

## Project Location

The Solar PV site is located at Area 3, on approximately 5,300 ha, portion of farm Bloemhof 109, about 23 km south-east of the mining town of Arandis, in the Erongo Region of western central Namibia, GPS coordinates -22.585630°S, 15.251242°E. The OHTL spans a distance of approximately 110 km and connects the Solar PV site in Area 3 to the green hydrogen and ammonia plant and desalination plant in Area 2 as shown in the previous figure.

The Hylron facility is located adjacent to the project boundary together with the nearby mines as outlined in the following figure where the regional location of the Solar PV Site is shown.
