Dear Esteemed Interested & Affected Party,

Libra Seventy One Investments (Pty) Ltd (The Proponent) proposes to undertake prospecting and exploration activities on Exclusive Prospecting License (EPL) No. 9813 located 30km south-east of Kombat, Otjozondjupa Region.

Mineral prospecting and exploration is one of the listed activities that cannot be undertaken without an Environmental Clearance Certificate (ECC) as per the 2012 Environmental Impact Assessment (EIA) Regulations of the Environmental Management Act No. 7 of 2007. The Proponent, therefore, appointed Excel Dynamic Solutions (Pty) Ltd, an independent Environmental Consultants firm to conduct the required Environmental Scoping Assessment (ESA) process and apply for the ECC.

Furthermore, Sections 21 to 24 of the EIA Regulations require that Public Consultation is undertaken as one of the crucial components of the Environmental Assessment, which involves the pre-identification of potential Interested & Affected Parties (I&APs) or Stakeholders and ongoing registration of new I&APs and subsequent consultation. You have therefore been identified as a potential I&AP for this proposed activity, and the reason you are receiving this communication.

Please find the attached Background Information Document (BID) the proposed prospecting and exploration activities and the site notice as a public consultation invitation.

The EPL cover farms: Esere No.150, Esere No.151, Rotenfels No.145, Odusa No.146 and Breitenbach No.1257 .

We would greatly appreciate if the landowners could kindly provide us with their names, farm names, and contact details so that we can register them as Interested and Affected Parties (I&APs).

We are currently working to finalize the date for the stakeholders engagement meeting and will provide further details once this information is available.

PUBLIC CONSULTATION MEETING MINUTES:

PROJECT: Environmental Scoping Assessment (ESA) for Proposed Exploration Activities on Exclusive Prospecting License (EPL) No. 9813 located South-East of Otavi in the Otjozondjupa region, Namibia.

Date: Monday, 12 May 2025

Time: 11:00 – 11:41

Venue: Farm Esere No.151

Seven (7) people attended the public consultation meeting, including one Environmental Consultants (Mr. Mandume Leonard) and one Archaeologist (Ms. Victoria Shekunyenge) from Excel Dynamic Solutions (Pty) Ltd (EDS). Please refer to the attached attendance register for a complete list of attendees.

1. INTRODUCTION AND WELCOMING REMARKS

The Environmental Consultant (Mandume) began the meeting by introducing the team and explaining the purpose of the consultation, which was to engage Interested and Affected Parties (I&APs) about the proposed prospecting and exploration activities within **EPL 9813**.

An attendance register was then circulated among the attendees, enabling them to register their names and contact details, which would be used to maintain communication and provide updates on the Environmental Impact Assessment (EIA) process.

2. MEETING AGENDA AND PRESENTATION

The agenda of the meeting included the following main points:

2.1 Brief Description of the Project

Mr. Mandume Leonard provided the attendees with an overview of the EIA process, citing relevant legislations such as the Environmental Management Act and its 2012 EIA Regulations on Public Consultation. He then explained the significance of obtaining an Environmental Clearance Certificate (ECC) for the proposed project, emphasizing the attendee's crucial role in contributing to the EIA process by offering their insights and feedback regarding the potential environmental, social, and economic impacts of the proposed project.

2.2 Presentation of Potential Project Impacts

To ensure transparency and that the attendees understand both sides of the proposed project activities, the Environmental Consultant also presented the potential pre-identified potential positive & negative environmental and social impacts.

2.3 Public Open Discussion (Interactive Session)

Mr. Leonard allowed the meeting attendees to raise their concerns, issues, and/or comments on the proposed project activities. The concerns/issues and comments recorded are presented in Table 1 below.

Table 1: Comments and issues raised during the public consultation meeting, 12 May 2025

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
1.	What minerals is the proponent exploring for?	Mr. Mandume Leonard (ML): They have not identified any specific mineral as their primary focus, and instead have requested the opportunity to explore for a range of minerals.
2.	Can you please confirm whether the consultancy will be preparing a comprehensive Management Assessment Plan addressing the concerns raised during the consultation process and providing detailed mitigation measures?	ML: Yes the consultant will provide all that.
3.	When should we expect to receive and sign the access agreement with the Proponent?	ML: Once the Environmental Clearance Certificate has been issued and before Libra Seventy-One Investment (Pty) Ltd (the proponent) start with the prospecting and exploration phases.
4.	Given the recent drought and its potential impact on the availability of water resources in the area, we are concerned about the effect that the mining operations may have on the water supply.	ML: as for now the proponent is applying for the Environmental Clearance Certificate to only carry out prospecting and exploration activities, but not mining activities. If water is not sufficient for the proposed project, the proponent might have to take another route of getting water, its either getting water from somewhere else and having to transport it on site.

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
5.	When can we expect the first personnel and equipment to arrive in the area?	ML: The commencement of prospecting and exploration operations is based upon the receipt of an Environmental Clearance Certificate from the Ministry of Environment, Forestry and Tourism. If the Certificate is issued, Libra Seventy one Investment will proceed with the necessary preparations for prospecting and exploration activities. However, it is important to note that the Ministry may deny the Certificate if it deems that the proposed project would cause unacceptable harm to the environment or the community.
6.	Is it necessary for us, as farm owners and stakeholders, to provide instructions on the regulations and requirements for entering our properties to the personnel and equipment associated with the proposed mining project?	ML: Once the land access agreement is established, the rules and regulations for entering the farms will be outlined in the contractual document. The agreement will detail the procedures for accessing the properties, as well as any specific restrictions or requirements that must be adhered to.
7.	I would like to inquire whether it is possible for me to appoint a representative of my own to	ML: Yes, no problem, you can appoint your personnel to oversee the compliance in your farm and around the project area.

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
	<p>oversee and monitor the compliance with the regulations? This would provide an additional layer of assurance that the activities on my property are being conducted in accordance with the established guidelines, and would enable me to address any potential violations in a timely manner.</p>	

FINAL REMARKS AND CONCLUSION OF THE MEETING

Mr. Leonard thanked the attendees for their crucial input through comments and raising their concerns. He indicated to the attendees that all their comments, concerns, and inputs had been noted down for consideration and addressing in the Environmental Scoping Assessment (ESA) Report as well as incorporating their recommendations into the draft EMP.

Furthermore, Mr. Leonard informed the attendees that the draft meeting minutes, Environmental Assessment Report, and Environmental Management Plan (EMP) will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register.

Once the review of the draft ESA Report and EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

The meeting adjourned at 11h41.
