MTC/MVA Fund Sponsored Classrooms Worth N\$3.4m Opened

Nghepondoka

Two blocks of classrooms and a laboratory constructed at the Tsumeb Primary School with the assistance of the Mobile Telecommunication Company (MTC) and the Motor Vehicle Assistance Fund (MVA) were officially handed over to the school this week.

The project valued at N\$3,4 million was implemented as part of the two companies Corporate Social Investment (CSI) and it is aimed at addressing the issue of overcrowded classrooms at the school.

The School principal, Petrina Shafewa, expressed her gratitude, noting that the school, with 992 learners, previously struggled with overcrowded classrooms, which hindered effective teaching and learning.

"We had a problem because we have so many learners, yet the classrooms were few. We are therefore grateful to MTC and MVA Fund for aiding us with much-needed infrastructure," said Shafewa.

Minister of Education, Arts, and Culture, Anna Nghipondoka, speaking at the handover event, emphasised the broader impact of such social investments.

She noted that improving educational infrastructure benefits not only the school but also the community, the region, and the entire country.

"By enhancing educational infrastructure, we are investing in the future of Namibia ensuring that our children have the tools and environ-

ment needed to excel, academically and socially," stated Nghipondoka.

The Minister also highlighted her Ministry's efforts to address a significant infrastructure backlog, which includes over 3,000 classrooms and other essential educational facilities.

Rosalie Hausiku, Chief Executive Officer of the MVA Fund, remarked on the importance of smart partnerships in driving the Fund's mission and vision to make a positive impact.

She reiterated the need for collective responsibility in advancing education in Namibia.

"Education is not the sole mandate of the government; it is the business of all. It is everyone's duty to help the country achieve the highest standards of education," said Hausiku.

In addition to the improvements at Tsumeb Primary School, MTC and the MVA Fund have committed to constructing additional classrooms and a store-room at Zadan Primary School in the Kavango-East Region later this year.

MTC's Corporate Affairs Officer, Tim Ekandjo, urged other Namibian corporations to actively engage in corporate social responsibility initiatives, particularly in the education sector.

He called on the private and public sectors to collaborate in addressing

national challenges such as education, housing, and poverty.

Ekandjo proposed that corporations, especially those profiting from large fishing quotas, should reinvest a portion of their income into the Namibian education sector.

"Education is a responsibility that we all carry as a nation and the issue of education is an issue of every corporate entity," stated Ekandjo.

The property is already developed but is still zoned "Public Open Space". Hence, it needs to be rezoned from Public Open Space to Institutional in line with the Onkara Town Planning Scheme. In terms of the Environmental Management Act (Act No. 97 of 2007), the rezoning of land zoned "Public Open Space" cannot be undertaken without an Environmental Clearance Certificate being obtained.

I&APs are hereby invited to register, request the Background Information Document (BID), and submit comments/inputs to info@greengain.com. The last day to submit inputs is on 25 July 2024.

The need for a public meeting will be determined after the consultation and communicated to all registered I&APs.
