

THE PROPOSED EXPLORATION ACTIVITIES ON AN EXCLUSIVE PROSPECTING LICENSE (EPL) 8162 LOCATED APPROXIMATELY 15 KM WEST OF KHORIXAS, KUNENE REGION, NAMIBIA

INFORMATION SHARING MEETING

Meeting - General Public, Aodaman Traditional Authority and Doro Nawas Conservancy

| | |
|-------------------------------------|---|
| Date: | 24 January 2025 |
| Location: | Aodaman Traditional Authority Office in Khorixas |
| Time: | 15h00 - 16h00 |
| Purpose: | <ul style="list-style-type: none"> • Present the Environmental Impact Assessment (EIA) process being followed. • Explain the motivation and overview of the proposed Project. • Allow interested & affect parties (IAPs) to provide input into the EIA process and Scoping Report. |
| Attendees (Key Stakeholders) | See full attendance register in Appendix A. |
| Facilitator: | Mr. Immanuel Katali (IK) |

1 PRESENTATION

IK the independent Environmental Practitioner conducting the EIA process welcomed all to the meeting.

IK presented the project background/motivation as well as the description and location of the proposed project and various project components.

IK also presented the EIA process being followed and explained the potential key social and environmental issues that were identified as part of the initial stages of the EIA process. He ended the presentation by discussing the way forward regarding the EIA process.

2 DISCUSSION

Any issues and concerns raised during the meeting have been recorded in Table 1. Where a response was provided, the relevant response has also been included in Table 1.

| Issue raised/ comment | Response |
|--|---|
| How will the community benefit? | When fully operational, the project wilol employ workers. The EMP outlines that local preference should be considered during the recruitment process. The proponent will have to adhere to that commitment in the EMP |
| When will you begin with the operations. | Currently we are only busy with the EIA. Once and if the EIA Application is approved then the proponent will have to source funds through investor in order to form a partnership and execute the exploration activities. |
| Thank you for your time and for sharing this information with us. | Thank you for attending sir. |
| So many people come around here, giving presentations and telling us all sorts of things but their projects never commence. How is this one different? | There are so many processes and feasibility studies that need to be conducted before a project actually kicks off such as technicalities of the project. At times, it can take even years due to other reasons such as budget limitations and other various shortfalls. However, the key aspect is that the EIA is being conducted which is a step forward, we should take positives in that. |

3 CLOSE

IK thanked everyone for attending the meeting and encouraged those with more questions to ask them after the meeting or forward them to I.N.K as per the details provided. He closed the meeting.
