

## THE RENEWAL OF THE ENVIRONMENTAL CLEARANCE CERTIFICATE (ECC) OF THE DECOMMISSIONING OF DUMPSITE NEAR KUVUKILAND INFORMAL SETTLEMENT IN TSUMEB, OSHIKOTO REGION.

Notice is hereby given that the Municipality of Tsumeb intends to apply for an Environmental Clearance Certificate (ECC) in terms of the Environmental Management Act No. 7 of 2007 and in line with the Environmental Impact Assessment regulations (GN of 6 February 2012).

The Tsumeb Municipality has commissioned the Environmental study to comply with the Environmental requirements as outlined in the Environmental Management Act (EMA) (Act No.7 of 2007). This was necessitated by numerous complaints from the public about the poorly operated municipal dumpsite and associated impacts on the biophysical and social environment. The existing dumpsite needs to be closed off, rehabilitated and an Environmental Impact Assessment for the new site as per Parts VII, VIII and IX of the Environmental Management Act of No.7 of 2007. SM Dynamic was appointed to undertake and facilitate the Environmental Scoping Study. The Consultant shall facilitate the EIA process for the site selection for the new landfill. The location of the current old dumpsite is within the Municipal boundaries of Tsumeb Municipality (Latitude – 19.24758056 and Longitude – 17.6831333) is 3.3 km along the B1 Tsumeb/Ondangwa road. This area sits on an area of about 70,000 m<sup>2</sup> (7 Ha) (Picture 1 below).
