Professional Summary

Experienced Environmental Assessment Practitioner with a proven track record in comprehensive Environmental Impact Assessments, skilled in stakeholder engagement, and compliance auditing. Adept at facilitating effective communication and ensuring adherence to environmental regulations, driving successful project outcomes.

Employment History

Environmental Assessment Practitioner, Excel Dynamic Solution (Pty) Ltd

11/2024 - present

 Environmental Scoping Assessment Study for the Proposed Mineral Prospecting & Exploration Activities on Exclusive Prospecting Licenses (EPLs) No. 9354 in the Otjozondjupa Region.

Client: Epangelo Mining Company (Pty) Ltd

Responsibilities: Site visit and Assessment, Facilitation of Public and Stakeholders Consultation Meeting and Compilation of Environmental Assessment Report & Environmental Management Plan.

 Environmental Scoping Assessment Study for the Proposed Mineral Prospecting & Exploration Activities on Exclusive Prospecting Licenses (EPLs) No. 9595 in the Otjozondjupa Region.

Client: Red Enterprises (Pty) Ltd

Responsibilities: Site visit and Assessment, Facilitation of Public and Stakeholders Consultation Meeting and Compilation of Environmental Assessment Report & Environmental Management Plan.

Environmental & Water Quality (Job Attachment), Namibia Water Corporation (Pty) Ltd

11/2023 - 10/2024

- Environmental Compliance Auditing: Conducted compliance audits for three projects: Collector 1-Collector 2 Swakopmund Pipeline Replacement, Henties Bay pipeline replacement, and Tsumkwe Drought Relief Project. Drafted detailed Environmental Compliance reports that identified gaps in environmental protection practices and provided actionable recommendations to project teams, facilitating improvements in compliance with environmental regulations.
- Reviewing External Environmental Compliance Reports: Reviewed reports submitted by external project teams. Involved assessing noncompliance issues and providing feedback to project teams to help ensure that the management mitigations in the project Environmental and Social Management Plans are implemented effectively and management mitigations adequately addressed.
- Environmental Management: Spearheaded the renewal of Environmental Clearance Certificates (ECCs) for NamWater's existing water supply schemes, ensuring timely completion and adherence to regulatory requirements set forth by the Ministry of Environment, Forestry, and Tourism. In addition, I updated Environmental and Social Management Plans for NamWater schemes, ensuring compliance with environmental regulations.
- Limnology monitoring: Conducted monthly limnological investigations at Von Bach, Swakoppoort, and Oanob dams to recommend strategies for water abstraction that reduce treatment costs. Additionally, performed water quality monitoring at Hardap, Naute, and Neckartal dams.

- Pollution Control Monitoring: Conducted a site investigation to assess the
 potential pollution risk posed by a storm water channel in Katima Mulilo
 discharging into the Zambezi River upstream of a NamWater abstraction
 point. Prepared a comprehensive report with findings and actionable
 recommendations for addressing potential threats to the local water supply,
 effectively balancing the interests of environmental protection and community
 needs.
- Stakeholder Engagement: Participated in stakeholder engagement meeting to discuss proposed groundwater abstraction from Kranzberg Aquifer in Erongo Region, gaining insights into community perspectives and concerns to inform project development aligned with local needs and values.

Education

Bachelor of Science Environmental Biology (Honours), The University of Namibia

01/2019 - 11/2022

Master of Science in Integrated Environmental Management and Sustainable Development,

The International University of Management

02/2025 - Present

Courses

Environmental Imapact Assessment Essentials, Shields

03/2025

Environmental Management Essentials, Shields

04/2025

Hazardous Substances Assessment Essentials, Shields

04/2025

The Challenges of Water Security in Arid Economics, Engineering Institute of Technology

Project Management, Namibia Business Innovation Institute

11/2018

Public Management, Yali Regional Leadership Centre

12/2018

English Advanced, International Training College

05/2018

Basic Computer Skills (Word, Excel, PowerPoint, Excess), Vtech Training Academy

09/2019

MSc, Biodiversity Management and Research, 2021 - up to date

University of Namibia

Honors Degree, Environmental Biology, 04/2018 University of Namibia

Accomplishme

Certificate of Excellences (Faculty of

nts and

Science) for outstanding performance for

Certificates the 2016 academic year in Biogeography.

Certificate of Excellences (Faculty of Science)

for outstanding performance for the 2015

academic year in Conservation Biology and

Biodiversity.

Certificate of Excellences (Faculty of Science)

for outstanding performance for the 2015

academic year in Introduction to Hydrology.

Present

PRINCIPAL ENVIRONMENTAL PRACTITIONER (FOUNDER) (01/10/2024 – UpToDate).

Position

Savannah Environmental Consultant Services CC, Namibia

Stakeholders' engagement

Environmental Impact Assessment report writing

Environmental Management Plans compliance

Field trip and logistics planning

Environmental management plans Auditing and monitoring.

ENVIRONMENTAL ASSESSMENT PRACTITIONER 03/2022 - Current

Excel Dynamic Solutions (Pty) Ltd, Namibia

Conducting of EIAs (Environmental Impact Assessments) of different Exclusive Prospecting Licenses

Compiling of Reports (Environmental Scoping Reports)

Compiling of EMP (Environmental Management Plans)

Conducting Public Consultation Meetings

Engaging Stakeholders of the projects (Interested and affected Parties)

Office Administration (filing of Reports and other relevant Documents)

Data collection (Field Work)

Data capturing and data cleaning

Logistics (Planning and organization of field trips and booking for accommodation).

Advising on the best suitable approaches and methodologies for achieving project targets and objectives.

BIOLOGY LABOLATORY DEMONSTRATOR (01/03/2021 -30/11/20 21)

University of Namibia, Namibia

Setting and maintaining the laboratory Invigilating students when they are writing test Grading student practical reports

Demonstrating and assisting student during their practical session.

TEACHER (FREDRICK AWASEB SSECONDARY SCHOOL)

ministry of education arts and culture

Teaching of Biology and physical science. (1/08/2018-31/12/2018).

FIELD ASSISTANT (01/05/2019- 30/11/2020).

Gobabeb Namib Research Institute, Namibia

Field assistant evaluating the health of three tree species of the central Namib ephemeral rivers by using eco-physiological methods

Data collection

Data entry

Quality control.

Short Biography

Nerson Tjelos is a trained Namibian Geoscientist, certified Project Manager, US Climate Reality trained Leader and currently finishing with my Masters in Geoinformation Science and Earth Observation. He is

the founder of Excel Dynamic Solutions (Pty) Ltd (www.edsnamibia.com), Reg. No. 2019/0817, a company focused on developing modern sustainable tools for discovery and management of natural resources and finding lasting solutions to environmental health and community empowerment. The team comprised of young geologists, environmental consultants, software developers and project managers. Since the establishment of startup consulting firm in 2015, and under his leadership, the company has worked with renowned organizations in Namibia, Zimbabwe, South Africa, Zambia and Germany on projects of national magnitude. The company also managed to offer job opportunities and internships to more than 30 graduates and students, thus promoting skills transfer. He is also a founding member of other entities, including Minerals Africa Development Institution (MADI) Limited, which is registered in Uganda and has a representation in all five sub-regions in Africa. Outside the business, Nerson co-founded an organization that has interest in climate change, youth empowerment and leadership development in the area of natural resource management, environmental safety and sustainability. He volunteers to train small scale miners in Namibia on mining methods, environmental compliance law and business proposals writing for funding. As a trained Climate Reality Leader and Country Representative for three climate change and world health global organizations (namely: Climate Reality Project, Team 54 Project and Word Health Innovation Summit "WHISAfrica" Initiative), he spends time raising awareness about climate change and its solutions. Nerson is currently offering business mentorship to other African entrepreneurs through the Tony Elumelu Foundation Entrepreneurship Programme. He is a co-opted member of the Geoscience Council of Namibia and serve on a committee within the Namibia Chamber of Commerce and Industry (NCCI) that is responsible for the mining sector. His business ambition was recognized by many local and continental institutions and in the 5 years of running a consulting firm, he received several business leadership awards.
