeting minutes, the ESA report, and the EMP will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register. Once the review of the draft ESA report and the EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

The meeting was adjourned at 10h30.
