

ANNEXURES D: PROOF OF CONSULTATION (MINUTES, ATTENDANCE REGISTER, NEWSPAPER ADVERTS, WHATSAPP GROUP MEMBERS)

20 November 2025

PUBLIC CONSULTATION MEETING MINUTES:

PROJECT: Environmental Scoping Assessment (ESA) for Proposed Exploration Activities on Exclusive Prospecting License (EPL) No. 9825 located of in the Otjozondjupa region, Namibia.

Date: 24 October 2025, Friday

Time: 11:00 – 11:27

Venue: Peace Garden, Grootfontein.

Five people attended the public consultation meeting, including two Environmental Consultants (Mr. Mandume Leonard and Ms. Vistolina Augustus) and one Archaeologist (Ms. Loide Shipingana) from Excel Dynamic Solutions (Pty) Ltd (EDS).

Supplementary farm-to-farm visits were also made to engage with absent farmers. Additionally, telephone communications were used to further interact with stakeholders who were unable to attend in person.

These minutes encompass feedback and discussions gathered from both the Peace Garden meeting and subsequent farm visits, as well as insights shared through phone conversations.

Please refer to the attached attendance register for a complete list of attendees.

1. INTRODUCTION AND WELCOMING REMARKS

The Environmental Consultant (Mr. Mandume) began the meeting by introducing the team and explaining the purpose of the consultation, which was to engage Interested and Affected Parties (I&APs) about the proposed prospecting and exploration activities within **EPL 9825**.

An attendance register was then circulated among the attendees, enabling them to register their names and contact details, which would be used to maintain communication and provide updates on the Environmental Impact Assessment (EIA) process.

2. MEETING AGENDA AND PRESENTATION

The agenda of the meeting included the following main points:

2.1 Brief Description of the Project

Mr. Mandume provided the attendees with an overview of the ESA process, citing relevant legislations such as the Environmental Management Act and its 2012 EIA Regulations on Public Consultation. He then explained the significance of obtaining an Environmental Clearance Certificate (ECC) for the proposed project, emphasizing the attendee's crucial role in contributing to the ESA process by offering their insights and feedback regarding the potential environmental, social, and economic impacts of the proposed project.

2.2 Presentation of Potential Project Impacts

To ensure transparency and that the attendees understand both sides of the proposed project activities, the Environmental Consultant also presented the potential pre-identified potential positive & negative environmental and social impacts.

2.3 Public Open Discussion (Interactive Session)

Mr. Mandume allowed the meeting attendees to raise their concerns, issues, and/or comments on the proposed project activities. The concerns/issues and comments recorded are presented in Table 1 below.

Table 1: Comments and issues raised during the public consultation meeting

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
1.	What is the required minimum expenditure by prospectors in the local area?	Mr. Mandume Leonard (ML): Most of their community-related responsibilities, such as investing in local development or providing benefits, usually kick in once a project moves to the mining stage and generates revenue.
2.	Could you please provide the name of the consulting firm responsible for facilitating the public consultation process?	ML: The consultancy conducting the public consultation is Excel Dynamic Solutions.
3.	Who is the applicant? Does the applicant already hold other EPLs?	ML: The applicant's name is Namasiku Bainga, and they have submitted multiple EPL applications in addition to this one.
4.	Will it be the prospectors that will be responsible for conducting the archaeological assessment?	ML: Our team will handle the archaeological survey, documenting coordinates and submitting them to the National Heritage Council. The Council will identify these sites, and prospectors will be provided with a document indicating grave locations once the Environmental Clearance Certificate has been issued.
5.	Are there going to be any specialist studies?	ML: Currently, the only specialist study that is required for this project is an archaeological assessment, as mandated by the Ministry of Environment, Forestry and Tourism and the National Heritage Council.

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
6.	So the proponent does not have the right to conduct the mining activities yet?	ML: It is important to note that the Proponent has not yet been granted any rights to conduct mining activities. They have applied for an Exclusive Prospecting License (EPL), but this permit will not be issued by the Ministry of Industry, Mines and Energy (MIME) until the Ministry of Environment, Forestry, and Tourism (MEFT) has issued an Environmental Clearance Certificate (ECC). Only when the ECC has been granted, indicating that the project has been deemed environmentally acceptable, will the MIME consider issuing the EPL.
7.	What is the expected timeline for the proposed exploration activities?	ML: The process of obtaining an Environmental Clearance Certificate (ECC) typically takes approximately six months or more. Once the ECC is issued, the Proponent can begin exploration activities for a period of up to three years.
8.	What are the next steps?	ML: It will be to do the assessment process, which involves surveying and studying the flora, fauna, and cultural sites within the area. This will help them identify any potential environmental or cultural impacts associated with the exploration activities, and determine any necessary mitigation measures.
9.	What happens during the first phase of prospecting?	ML: In the first phase, the team conducts geological mapping to identify potential mineral deposits. They may utilize advanced technologies like

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
		drones to gather data. By analyzing this data, they pinpoint target areas with higher mineralization prospects, guiding further exploration efforts.
10.	One of the primary concerns surrounding this project is the potential impact on the safety of farm residents. In particular, we are concerned about the uncontrolled movement of people, machinery, and blasting activities within the farm area. Could you please provide further details on the proposed safety measures that will be implemented to mitigate these risks?	ML: Any arrangements for establishing a camping site on the farm would require an agreement between the farm owners and the proponent. In order to ensure safety control, it is recommended that once the proponent receives the Environmental Clearance Certificate, they should engage in discussions with the landowners to develop an access agreement. The access agreement will outline the procedures for managing the movement of personnel, machinery, and blasting activities within the farm area, thereby mitigating potential risks to safety.

FINAL REMARKS AND CONCLUSION OF THE MEETING

Mr. Mandume thanked the attendees for their crucial input through comments and raising their concerns. He indicated to the attendees that all their comments, concerns, and inputs had been noted down for consideration and addressing in the Environmental Scoping Assessment (ESA) Report as well as incorporating their recommendations into the draft EMP.

Furthermore, Mr. Mandume informed the attendees that the draft meeting minutes, Environmental Assessment Report, and Environmental Management Plan (EMP) will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register.

Once the review of the draft ESA Report and EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

The meeting adjourned at 11h27.

Farms affected by the EPL.pdf;

Dear Jafet,

As we previously discussed, I am an Environmental Assessment practitioner from Excel Dynamic Solutions, a consultancy firm that specializes in assessing the environmental impacts of Exclusive Prospecting Licenses (EPLs), I am reaching out to request the contact details of the farmers listed in the attached document.

The farmers listed in the attached document own land in the Otjozondjupa region that falls within the area affected by the EPL, and it is crucial that we engage with them to ensure their input in the assessment process.

I have already established contact with some of the farmers through their representative union.

However, I am still missing the contact details of several farmers whose farms fall within the EPL area.

I greatly appreciate your assistance in this matter. Please do not hesitate to reach out if you have any questions or concerns.

Kind regards,

Outlook

Fw: Stakeholders identification for the proposed prospecting and exploration activities on EPL No. 9825 located northwest of Grootfontein in the Otjozondjupa region.

Subject: Re: Stakeholders identification for the proposed prospecting and exploration activities on EPL No. 9825 located northwest of Grootfontein in the Otjozondjupa region.

Dear Valued Stakeholder,

Please note that the Public Consultation meeting is scheduled as follows:

Date: 24th October 2025

Time: 11h00

Venue: Peace Garden Lodge, Grootfontein

The EPL covers multiple farms, including: Uitsab No.654, Irvington No.744, Toggenurg No.1255, Toggenburg West No.741, Olifantsfontein No.9, Nosib Block III No.655

We would like to remind landowners that the EPL application is still in the process of obtaining an Environmental Clearance Certificate and we strongly encourage landowners to attend this meetings which provides an open forum to share their concerns, ask questions, and understand the proposed project in detail.

Following the public consultation meetings, the Excel Dynamic Solutions (Pty) Ltd consultant teams will require permission to access the farms for the Environmental and Heritage Assessment. This assessment is an important part of the EPL application process, and will provide additional information about the potential impact of the proposed project on the local environment and heritage.

We are looking forward to seeing you all at the meeting.

Kind regards,

Subject: Stakeholders identification for the proposed prospecting and exploration activities on EPL No. 9825 located northwest of Grootfontein in the Otjozondjupa region.

Dear Esteemed Interested & Affected Party,

Namasiku Bainga (The Proponent) proposes to undertake prospecting and exploration activities on **Exclusive Prospecting License (EPL) No. 9825 located northwest of Grootfontein, Otjozondjupa Region.**

Mineral prospecting and exploration is one of the listed activities that cannot be undertaken without an Environmental Clearance Certificate (ECC) as per the 2012 Environmental Impact Assessment (EIA) Regulations of the Environmental Management Act No. 7 of 2007.

As part of the project's environmental assessment process, **SS Consultants** has subcontracted **Excel Dynamic Solutions (Pty) Ltd**, an independent environmental consulting firm, to conduct the required Environmental Scoping Assessment (ESA) process and apply for the ECC.

Furthermore, Sections 21 to 24 of the EIA Regulations require that Public Consultation is undertaken as one of the crucial components of the Environmental Assessment, which involves the pre-identification of potential Interested & Affected Parties (I&APs) or Stakeholders and ongoing registration of new I&APs and subsequent consultation. You have therefore been identified as a potential I&AP for this proposed activity, and the reason you are receiving this communication.

Please find the attached the Background Information Document (BID) and land use map for the proposed prospecting and exploration activities.

The EPL covers multiple farms, including: Uitsab No.654, Irvington No.744, Toggenurg No.1255, Toggenburg West No.741, Olifantsfontein No.9, Nosib Block III No.655

We would greatly appreciate if the landowners could kindly provide us with their names, farm names, and contact details so that we can register them as Interested and Affected Parties (I&APs).

We are currently working to finalize the date for the stakeholders engagement meeting and will provide further details once this information is available.

Kind regards,

Outlook

PUBLIC NOTICE: ENVIRONMENTAL IMPACT ASSESSMENT (EIA) STUDY FOR THE PROPOSED CONSTRUCTION AND OPERATION OF A NEW LATTICE (FREE STANDING) TELECOMMUNICATION TOWER (NKURENKURU EX. 8 (MTC 39955) SITE IN NKURENKURU TOWN, KAVANGO WEST REGION

The public is notified that an Environmental Clearance Certificate (ECC) application will be submitted to the Environmental Commissioner as required under the Environmental Management Act No. 7 of 2007 and its 2012 EIA Regulations. The proposed project is a lattice activity in the EIA Regulations that cannot be undertaken without an ECC, which is issued upon approval of an EIA Study.

Project Proponent: Mobile Telecommunications Limited (MTC Namibia)

Environmental Assessment Practitioner: Serja Hydrogeo-Environmental Consultants CC

Project Nature and Location: construction and operation of a 60m high lattice (free standing) telecommunication tower on EPL 3023 of Extension 8 in Nkurenkuru Town, Kavango West Region (site name: Nkurenkuru Ex.8 (MTC 39955)). The proposed site is at these GPS coordinates: 17654556, 18609722, and about 800m southwest of Panzanele Houty Farming. The tower will cover a 17m x 17m surface area, and it will host 3x dual-band antennas and 1x microwave dish.

The public is therefore invited to register as interested and affected parties (I&APs) and submit comments, concerns (in writing), or receive further information on the EIA Study. The deadline for registration as I&APs and submission of comments, issues, or concerns is **Friday, 18 July 2025. A consultation meeting will be held in Nkurenkuru on Thursday, 26 June 2025 at 10:00 AM.**

NOTICE

CONSENT TO OPERATE A KIOSK/FARM STALL INCLUDING A FARM BUTCHERY ON THE REMAINDER OF FARM WALDECK NO.28, WINDHOEK UNDER THE 'TOURIST ESTABLISHMENT' ZONING

DU TOIT TOWN PLANNING CONSULTANTS, are applying on behalf of the owners of the Remainder of Farm Waldeck No.28, Waldeck (Proprietary) Limited, to the City Council of Windhoek for the:

Consent to operate a Kiosk/Farm Stall including a farm butchery on the Remainder of Farm Waldeck No.28, Windhoek under the 'Tourist Establishment' zoning

The Remainder of Farm Waldeck No.28 is located south of Windhoek and falls within the jurisdiction of the Aris Zoning Scheme. The farm is located within the Windhoek Municipal Area, east of Aris. The farm borders the Remainder of Windhoek Town and townlands to the north, the Remainder of Farm Aris to the west, Farm Gochegans No.26 to the south, Portion B (Burea) Farm Bethanien to the south-east, Farm Ukenles No.73 to the east and Farm Paulmehrfeld No.492 to the north-west. The farm measures approximately 7368,3687 hectares in extent. Access to the Remainder of Farm Waldeck No.28 is obtained via the D1463, a gravel road that branches off from the B1 national highway approximately 20 km south of Windhoek.

NOTICE FOR THE ENVIRONMENTAL IMPACT ASSESSMENT

Notice is hereby placed to inform all potentially interested and affected parties (I & APs) that an application for Environmental Clearance Certificate will be made to the Ministry of Environment Forestry and Tourism, in line with the provisions of Environmental Management Act 7 of 2007 and its Regulations of 2012.

Project Location: Oshikoto Region.

Project Description: The project involves conducting an EIA for EPL 9825 exploration activities for dimension stone, industrial minerals, base, rare metals and precious metals, Tsumeb and Grootfontein, access is via C42 road passing through the reserve portion of the tenement and it covers an area of 4838,8419 ha. Proprietor: Namasku Baingaa

All interested and affected parties (I & APs) are invited to register, request background information documents and submit inputs on or before 30th June 2025. A public consultation date will be communicated to all stakeholders at a later stage.

No aid... Protesters hold placards and the Palestinian flag during a gathering near the Israeli port of Ashdod yesterday after Israeli forces intercepted a Gaza-bound aid boat. Photos: Nampu/AFP

Israel diverts Gaza bound aid boat carrying Thunberg

JERUSALEM - Israeli forces intercepted a Gaza-bound aid boat yesterday preventing the activists on board - including Swedish campaigner Greta Thunberg -- from reaching the blockaded Palestinian territory.

The Madleen set sail from Italy on June 1 to raise awareness of food shortages in Gaza, which the United Nations has called the "hunger place on Earth". After 21 months of war, the UN warns the entire population is at risk of famine.

At around 4:02 am, Israeli troops "forcibly intercepted" the vessel in international waters as it approached Gaza, the Freedom Flotilla Coalition said. "If you see this video, we have been intercepted and kidnapped in international waters," Thunberg said in pre-recorded footage shared by the coalition.

Video from the group shows the activists with their hands up as Israeli forces boarded the vessel, with one of them saying nobody was injured prior to the interception.

Israel's foreign ministry, in a post on social media, said "all the passengers of the 'selfie yacht' are safe and unharmed", adding it expected the activists to return to their home countries. Turkey condemned the interception as a "heinous attack" in international waters. Iran also denounced it as "a form of piracy", citing the same grounds.

In May, another Freedom Flotilla ship, the Conscience, reported it was struck by drones in an attack the group blamed on Israel. In 2010, a commando raid on the Turkish ship Mavi Marmara, which was part of a similar attempt to breach Israel's naval blockade, left 10 civilians dead.

On Sunday, Defence Minister Israel Katz said the blockade, in place since years before the Israel-Hamas war, was needed to prevent Palestinian militants from importing weapons.

The Madleen was intercepted about 185 kilometres west of the coast of Gaza, according to coordinates from the coalition.

President Emmanuel Macron requested that the six French nationals aboard the boat "be allowed to return to France as soon as possible", a presidential official said.

Israel is facing mounting pressure to allow more aid into Gaza to alleviate

widespread shortages of food and basic supplies. It recently allowed some deliveries to resume after barring them for more than two months and began working with the newly formed, US-backed Gaza Humanitarian Foundation.

But humanitarian agencies have criticised the GHF and the United Nations refuses to work with it, citing concerns over its practices and neutrality.

Dozens of people have been killed near GHF distribution points since late May, according to Gaza's civil defence agency.

It said Israeli attacks killed at least 10 people on Sunday, including five civilians hit by gunfire near an aid distribution centre.

Civil defence spokesman Mahmud Bassal and witnesses said the civilians had been heading to a GHF-run site west of Rafah, in southern Gaza.

The Israeli military said it fired on people who "continued advancing in a way that endangered the soldiers" despite warnings.

The GHF said there had been no incidents "at any of our three sites" on Sunday. Outside Nasser Hospital, where the emergency workers brought the casualties, AFP TV footage showed mourners crying over blood-stained body bags.

"I can't see you like this," said Lin al-Daghma by her father's body.

She spoke of the struggle to access food aid under the blockade, despite the recent easing.

At a charity kitchen in Gaza City, displaced Palestinian Unim Ghassan said she had been unable to collect aid from a GHF site "because there were so many people, and there was a lot of shooting". "I was afraid to go in, but there were people who risked their lives for their children and families," she told AFP.

Also on Sunday, the Israeli military said it had located and identified the body of Mohammed Sinwar, presumed Hamas leader in Gaza, in an underground tunnel.

The military, which until Sunday had not confirmed his death, said Israeli forces killed Sinwar on 13 May.

Sinwar was the younger brother of slain Hamas leader Yahya Sinwar, accused by Israel of masterminding the 2023 attack that triggered the war. -Nampu/AFP

PUBLIC NOTICE

REZONING NOTICE

Notice is hereby given that Afrishine Investment cc, intends to apply to the Municipal Council of Windhoek and the Urban and Regional Planning Board on behalf of the registered owners of Erf 2998, Johann Albrecht Street, Windhoek Extension 2, for the:

- Rezoning of Erf 2998, Windhoek Ext 2 from "residential" with a density of 1900 to "institutional";
- Consent to have dwelling unit; and
- Consent to operate whilst the rezoning is in progress.

Erf 2998 is located in Johann Albrecht Street. The erf is currently zoned "residential" with a density of 1900 and measures 102m. This property comprises of one (1) main dwelling that is double storey with an outbuilding. It is proposed that Erf 2998, Windhoek Extension 2 be rezoned from "residential" with a density of 1900 to "institutional" to allow the owner of the property to fully operate a training centre on the erf.

The rezoning of Erf 2998, Johann Albrecht Street, Windhoek, Ext 2 as well as the consent use sought, would increase the development potential of the erf by ensuring the erf is more efficiently utilized and that mono-functionality of the surrounding neighborhood is countered.

Take note that a similar notice of the intent to rezone, have been posted on site, published in the Government Gazette as well as in the Notice Board of the City of Windhoek Customer Care Centre Town Planning Notice Board, 60 Independence Avenue, Windhoek. The consultation with neighboring erf owners duly took place too.

De take nota too that any person objecting to the proposed rezoning as set out above may lodge such objection together with the grounds thereof with the Chief Executive Officer, P.O. Box 59, Windhoek, Namibia and/or with the applicant in writing within 14 working days of the publication of this notice. The last date for comments/objections is thus 4th July 2025.

Applicant:
 Afrishine Investment CC
 P.O. Box 793
 Swakopmund
 Mobile: +264 81 3236004
 E-mail: hntsevanhu@gmail.com or afrishineinvestment75@gmail.com

PUBLIC NOTICE

BETACARE MEDICAL CENTRE CC

BETACARE MEDICAL CENTRE CC IS AN EQUAL OPPORTUNITY EMPLOYER AND INVITES PROACTIVE, PROFESSIONAL, CARING, ETHICAL PERSON TO APPLY FOR THE FOLLOWING POSITION:

1. POSITION: FAMILY PHYSICIAN

QUALIFICATIONS, SKILLS, COMPETENCIES AND EXPERIENCE REQUIREMENTS:

- Medical Degree
- Minimum 5 years' experience as a Family Physician
- Family Practice Residency Training
- Valid license to practice the profession
- Must be registered with HPCNA.
- Namibian citizen or eligible to work within Namibia

SHOULD YOU MEET THE ABOVE MENTIONED REQUIREMENTS, KINDLY SEND YOUR CV AND ALL CERTIFIED SUPPORTING DOCUMENTS VIA E-MAIL TO: RECRUITMENT@PHPRACITITIONERS.COM.NA

NBI DOCUMENTS SHOULD BE IN PDF FORMAT.

CLOSING DATE: 30 JUNE 2025

PUBLIC NOTICE

Take notice that **HARMONIC TOWN PLANNING CONSULTANTS CC**, Town and Regional Planners, on behalf of the owner of the respective erf, intends to apply to the City of Windhoek and the Urban and Regional Planning Board for the:

- Rezoning of Erf No. 5936 (A Portion of Erf No.3309), Windhoek from "Residential" with a density of 1900 to "General Residential" with a density of 1250; and
- Consent to commence with the proposed development while the rezoning is in progress.

Erf 5936 is located on Johann Albrecht Street, within the neighbourhood of Windhoek North. The Erf measures approximately 11 047 m² in extent and is zoned "Residential" with a density of 1900 according to the Windhoek Zoning Scheme. The client intends to develop and operate residential flats on the property, specifically designed to provide affordable and convenient accommodation for students. The proposed rezoning to "General Residential" will enable the erection of up to four units on the erf, thus optimising the use of the erf to its full potential. The proposed rezoning aligns with the City of Windhoek's strategic objectives to densify well-located urban areas, optimise land use, and provide inclusive, affordable housing options.

Sufficient parking for the development will be provided in accordance with the requirements of the Windhoek Zoning Scheme.

Further, take notice that the plan of the Erf lies for inspection on the Town Planning Notice Board at the City of Windhoek and at **Harmonic Town Planning Office, 768 Paardepoort Street, Windhoek West.**

Further take notice that any person objecting to the proposed use of the land as set out above may lodge such objection together with the grounds thereof, with the City of Windhoek and with the Applicant in writing within 14 days of the last publication of this notice (the date for objections is Thursday, 03 July 2025).

CURRICULUM VITAE

UAANAO KATJINJAA

Email: ukatjinjaa@gmail.com Mobile: +264 081 4779623 Address: P.O Box 60497, Windhoek

Personal Statement

Committed individual willing to learn from more experienced personnel. Comfortable working in large scale environments and possesses comprehensive understanding of venture management principles. Capable to actively participate in business case study analysis and research projects; skills gained in team and group work at college.

Academic Background

Candidate for MSc. Integrated Environmental Management and Sustainable Development (2024)

(International University of Management)

- Environmental Impact Assessment
- Ecosystem Management and Conservation
- Research Methodology
- Environmental Legislations
- Mini Dissertation: *An Assessment of the Factors Affecting Sustainable Entrepreneurship Development in the Renewable Energy Sector in Windhoek, Namibia*

Bachelor of Business Administration- Entrepreneurship and Enterprise Development (2018)

(University Of Botswana)

- Strategic Management
- Management Consulting
- Business Plan Development
- Research Report: *An Assessment of Trends in Entrepreneurial Behavior of the Youth in Gaborone, Botswana*

Competencies

- Good Verbal and Written Communication Skills
- Microsoft Office (Word, Excel, PowerPoint)
- Report Preparation
- Data Collection and Analysis

Experience

Junior Environmental Specialist SS- Consultants CC-2024

- Compilation and review of Environmental Impact Assessment (EIA) and Environmental Management Plan (EMP) report
- Compilation of Environmental Clearance Certificate application
- Conduct public consultation and engagements with stakeholders
- Environmental Audit Compliance on various projects

Administration and Accounts Clerk- Chemspec Botswana- 2018-2019

- Receive and process invoices, expense forms
- Request for payments and handle KYC documents
- Handle daily banking reconciliation
- Attending emails and customers' enquiries

Activities and other

- Participant in Tertiary Training Education Students Dialogue and Training on the Three Rio Conventions; Network and Learning Workshop (UNDP,2022).
- Business incubation and implementation through a small enterprise project; Creation of a mobile application (AccomoMe) with a database that links landlords to suitable tenants. (Global Business Labs, 2018).
- Article on Women Empowerment through Beauty Pageants (The Ngamitimes Newspaper, 2017).
- Documentary on Pursuit of Happiness (Media Studies, University of Botswana, 2016).

ANNEXURES H: DECLARATION FOR THE SUBMISSION OF ASSESSMENT REPORTS

ANNEXURES I: BACKGROUND INFORMATION DOCUMENT (BID)

BACKGROUND INFORMATION DOCUMENT (BID)

ENVIRONMENTAL IMPACT ASSESSMENT (EIA) FOR THE PROPOSED DIMENSION STONE, BASE AND RARE METALS, INDUSTRIAL MINERALS, AND PRECIOUS METALS EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENSE No.9825

GROOTFONTEIN, OSHIKOTO REGION, NAMIBIA

PUBLIC INVITATION TO REGISTER AND COMMENT

PURPOSE OF DOCUMENT

The purpose of Background Information Document (BID), is to provide basic detailed information about the proposed listed activities and is to be shared with all registered potential Interested and Affected Parties (I&APs) before public consultation as part of the EIA process. Furthermore, the BID aims to outline the EIA process and methods of public consultations approaches to be followed.

Hence, the BID aims to provide:

- An overview of the proposed mineral exploration activities on EPL No.9825 for dimension stone, base and rare metals, industrial minerals, and precious metals
- An overview of the Environmental Impact Assessment process; and
- Guidance on how members of public can participate in the process as Interested and Affected Parties (I&APs).

I&APs comments and concerns are vital to the success of the EIA process and potential public members are encouraged to register and participate.

Please register / complete registration form and submit to SS Consultants CC on or before **24 May 2025**.

Attention : Ms. Uanao Katjinjaa

INTRODUCTION

SS CONSULTANTS CC (hereafter referred to as the Consultant), an independent mineral resource and environmental consulting company has been appointed by **Namasiku Bainga** (here after referred to as the Proponent) to undertake an environmental assessment process and obtain an environmental clearance certificate from the Environmental Commissioner on behalf of the latter for the proposed mineral exploration activities on **EPL No.9825**.

The proposed exploration activities fall in the listed activities under the Environmental Management Act 7 of 2007 – activities which may not be undertaken without Environmental Clearance Certificate. Hence the proponent is expected to obtain an Environmental Clearance Certificate from the Environmental Commissioner prior to the commencing of these exploration activities.

The proposed development is therefore related to the specific listed activities as outlined by relevant sections in EMA Regulations of 2012:

- Construction of facilities for any process or activities which requires a license, right or other form of authorization, and the renewal of a license, right or other form of authorization, in terms of the Minerals (Prospecting and Mining Act), 1992 (Section 3.1);
- Other forms of mining or extraction of any natural resources whether regulated by law or not (Section 3.2);
- Resource extraction, manipulation, conservation, and related activities (Section 3.3);
- Abstraction of ground or surface water for industrial or commercial purposes (Section 8.1).
- Manufacturing, storage, handling, or processing of a hazardous substance defined in the Hazardous Substances Ordinance, 1974 (Section 9.1).
- Any process or activity which requires (Section 9.2).

1. Project Description

Namasiku Bainga applied for EPL 9825 on 17 November 2023, through the Ministry of Mines and Energy (MME). Under the Environmental Management Act (EMA) (2017) and its 2012 Environmental Impact Assessment (EIA) Regulations, an Environmental Clearance Certificate (ECC) from the Department of Environmental Affairs (DEA) of the Ministry of Environment, Forestry, and Tourism (MEFT) is required before any exploration activities can commence. The ECC will authorize the exploration of the applied group of commodities within the EPL.

The proposed exploration program will employ both non-invasive and invasive methods. Non-invasive techniques include remote sensing, geological field mapping, ground geophysical surveys, and surface soil and rock sampling. If initial results are promising, more invasive methods such as reverse circulation or diamond drilling and trenching will be conducted.

The EPL area is well-served by existing infrastructure, including water supply, power lines, national roads, and telecommunication networks. The project will utilize these resources where feasible, subject to agreements with landowners and relevant permits from various authorities. To ensure effective implementation, geological consultants and contractors will be engaged at various stages of the exploration process. A geophysics expert may be contracted for geophysical surveys as needed, and drilling operations will be carried out by a registered drilling contractor providing its own crew. Rehabilitation efforts will be conducted in compliance with the National Policy on the Prospecting and Mining of Mineral Resources, which mandates responsible environmental restoration throughout and upon completion of activities.

The exploration activities on EPL 9825 have the potential to create direct and indirect employment opportunities, stimulating economic growth in Otavi and Otjiwarongo and surrounding areas. Competitive wages offered by the project are expected to benefit the local workforce, particularly from nearby towns such as Tsumeb, Grootfontein, Kombat and Rundu, where unskilled labor may be sourced. Workers will either be accommodated in temporary site camps or reside in nearby towns for the duration of the exploration program. Additionally, the discovery of economically viable ore deposits could contribute to long-term employment, wealth creation, and national economic development through mineral extraction.

2. Project Location

The project area is located between Tsumeb and Grootfontein, access is via C42 road passing through the ease portion of the tenement and it covers an area of 4838.8419 Ha.

COORDINATES AND LOCALITY MAP

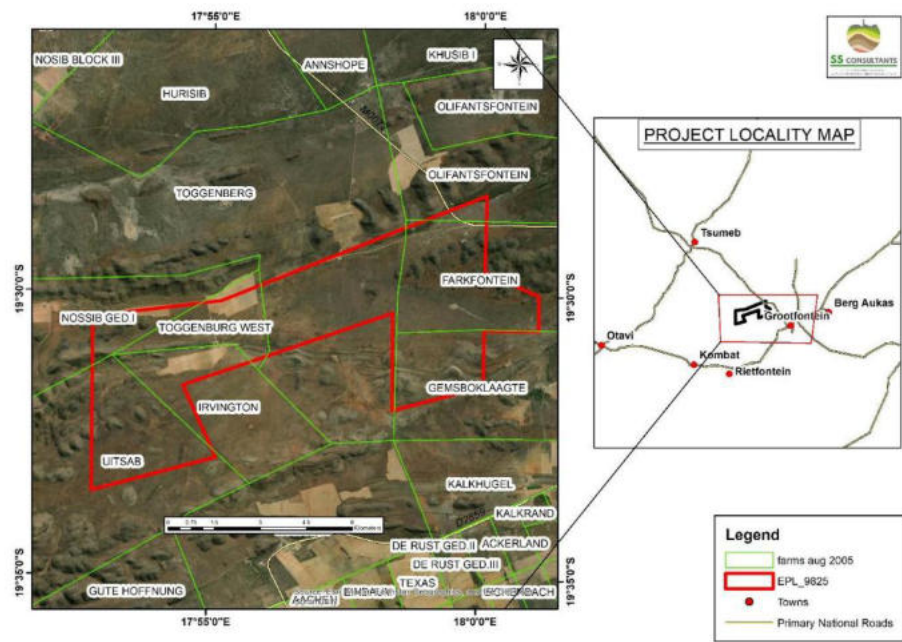

Figure 1: Corner coordinates for the project area.

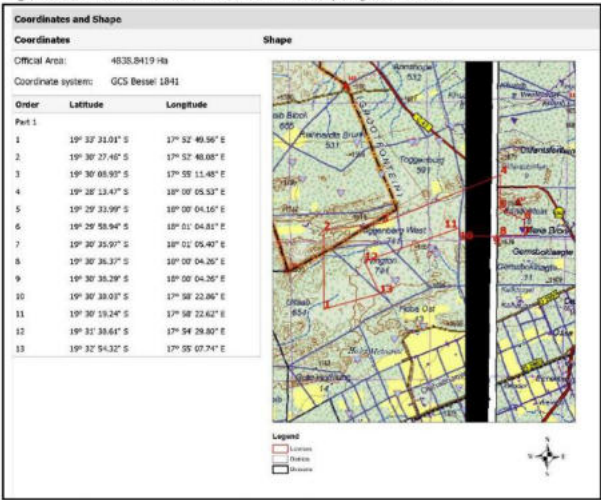

Figure 2: Locality map for the project area.

3 Legal Requirements

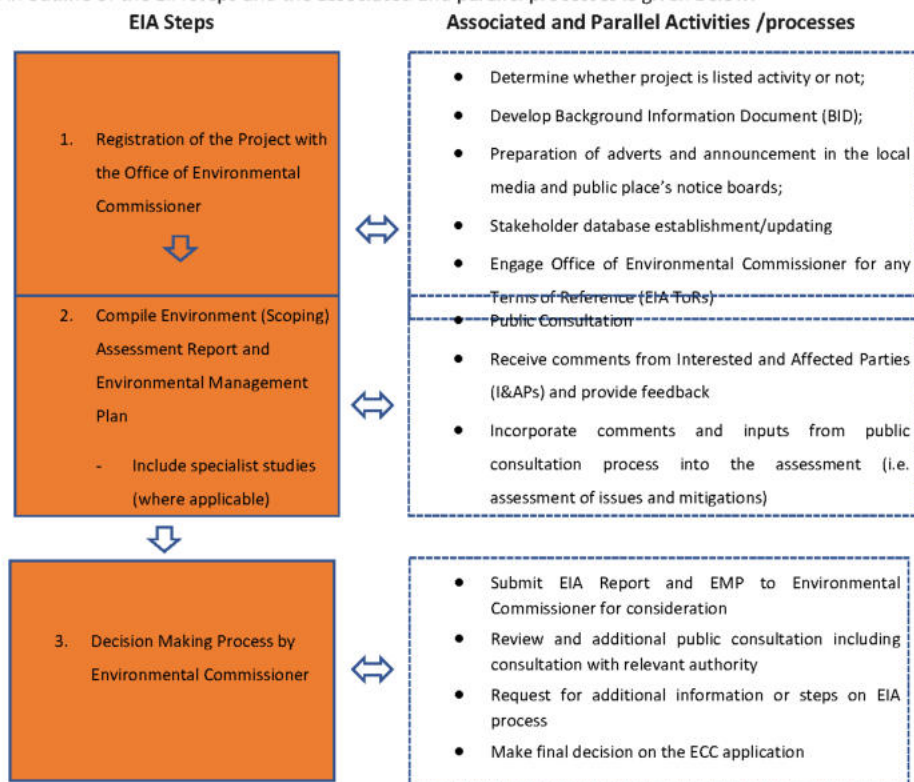

Apart from the Environmental Management Act, the project will also be guided and comply to the following national regulatory requirements:

- Water Act 54 of 1956 (including Water Resource Management Act 11 of 2013 – not yet in force)
- National Heritage Act 27 of 2004
- Mineral (Prospecting and Mining) Act 33 of 1992
- Forest Act 12 of 2001
- Agricultural (Commercial) Land Reform Act 6 of 1995 (including relevant amendments)
- Labour Act 11 of 2007
- Nature Conservation Ordinance 4 of 1975 (including relevant amendments)

4 Environmental Impact Assessment Process

The EIA process follows the general guideline as outlined in the EMA Regulations of February 2012.

An outline of the EIA steps and the associated and parallel processes is given below:

N.B: Once the Environmental Commissioner makes a decision on the application whether in favor of the proponent or not, the Environmental Management Act as guided by its Regulations also provide for the Process of Appeal. Therefore I&APs if not satisfied with the decision made, will still have an opportunity to raise their concern on the decision.

5 Potential Impacts

Below are the potential impacts that have been identified from the proposed exploration activities on the license area:

5.1 Possible positive impacts

- **Temporary job creation:** this is the hiring of workers non-skilled to skilled workers from the area to be involved during the clearing of the fauna and flora in order to access target sites, and to also assist during pitting and trenching as well as drilling and associated exploration works.
- **Knowledge and skills transfer:** Ad-hoc training programmes during implementation phase enables the hired personnel with certain potential skills.
- **Operating levies payable to authorities:** potential revenue collection.

5.2 Possible negative impacts

- **Impact on vegetation and fauna:** some vegetation may need to be removed to create access roads, pitting and trenching, geophysical lines as well as drilling sites. This may also lead to habitat destruction for some fauna.
- **Traffic safety:** very slow drilling rigs and associated vehicles may compromise traffic safety in the area.
- **Environmental degradation:** through different types of waste generated on the site.
- **Soil and water contamination:** from chemicals and other substances used in drilling fluids.
- **Noise and dust** generated by pitting and trenching as well as drilling vehicles and activities.
- **Health and safety risks** which may result to workers operating on site.
- **Conflict with small scale miners, farmers or land owners:** The proposed operations may be conflicted with this activity, but there could also be synergies for collaboration.

6 Public Consultation

Public participation is an essential part of any Environmental Assessment process. Interested and Affected Parties (I&APs) include any person or organization that will be directly or indirectly involved and/or affected by the project. Appropriate national, regional, and municipal authorities and interested members of the public were identified.

Registered I&APs will be kept informed of the Public Participation Process throughout the Environmental Assessment process, they will be given the opportunity to review and comment on the EIA reports and documents and, will also receive feedback on how comments have been considered, and will be informed of the outcome of the assessment. All comments will be recorded and presented to the project team and competent authority by means of the Project Comments and Responses Register (CRR).

Notices for public invitation to participate in the process will still be placed in the local newspaper as well as at strategic public places (notice boards). The date and venue for the public consultation meeting will be communicated.

If you categorize yourself as an I&AP who wishes to receive information regarding the above-mentioned project and/or provide input into the Environmental Impact Assessment process, you are hereby invited to register using the form on Page 7. You may also communicate with SS Consultants via email, or telephone to obtain further information or comment on the proposed project.
