

**NOTICE OF AN ENVIRONMENTAL ASSESSMENT & PUBLIC PARTICIPATION PROCESS FOR
THE PROPOSED CONSTRUCTION OF A BASE TRANSCEIVER STATION AND ASSOCIATED
INFRASTRUCTURE FOR PARATUS TELECOMMUNICATIONS (PTY) LTD ON ERF 361 IN BRAKWATER,
KHOMAS REGION, NAMIBIA.**

Environmental Compliance Consultancy CC (ECC) hereby gives notice to the public that an application for an environmental clearance certificate in terms of the Environmental Management Act, No. 7 of 2007 will be made as per the following:

Applicant: Paratus Telecommunications (Pty) Ltd
Environmental Assessment Practitioner (EAP): Environmental Compliance Consultancy
Location: Khomas Region, Namibia

Project: The proposed communication tower involves the construction of a base transceiver station and associated infrastructure on Erf 361 in Brakwater to the north of Windhoek.

Location: All activities will take place on Erf 361, owned by Paratus Telecommunications (Pty) Ltd.

Proposed Activities: Paratus Telecommunications (Pty) Ltd proposes to construct a communication tower on Erf 361 in Brakwater to the north of Windhoek. The tower will consist of a base transceiver station and associated infrastructure. The preferred tower height will be 48 meters in order to provide adequate transmission and reception of telecommunication service signals.

Purpose of the review and registration period: The purpose of the review and registration period is to introduce the proposed project and to afford registered Interested and Affected Parties (I&APs) an opportunity to comment on the Background Information Document (BID) to ensure that all issues and concerns are brought forward, captured and considered further in the assessment.

The registration period is effective from the **1st of November 2021 to the 15th of November 2021**. I&APs and stakeholders are required to access the BID and register for the project at: www.eccenvironmental.com/projects/ or alternatively email ECC to register.

The team at ECC will then maintain contact with all registered I&APs to keep them informed and engaged as the ESIA process develops. ECC will also provide registered I&APs with all relevant documents (Scoping plus Impact Assessment Report and EMP) to review during the assessment process.

035 Reglementerings Legal Notices

APPLICATION TO GOBAMIS TOWN COUNCIL Notice is hereby given in terms of Clause 7 of the Town Planning Scheme of the intention to apply to the Town Council of Gobabis for special permission in respect of Er 37, Epako Proper, Gobabis, situated in Karub Street, Gobabis, to carry on the undermentioned business on the premises: **NOB Bar - Special Liquor License**

Any person objecting to the erection and/or usage of the above mentioned buildings or against the use of land is entitled to lodge such objections in writing to the Town Council and the applicant within 14 days of the last publication of this notice.

081 020 020 020

NOTICE Take notice that DU TOIT TOWN PLANNING CONSULTANTS, on behalf of the owner of the erf, Body Corporate of AM Westburg Sectional Title Scheme (SS 30/2018), in terms of the stipulations of the Urban and Regional Planning Scheme, 2018 (Act No. 5 of 2018), intends to apply to the Windhoek City Council and the Urban and Regional Planning Board for:

- Consent to use of 1180m² of Erf 1944, Jan Jonker Drive, Klein Windhoek for "Office" purposes.

- Amendment of Table C1 of the Windhoek Town Planning Scheme to revise and include the above consent.

Erf 1944, Jan Jonker Drive, Klein Windhoek is a well-known landmark in Windhoek. It is a historical dwelling that has been incorporated in an upmarket development consisting of a hotel, a health and wellness centre, some restaurants and also dwelling units. The erf is zoned "Special" in the Windhoek Town Planning Scheme to include the above function (excluding office use).

The Body Corporate has been using part of the erf for its offices and for other purposes among other uses for some time now. It has, however, been brought to their attention that the consent for the use of the erf for office purposes among other uses is not in the City of Windhoek. It is on this background that they applied to the City to grant them consent to use 1180m² for the office component as well as amend Table C1 to include the "Office" in the allowable uses of Erf 1944, Klein Windhoek.

The intended application is in line with the Windhoek Structure plan and sufficient parking is provided for on-site as per the City of Windhoek requirements. It should be noted that the support for consent would not result in an increase in the bulk floor area allowed in use and neither will it change anything on the character of the development as it already accommodates some office floor area.

Further take notice that the locality plan of the erf lies for inspection on the Town Planning Notice Board in the Customer Care Centre, Municipal Offices, Rev. Michael Scott Street, Windhoek and at the office of Du Toit Town Planning, 4 Dr. Kwame Nkrumah Avenue, Klein Windhoek.

Further take notice that any person objecting to the proposed use of land as set out above may lodge such objection together with the grounds thereof with the City Council (the Urban Planner-Town House, Fifth Floor, Room 516) and the applicant within 14 days of the last publication of this notice (the date for objections/comments is 29 November 2021).

Should you require additional information you are welcome to contact our office.

NOTICE OF AN ENVIRONMENTAL ASSESSMENT & PUBLIC PARTICIPATION PROCESS FOR THE PROPOSED CONSTRUCTION OF A RAIL TRANSPORT STATION AND ASSOCIATED INFRASTRUCTURE FOR PARANAT TELECOMMUNICATIONS (PTY) LTD ON 861 SAG IN BARMATHIN, GROOTFONTEIN REGION, NAMIBIA.

Environmental Compliance Consultancy (ECC) hereby gives notice to the public that an application for an environmental assessment certificate in terms of the Environmental Management Act, No. 7 of 2007 will be made as per the following:

Applicant: Paranat Telecommunications (Pty) Ltd
Environmental Assessment Practitioner (EAP): Environmental Compliance Consultancy
Location: Barmathin, Grootfontein Region, Namibia

Project: The proposed communication tower involves the construction of a base transmitter station and associated infrastructure on 861 SAG, owned by Paranat Telecommunications (Pty) Ltd.

Locations: All activities will take place on 861 SAG, owned by Paranat Telecommunications (Pty) Ltd.

Proposed Activities: Paranat Telecommunications (Pty) Ltd proposes to construct a communication tower on 861 SAG in Barmathin to the north of Windhoek. The tower will consist of a base transmitter station and associated infrastructure. The proposed tower height will be 40 meters in order to provide adequate transmission and reception of telecommunication services.

Purpose of the review and registration period: The purpose of the review and registration period is to introduce the proposed project and to afford registered stakeholders and affected parties (SAPs) an opportunity to comment on the background information document (BID) to ensure that all issues and concerns are brought forward, captured and considered further in the assessment.

The registration period is effective from the 1st of November 2021 to the 18th of November 2021. SAPs and stakeholders are required to access the BID and register for the project at <https://www.environmental.com.na/eecc> or alternatively via all ECC to register.

The team at ECC will then maintain contact with all registered SAPs to keep them informed and engaged on the BID process developments. ECC will also provide registered SAPs with all relevant documents (including project Impact Assessment Report and EAP) to review during the assessment process.

Over poor services

SA's ANC faces tough municipal vote

Potholed roads, blocked drains, water shortages and power cuts are some of the daily realities for poor South Africans.

ALEXANDER WINNING AND SIYABONGA SISHI

In a township in South Africa's industrial heartland, raw sewage flows through the streets

and into people's homes. Dilapidated infrastructure and poor services in areas that have traditionally been strongholds of the governing African National Congress (ANC) could hurt it in municipal elections.

The former liberation movement is hoping to win back metropolitan voters it lost to opposition-led coalitions in 2016, when it suffered its worst election outcome since sweeping to power under Nelson Mandela in 1994.

But analysts are predicting a continued slide in the ANC's national support, possibly dipping below 50% for the first time from 54% five years ago.

"There is no respect for human dignity," said Motsamai Matsabu, a pensioner in Evaton, a township of concrete and brick houses near major steel works south of the commercial hub Johannesburg, a pool of grey sewage festering in his yard.

"It makes me wonder whether our existence is worthwhile," he added, declining to say how he will vote on Monday.

Potholed roads, blocked drains, water shortages and power cuts are some of the daily realities for poor South Africans in parts of South Africa's steel belt near the Vaal River that have historically voted ANC. Broken

“It makes me wonder whether our existence is worthwhile.”

Motsamai Matsabu
Pensioner: Evaton

ANC President Cyril Ramaphosa. PHOTO NAMPA/REUTERS

pipes and wastewater treatment plants, and the accompanying smell, are a reminder that 27-year-old promises of a better life for all after white minority rule ended remain unfulfilled for many.

Housing

"For many years I was still making my 'X' for ANC, but I want another party. I think ANC doesn't have that feeling for us," Mamkoti Mbhele, a hair salon owner in the Sebokeng township whose house floods in heavy rain, told Reuters.

ANC officials say it was always going to be difficult undoing decades of apartheid-era neglect. Lesego

Makhubela, spokesman for the ANC caucus in the provincial legislature of Gauteng, which includes Johannesburg and surrounding areas, said hundreds of newly built houses showed efforts to improve lives were bearing fruit.

ANC leader President Cyril Ramaphosa said on the campaign trail that the party had learned from its mistakes and would ensure municipalities are well-run. It is also mired in corruption scandals and faces criticism over extreme inequality and unemployment.

Gilberto Martins, an administrator appointed to help run the municipal-

ity that includes Evaton and Sebokeng, said the rotting infrastructure was worsened by vandalism and theft. Transformers had been sabotaged, and power cables and manholes stolen.

Residents have, meanwhile, formed a movement to field candidates in Monday's elections, capitalising on dissatisfaction with the ANC.

"We are now enjoying democracy in a dump," Ernest Nkpana, one of the New Horizon Movement's candidates, said. Analysts say getting less than 50% of the municipal vote would be a psychological blow for the ANC.

27 October 2021

Identified Stakeholder and Potentially Interested Party for:
Paratus Telecommunications (Pty) Ltd proposed the construction of a 48-meter high communication tower.

Dear Sir or Madam:

RE: NOTIFICATION OF AN ENVIRONMENTAL ASSESSMENT FOR THE PROPOSED CONSTRUCTION OF A BASE TRANSCEIVER STATION AND ASSOCIATED INFRASTRUCTURE FOR PARATUS TELECOMMUNICATIONS (PTY) LTD ON ERF 361 IN BRAKWATER, KHOMAS REGION, NAMIBIA.

Environmental Compliance Consultancy (ECC) has been engaged by Paratus Telecommunications (Pty) Ltd (the Proponent) to act on their behalf for the environmental clearance certificate application in terms of the Environmental Management Act, No. 7 of 2007 for the proposed construction of the communication tower.

This letter is intended to engage potentially Interested and Affected Parties (I&APs) for the project and provides a communication channel to ECC whilst the ESIA is ongoing. You have been identified as an interested or affected party and therefore ECC wishes to inform you of how you can interact with the ESIA.

The proponent proposes to construct a communication tower on Erf 361 in Brakwater to the north of Windhoek. The tower will consist of a base transceiver station and associated infrastructure. The preferred tower height will be 48 meters in order to provide adequate transmission and reception of telecommunication radio signals.

Public participation is an important part of the ESIA process, as it allows the I&APs to obtain information about the proposed project and provide feedback. Communication with the I&APs occurs at various stages throughout a project lifecycle including:

- Advertising in newspapers; public notice boards (already done);
- Distributing a Background Information Document (BID) to identified I&APs; available online at (<https://eccenvironmental.com/projects/>)
- Registered I&APs will also be informed of the available draft scoping report for a review period, during this period I&APs will have the opportunity to review the draft document and raise any issues or concerns, and
- I&APs who wish to register as such must do so on the ECC website as per the link provided below: <https://eccenvironmental.com/projects/>

If you are unable to complete the registration form online, please contact us via email for assistance. info@eccenvironmental.com

ECC values community input and participation in our projects and we look forward to working with you as the project develops.

Should you have any questions or require additional information please do not hesitate to contact either of us.

Yours sincerely,

Stephan Bezuidenhout
